Referendum Papers Essays On Secession And National Unity:

The Routledge Handbook to Referendums and Direct Democracy Laurence Morel, Matt Qvortrup, 2017-12-12 Over the last 30 years referendums have played an increasingly important role in determining government policy. Recent high profile referendums in Scotland, Catalonia and Ukraine have continued the movement towards independence referendums following decolonization and the end of the Cold War. The Greek bailout referendum and Britain's vote on membership of the EU reflect a tradition of European states giving their people a direct say in the transfer of sovereign powers to the European Union seen through the ratification of key treaties such as Maastricht, Amsterdam, Nice and Lisbon. This Routledge Handbook covers key aspects and issues of direct democracy and referendums throughout the world including their history, when, why, where, how and on which issues referendums are held, why some referendums are more democratic than others, how referendums are won, whether they produce good policies, if referendums increase participation and improve the quality of representative democracies, do referendums increase trust in democracy and the political actors, the impact of new technology on the possibilities, methods and frequency of direct public political participation, how they should be regulated. Covering other related areas such as recall, citizen juries and random selection, this compendium is an indispensable guide to referendums and the workings of modern democracy.

Secession and Self Gregory Millard, 2008-10-24 The possibility of Quebec's departure has long haunted Canadian politics and English speaking Canadians have resisted such a break. But why and how does Quebec's membership in the existing constitutional order matter to Canadians outside Quebec?

Constitutional Politics in Multinational Democracies André Lecours, Nikola Brassard-Dion, Guy Laforest, 2021-07-15 Constitutional politics is exceptionally intense and unpredictable. It involves negotiations over the very nature of the state and the implications of self-determination. Multinational democracies face pressing challenges to the existing order because they are composed of communities with distinct cultures, histories and aspirations striving to coexist under mutually agreed-upon terms. Conflict over the recognition of these multiple identities and the distribution of power and resources is inevitable and indeed part of what defines democratic life in multinational societies. In *Constitutional Politics in Multinational Democracies*, Andr  Lecours, Nikola Brassard-Dion and Guy Laforest bring together experts on multinational democracies to analyze the claims of minority nations about their political future and the responses they elicit through constitutional politics. Essays focus on the nature of these states and the actors and political process within them. This framework allows for a multidimensional examination of crucial political periods in these democracies by assessing what constitutional politics is, who is involved in it and how it happens. Case studies include Catalonia and Spain, Puerto Rico and the United States, Scotland and the United Kingdom, Belgium, Bosnia and Herzegovina and Quebec and the M tis People in Canada. Theoretically significant and empirically rich, *Constitutional Politics in Multinational Democracies* is a necessary read for any student of multinationalism.

Constitutionalising Secession David Haljan, 2014-11-01 Constitutionalising Secession proceeds from the

question What if anything does the law have to say about a secession crisis But rather than approaching secession through the optic of political or nationalist institutional accommodation this book focuses on the underpinnings to a constitutional order as a law making community underpinnings laid bare by secession pressures Relying on the corrosive effects of secession it explores the deep structure of a constitutional order and the motive forces creating and sustaining that order A core idea is that the normativity of law is best understood through a constitutional optic as an integrative associative force Constitutionalising Secession critically analyses conceptions of constitutional order implicit in the leading models of secession and takes as a leading case study the judicial and legislative response to secession in Canada The book therefore develops a concept of constitutionalism and law making associative constitutionalism to describe their deep structure as a continuing integrative process of association This model of a dynamic process of value formation can address both the association and the disassociation of constitutional systems

Federalism and Territorial Cleavages Ugo M. Amoretti, Nancy Gina Bermeo, Professor of Politics Nancy Bermeo, 2004 One of the biggest problems facing developing countries is the integration of regions with different traditions and minority groups into a larger sovereignty This book analyses successes and failures of federalism in advanced industrial countries developing countries and post Communist regimes

The Referendum Papers C.D. Howe Institute, 1999 The Razor Thin Outcome of the October 1995 Referendum in Quebec was a jarring wake up call for English Canada forcing Canadians outside Quebec to confront the unthinkable This collection of papers by leading academics and analysts offers the most thorough examination yet of the main issues arising for the country out of the October referendum It considers not only what might be done to help the country survive but what should be done if it doesn't The book is divided into two parts the first focussing on ways to improve the social political and economic union of Canada The second confronts head on the possibility of Quebec separation and discusses the terms and processes of Quebec's possible departure As the recent Supreme Court decision made clear the time for reasoned negotiation with a soon to be independent Quebec may come Although committed to keeping the country together all the contributors to this volume share a commitment to democracy and the peaceful resolution of conflict The individual papers go beyond analysis to provide a clear set of proposals for action and change Originally commissioned by the C D Howe Institute the papers provide the first real blueprint for thinking about the unthinkable As such this collection will be of great interest to anyone concerned about the future of Canada and the future of Quebec

Constitutional Odyssey Peter H. Russell, 2004-09-13 Constitutional Odyssey is an account of the politics of making and changing Canada's constitution from Confederation to the present day Peter H Russell frames his analysis around two contrasting constitutional philosophies Edmund Burke's conception of the constitution as a set of laws and practices incrementally adapting to changing needs and societal differences and John Locke's ideal of a Constitution as a single document expressing the will of a sovereign people as to how they are to be governed The first and second editions of Constitutional Odyssey published in 1992 and 1993 respectively received wide ranging praise for

their ability to inform the public debate This third edition continues in that tradition Russell adds a new preface and a new chapter on constitutional politics since the defeat of the Charlottetown Accord in 1993 He also looks at the 1995 Quebec Referendum and its fallout the federal Clarity Act Quebec's Self Determination Act the Agreement on Internal Trade the Social Union Framework Agreement and the Council of the Federation progress in Aboriginal self determination such as Nunavut and the Nisga'a Agreement and the movement to reduce the democratic deficit in parliamentary government
