Reformers And War:

The Reformers on War, Peace, and Justice Timothy J. Demy, Mark J. Larson, J. Daryl Charles, 2019-09-23 Conflict and war were common during the Reformation era Throughout the sixteenth century rising religious and political tensions led to frequent conflict and culminated in the Thirty Years War 1618-48 that devastated much of Germany and killed one third of its population Some of the warfare as in central and southern Europe was between Christians and Muslims Other warfare in central and northwestern Europe was confessional warfare between Catholics and Protestants Religion was not the only cause of war during the period Revolts territorial ambitions and the beginnings of the contemporary nation state system and international order that emerged after the Treaty of Westphalia 1648 also fueled the trauma and tragedy of war In many ways the world of the Reformers and Protestant Reformation was a violent world and it was within such a sociopolitical framework that the Reformers and their followers lived worked and died This book introduces the teachings of the Protestant Reformers on war and peace in their context before offering relevant primary source readings

Wagner, 2015-05-05 This fascinating collection of primary source documents furnishes the accounts in their own words of those who initiated advanced or lived through the Reformation Starting in 1500 Europe transformed from a united Christendom into a continent bitterly divided between Catholicism and Protestantism by the end of the century This illuminating text reveals what happened during that period by presenting the social religious economic political and cultural life of the European Reformation of the 16th century in the words of those who lived through it Detailed and comprehensive the work includes 60 primary source documents that shed light on the character personalities and events of that time and

provides context questions and activities for successfully incorporating these documents into academic research and reading projects A special section provides guidelines for better evaluating and understanding primary documents Topics include late medieval religion Martin Luther reformation in Germany and the Peasants War the rise of Calvinism and the English Reformation *The Rights of the Defenseless* Susan J. Pearson,2011-07-15 In this work Pearson seeks to understand the institutional cultural legal and political significance of the perceived bond between animals and children and the attempts made to protect them **Revisiting Prussia's Wars against Napoleon** Karen Hagemann,2015-03-30 In 2013 Germany celebrated the bicentennial of the so called Wars of Liberation 1813 15 These wars were the culmination of the Prussian struggle against Napoleon between 1806 and 1815 which occupied a key position in German national historiography and memory Although these conflicts have been analyzed in thousands of books and articles much of the focus has been on the military campaigns and alliances Karen Hagemann argues that we cannot achieve a comprehensive understanding of these wars and their importance in collective memory without recognizing how the interaction of politics culture and gender influenced these historical events and continue to shape later recollections of them She thus explores the highly contested discourses and symbolic practices by which individuals and groups interpreted these wars and made political claims beginning with the period itself and ending with the centenary in 1913
