Oja, Judith Tick, 2018-06-05 Aaron Copland and His World reassesses the legacy of one of America's best loved composers at a pivotal moment as his life and work shift from the realm of personal memory to that of history This collection of seventeen essays by distinguished scholars of American music explores the stages of cultural change on which Copland's long life 1900 to 1990 unfolded from the modernist experiments of the 1920s through the progressive populism of the Great Depression and the urgencies of World War II to postwar political backlash and the rise of serialism in the 1950s and the cultural turbulence of the 1960s Continually responding to an ever changing political and cultural panorama Copland kept a firm focus on both his private muse and the public he served No self absorbed recluse he was very much a public figure who devoted his career to building support systems to help composers function productively in America This book critiques Copland's work in these shifting contexts The topics include Copland's role in shaping an American school of modern dance his relationship with Leonard Bernstein his homosexuality especially as influenced by the writings of Andr Gide and explorations of cultural nationalism

Copland's rich correspondence with the composer and critic Arthur Berger who helped set the parameters of Copland's reception is published here in its entirety edited by Wayne Shirley. The contributors include Emily Abrams, Paul Anderson, Elliott Antokoletz, Leon Botstein, Martin Brody, Elizabeth Crist, Morris Dickstein, Lynn Garafola, Melissa de Graaf, Neil Lerner, Gail Levin, Beth Levy, Vivian Perlis, Howard Pollack, and Larry Starr.

Rethinking American Music Tara Browner, Thomas Riis, 2019-03-16. In *Rethinking American Music* Tara Browner and Thomas L. Riis curate essays that offer an eclectic survey of current music scholarship. Ranging from Tin Pan Alley to Thelonious Monk to hip hop, the contributors go beyond repertory and biography to explore four critical yet overlooked areas: the impact of performance patronage's role in creating music and finding a place to play it; personal identity and the ways cultural and ethnographic circumstances determine the music that emerges from the creative process. Many of the articles also look at how a piece of music becomes initially popular and then exerts a lasting influence in the larger global culture. The result is an insightful state of the field examination that doubles as an engaging short course on our complex, multifaceted musical heritage.

Neoclassical Music in America R. James Tobin, 2014-07-02. From the 1920s to the 1950s, neoclassicism was one of the dominant movements in American music. Today, this music is largely in eclipse, mostly absent in performance and even from accounts of music history in spite of and initially because of its adherence to an expanded tonality. No previous book has focused on the nature and scope of this musical tradition. *Neoclassical Music in America: Voices of Clarity and Restraint* makes clear what neoclassicism was, how it emerged in America, and what happened to it. Music reviewer and scholar R. James Tobin argues that efforts to define musical neoclassicism as a style largely fail because of the stylistic diversity of the music that fall within its scope. However, neoclassicists as different from one another as the influential Igor Stravinsky and Paul Hindemith did have a classical aesthetic in common, the basic characteristics of which extend to other neoclassicists. This study focuses in particular on a group of interrelated neoclassical American composers who came to full maturity in the 1940s. These included Harvard professor Walter Piston, who had studied in France in the 1920s; Harold Shapero, the most traditional of the group; Irving Fine and Arthur Berger, his colleagues at Brandeis; Lukas Foss, later an experimentalist composer whose origins lay in neoclassicism of the 1940s; Alexei Haieff and Ingolf Dahl, both close associates of Stravinsky; and others. Tobin surveys the careers of these figures, drawing especially on early reviews of performances, before offering his own critical assessment of individual works. Adventurous collectors of recordings, performing musicians, concert and broadcasting programmers, as well as music and cultural historians and those interested in musical aesthetics will find much of interest here. Dates of composition, approximate duration of individual works, and discographies add to the work's reference value.
