Reducing Traffic Injury Ian R. Johnston, 1988

Eliminating Serious Injury and Death from Road Transport Ian Ronald Johnston, Carlyn Muir, Eric William Howard, 2013-12-11 The book explodes the myths that currently drive society's view of traffic safety and limit progress in reducing death and serious injury It presents current scientific knowledge in a non technical way and draws parallels with other areas of public safety and public health It uses examples from the media and from public policy debates to paint a clear picture of a flawed public policy approach and offers preventive medicine principles to take the field forward

Road Traffic Injury Prevention Training Manual Dinesh Mohan, Indian Institute of Technology, Delhi, 2006 Road traffic collisions kill about 1.2 million people around the world every year but they are largely neglected as a health and development issue perhaps because they are still viewed by many as being beyond human control Efforts to prevent road traffic injuries are hampered by a lack of human capacity Policy makers researchers and practitioners need information on effective prevention measures and on how to develop implement and evaluate such interventions There is a need to train more specialists in road traffic injury prevention in order to address the growing problem of road traffic injuries at international levels
