Reflections Of Realism Paradox Norm And Ideology In Nineteenth Century German Prose:

Reflections of Realism Robert C. Holub, 1991. Comprises papers from the International Conference on title held Nov 1988 London UK on economics planning environmental impact safety control generators. Acidic paper no index. Holub German U of California Berkeley contends that realism is not primarily a textual property but a matter of reception and reexamines 19th century German literary realism by considering traditionally representative texts novellas and novels from the perspective of effects on readers. Annotation copyrighted by Book News Inc Portland OR. Reflections of Realism: Paradox, Norm, and Ideology in Nineteenth-century German Prose. By Robert C. Holub. Detroit, MI: Wayne State University Press, 1991. Ritchie Robertson, 1993. The Waiting Water Alexander Sorenson, 2024-09-15. The Waiting Water addresses one of the most recurrent and troubling motifs in German Realist literature: death by drowning. Characters find themselves before bodies of water presented with the familiar realm above the surface and the unobservable uncanny domain beneath it. With somber regularity they then disappear into the depths. Alexander Sorenson explores the role that these hidden deaths in water play within a literary movement that set out precisely to reveal universal truths about human life. The poetics of submergence he argues revolve around two concepts fundamental to Poetic Realism: order and sacrifice. Focusing on texts by Adalbert Stifter, Gottfried Keller, Marie von Ebner-Eschenbach and Theodor Storm along with material from earlier and later epochs, *The Waiting Water* shows that the pervasive symbolism of drowning scenes in German Realism, which typically occur in zones of narrative invisibility on the social periphery, reveals the extent to which realist narrative uses the natural environment to work through deeply embedded and hidden tensions that troubled the social and moral life of the age.

History, Fiction, and Germany Brent Orlyn Peterson, 2005. A study of the content development and transmission of German identity during the nineteenth century as Germany's national narrative took shape in historical fiction and in both popular and academic history. The German-speaking inhabitants of central Europe did not automatically think of themselves as Germans not before 1871 and not always after unification. In fact they spoke mutually incomprehensible dialects owed allegiance to different leaders, worshiped in different churches and would not have recognized each other's customs. If asked about their identity these prospective Germans might have answered Austrian, Bavarian or Prussian and they could as easily have used more local labels or resorted to occupational markers. For this disparate population to think of itself as German that word had to acquire content; people had to learn a whole set of stories they could tell themselves and to others in answer to the question of identity. *History, Fiction, and Germany* chronicles how German nationalism developed simultaneously with the historical novel and the field of history both at universities and in middlebrow reading material. The book examines Germany's emerging national narrative as nineteenth-century writers adapted it to their own visions and to changing circumstances. These writers found and popularized the nation's heroes and heroines, demonized its villains and enemies and projected the nation's hopes and dreams for the future. Author Brent O. Peterson argues that it was the production and

consumption of national history the writing and reading of the nation that filled Germany with Germans Although the task of national narration was never complete and never produced a single universally accepted version of German national identity tales from Germans gradually shared history did more to create Germany than any statesman general or philosopher History Fiction and Germany provides a valuable resource for scholars and students of German studies as well as anyone interested in history and the articulation of national identity

All is True Lilian R. Furst, 1995 All is true realist writers would say of their work to which critics now respond All is art and artifice Offering a new approach to reading nineteenth century realist fiction Lilian R Furst seeks to reconcile these contradictory claims In doing so she clarifies the deceptions appropriations intentions and ultimately the power of literary realism In close textual analyses of works ranging across European and American literature including paradigmatic texts by Balzac Flaubert George Eliot Zola Henry James and Thomas Mann Furst shows how the handling of time the presentation of place and certain narrational strategies have served the realists claim She demonstrates how readers today like those a hundred years ago are convinced of the authenticity of the created illusion by such means as framing voice perspective and the slippage from metonymy to metaphor Further Furst reveals the pains the realists took to conceal these devices and thus to protect their claim to be employing a simple form Taking into account both the claims and the covert strategies of these writers All Is True puts forward an alternative to the conventional polarized reading of the realist text which emerges here as neither strictly an imitation of an extraneous model nor simply a web of words but a brilliantly complex imbrication of the two A major statement on one of the most enduring forms in cultural history this book promises to alter not only our view of realist fiction but our understanding of how we read it

The Chain of Things Eric Downing, 2018-04-15 Shows how the connection between divinatory magic and reading shaped the experience of reading and aesthetics among nineteenth century realists and modernist thinkers including writers artists and critics such as Gottfried Keller Theodor Fontane and Walter Benjamin

Black Devil and Iron Angel Paul A. Youngman, 2005-11 Using Theodor Adorno and Max Horkheimer's seminal work on the dialectical nature of the Enlightenment as a framework Youngman makes the original claim that realist authors are a particularly rich source in which to study the intersection of technology and mythology

German Literature on the Middle East Nina Berman, 2011 An investigation of Germany and the Middle East through literary sources in the context of social economic and political practices

The Truth of Realism John Walker, 2017-12-02 In his new book Walker offers a radical reassessment of the German realist novel in the nineteenth century Especially in the English speaking world German narrative realism has persistently been interpreted as the literary expression of an ideology of the aesthetic The German realist novel is alleged to reflect philosophical idealism to reject the prose of modern society in favour of the poetry of the inner aesthetic life This book challenges that received view Walker argues that German narrative realism should be read not only in relation to but in crucial respects against the dominant philosophical idiom of nineteenth century Germany German narrative realism often

functions as a critique of the idea and ideology of inwardness in nineteenth century German culture To understand this the author argues we must reread German realist novels above all as narratives not as the supposed reflection of philosophical categories The core of the book is therefore the close reading of eight of the best known realist novels in German by Keller Raabe and Fontane This reading shows how the German realist novel far from transposing the assumptions of aesthetic idealism into narrative form exposes the real consequences of those assumptions in the culture and society of its time John Walker is Head of the School of Languages Linguistics and Culture at Birkbeck University of London At the Limit of the Obscene Erica Weitzman, 2021-02-15 As German language literature turned in the mid nineteenth century to the depiction of the profane sensual world a corresponding anxiety emerged about the terms of that depiction with consequences not only for realist poetics but also for the conception of the material world itself At the Limit of the Obscene examines the roots and repercussions of this anxiety in German realist and postrealist literature Through analyses of works by Adalbert Stifter Gustav Freytag Theodor Fontane Arno Holz Gottfried Benn and Franz Kafka Erica Weitzman shows how German realism's conflicted representations of the material world lead to an idea of the obscene as an excess of sensual appearance beyond human meaning the obverse of the anthropocentric worldview that German realism both propagates and pushes to its crisis At the Limit of the Obscene thus brings to light the troubled and troubling ontology underlying German realism at the same time demonstrating how its works continue to shape our ideas about representability alterity and the relationship of human beings to the non human well into the present day
