

Reflections in Bullough's Pond

A scenic photograph of Bullough's Pond in autumn. The water is calm, reflecting the surrounding trees and the sky. The trees on the right side of the pond have vibrant yellow and orange foliage, while the trees on the left are mostly green. In the background, a small white building with a blue roof is visible on the left, and a larger building with a red roof is on the right. The sky is a clear, pale blue.

Reflections In Bulloughs Pond Economy And Ecosystem In New England:

Reflections in Bullough's Pond Diana Karter Appelbaum, Diana Muir, 2000 A dramatic story of the interplay between environment and economy in New England *The Paradox of Power* Ballard C. Campbell, 2021-11-22 America's political history is a fascinating paradox The United States was born with the admonition that government posed a threat to liberty This apprehension became the foundation of the nation's civic ideology and was embedded in its constitutional structure Yet the history of public life in the United States records the emergence of an enormously powerful national state during the nineteenth century By 1920 the United States was arguably the most powerful country in the world In *The Paradox of Power* Ballard C Campbell traces this evolution and offers an explanation for how it occurred Campbell argues that the state in America is rooted in the country's colonial experience and analyzes the evidence for this by reviewing governance at all levels of the American polity local state and national between 1754 and 1920 Campbell poses five critical causal references war geography economic development culture and identity including citizenship and nationalism and political capacity This last factor embraces law and constitutionalism administration and political parties *The Paradox of Power* makes a major contribution to our understanding of American statebuilding by emphasizing the fundamental role of local and state governance to successfully integrate urban state and national governments to create a composite and comprehensive portrait of how governance evolved in America **This Grand & Magnificent Place** Christopher Johnson, 2006 A sweeping environmental history of a quintessential American wilderness **America's Founding Food** Keith Stavely, Kathleen Fitzgerald, 2006-03-08 From baked beans to apple cider from clam chowder to pumpkin pie Keith Stavely and Kathleen Fitzgerald's culinary history reveals the complex and colorful origins of New England foods and cookery Featuring hosts of stories and recipes derived from generations of New Englanders of diverse backgrounds *America's Founding Food* chronicles the region's cuisine from the English settlers' first encounter with Indian corn in the early seventeenth century to the nostalgic marketing of New England dishes in the first half of the twentieth century Focusing on the traditional foods of the region including beans pumpkins seafood meats baked goods and beverages such as cider and rum the authors show how New Englanders procured preserved and prepared their sustaining dishes Placing the New England culinary experience in the broader context of British and American history and culture Stavely and Fitzgerald demonstrate the importance of New England's foods to the formation of American identity while dispelling some of the myths arising from patriotic sentiment At once a sharp assessment and a savory recollection *America's Founding Food* sets out the rich story of the American dinner table and provides a new way to appreciate American history **The Gardiners of Massachusetts** T. A. Milford, 2005 An engaging biography of three generations of a prominent New England family *The Industrial Revolution* James S. Olson, Shannon L. Two Vermonts Paul M. Searls, 2006 *Two Vermonts* establishes a little known fact about Vermont that the state s fascination with tourism as a savior for a suffering economy is more than a century old and that this interest in tourism has always been dogged by controversy Through this lens the book is poised to take its place as the standard work on Vermont in the Gilded Age and the Progressive Era Searls examines the origins of Vermont s contemporary identity and some reasons why that identity Who is a Vermonter is to this day so hotly contested Searls divides nineteenth century Vermonters into conceptually uphill or rural parochial and downhill or urban cosmopolitan elements These two groups he says negotiated modernity in distinct and contrary ways The dissonance between their opposing tactical approaches to progress and change belied the pastoral ideal that contemporary urban Americans had come to associate with the romantic notion of Vermont Downhill Vermonters espousing a vision of a mutually reinforcing relationship between tradition and progress unilaterally endeavored to foster the pastoral ideal as a means of stimulating economic development The hostile uphill resistance to this strategy engendered intense social conflict over issues including education religion and prohibition in the late nineteenth and early twentieth centuries The story of Vermont s vigorous nineteenth century quest for a unified identity bears witness to the stirring and convoluted forging of today s Vermont Searls s engaging exploration of this period of Vermont s history advances our understanding of the political economic and cultural transformation of all of rural America as industrial capitalism and modernity revolutionized the United States between 1865 and 1910 By the late Progressive Era Vermont s reputation was rooted in the national yearning to keep society civil personal and meaningful in a world growing more informal bureaucratic and difficult to navigate The fundamental ideological differences among Vermont communities are indicative of how elusive and frustrating efforts to balance progress and tradition were in the context of effectively negotiating capitalist transformation in contemporary America
