American paratrooper to touch down on Normandy soil the glider pilot who braved antiaircraft fire to crash land mere yards from the vital Pegasus Bridge the brothers who led their troops onto Juno Beach under withering fire as well as a French commando returning to his native land who fought to destroy German strongholds on Sword Beach and beyond Readers will experience the sheer grit of the Rangers who scaled Pointe du Hoc and the astonishing courage of the airborne soldiers who captured the Merville Gun Battery in the face of devastating enemy counterattacks The first to fight when the stakes were highest and the odds longest these men would determine the fate of the invasion of Hitler's fortress Europe and the very history of the twentieth century The result is an epic of close combat and extraordinary heroism It is the capstone Alex Kershaw's remarkable career built on his close friendships with D Day survivors and his intimate understanding of the Normandy battlefield For the seventy fifth anniversary here is a fresh take on World War II's longest day Praise for The First Wave Masterful readers will feel the sting of the cold surf smell the acrid cordite that hung in the air and duck the zing of machine gun bullets whizzing overhead The First Wave is an absolute triumph James M Scott bestselling author of Target Tokyo These pages ooze with the unforgettable human drama of history's most consequential invasion John C McManus author of The Dead and Those About to Die The Immanent Divine John J. Thatamanil, While traditional Christian thought and spirituality have always affirmed the divine presence in human life Thatamanil argues we have much to learn from non dualistic Hindu thought especially that of the eighth century thinker Sankara and from the Christian panentheism of Paul Tillich Thatamanil compares their diagnoses and prognoses of the human predicament in light of their doctrine of God or Ultimate Reality What emerges is a new theology of God and human beings with a richer and more radical conception of divine immanence a reconceived divine transcendence and a keener sense of how the dynamic and active Spirit at work in us anchors real hope and deep joy Using key insights from Christian and Hindu thought Thatamanil vindicates comparative theology expands the vocabulary about the ineffable God and arrives at a new construal of the problems and prospects of the human condition **Reflections and Poetry to Ponder** Diane Hicks White, 2009-08 My poetry can best be described as a personal journey lived through depression From childhood through adulthood I have existed with depression I have always enjoyed reading and so with reading the idea of writing poetry came to mind Being able to express my emotions has played a big part on my road to recovery Seeing people like myself has helped me give more understanding of how depression affects the mind Through my poetry I have been able to talk of these emotions through faith in others who have helped me and through my faith in God who has never left me I try to end my poetry not in negativity but with a purposeful emotion that will give the reader hope a hope that he or she will someday reach that pinnacle in their lives that will help them to see beyond that hopelessness of depression Diane Hicks White 2007 **The Art of Effective Facilitation** Lisa M. Landreman, 2023-07-03 Co published with How can I apply learning and social justice theory to become a better facilitator Should I prepare differently for workshops around specific identities How do I effectively respond when things aren't going

as planned This book is intended for the increasing number of faculty and student affairs administrators at whatever their level of experience who are being asked to become social justice educators to prepare students to live successfully within and contribute to an equitable multicultural society It will enable facilitators to create programs that go beyond superficial discussion of the issues to fundamentally address the structural and cultural causes of inequity and provide students with the knowledge and skills to work for a more just society Beyond theory design techniques and advice on practice the book concludes with a section on supporting student social action The authors illuminate the art and complexity of facilitation describe multiple approaches and discuss the necessary and ongoing reflection process What sets this book apart is how the authors illustrate these practices through personal narratives of challenges encountered and by admitting to their struggles and mistakes They emphasize the need to prepare by taking into account such considerations as the developmental readiness of the participants and the particular issues and historical context of the campus before designing and facilitating a social justice training or selecting specific exercises They pay particular attention to the struggle to teach the goals of social justice education in a language that can be embraced by the general public and to connect its structural and contextual analyses to real issues inside and outside the classroom The book is informed by the recognition that the magic is almost never in the exercise or the handout but instead is in the facilitation and by the authors commitment to help educators identify and analyze dehumanizing processes on their campuses and in society at large reflect on their own socialization and engage in proactive strategies to dismantle oppression
