Reforming Infrastructure Ioannis Nicolaos Kessides, 2004 Electricity natural gas telecommunications railways and water supply are often vertically and horizontally integrated state monopolies This results in weak services especially in developing and transition economies and for poor people Common problems include low productivity high costs bad quality insufficient revenue and investment shortfalls Many countries over the past two decades have restructured privatized and regulated their infrastructure This report identifies the challenges involved in this massive policy redirection It also assesses the outcomes of these changes as well as their distributional consequences for poor households and other disadvantaged groups It recommends directions for future reforms and research to improve infrastructure performance identifying pricing policies that strike a balance between economic efficiency and social equity suggesting rules governing access to bottleneck infrastructure facilities and proposing ways to increase poor people s access to these crucial services Reforming

Infrastructure Ioannis Nicolaos Kessides, 2004 *Reforming Infrastructure* Ioannis Nicolaos Kessides, Electricity natural gas telecommunications railways and water supply are often vertically and horizontally integrated state monopolies This results in weak services especially in developing and transition economies and for poor people Common problems include low productivity high costs bad quality insufficient revenue and investment shortfalls Many countries over the past two decades have restructured privatized and regulated their infrastructure This report identifies the challenges involved in this massive policy redirection It also assesses the outcomes of these changes as well as their distributional consequences for poor households and other disadvantaged groups It recommends directions for future reforms and research to improve infrastructure performance identifying pricing policies that strike a balance between economic efficiency and social equity suggesting rules governing access to bottleneck infrastructure facilities and proposing ways to increase poor people s access to these crucial services *The World Bank Research Program 2004* World Bank, 2005 The World Bank s research is intended to address critical issues and problems facing member governments in developing and transition economies How can the governments of the poorest countries generate enough revenue to provide the education and health services essential to reducing poverty and promoting growth and development How can poor countries attract investors to build the infrastructure their economies need How can they develop systems to bring clean water to the 2 billion people without it today How can they train teachers and bring to class the 115 million children who have not yet received any education And how can rich countries be persuaded to lower market barriers helping to reverse the decline in export prices for poor countries that has left them earning less from trade today than in the 1970s These are the types of questions that are addressed in this edition of *The World Bank Research Program Abstracts from Current Studies* This volume reports on research projects initiated under way or completed from July 2003 through June 2004 It covers 151 research projects on several broad development related issues including agriculture health education environment infrastructure investment

climate and more The abstract for each project describes the questions addressed the analytic methods used the findings to date and policy implications **OECD Studies on Water Private Sector Participation in Water Infrastructure OECD Checklist for Public Action** OECD,2009-03-16 Provides a coherent catalogue of policy directions including appropriate allocation of roles risks and responsibilities framework conditions and contractual arrangements necessary to make the best of private sector participation in water infrastructure *The Child Health Implications of Privatizing Africa's Urban Water Supply* Katrina Kosec,2013-05-10 Identifying policies which can improve water sector management is critically important given the global burden of water related disease Each year 1 in 10 child deaths roughly 800 000 in total is the direct result of diarrhea Can private sector participation PSP in the urban piped water sector improve child health The author uses child level data from 39 African countries during 1986 2010 to show that introducing PSP decreases diarrhea among urban dwelling children under five years of age by 5.6 percentage points or 35 percent of its mean prevalence PSP also leads to greater reliance on piped water To attribute causality the author exploits time variation in the private water market share controlled by African countries former colonizers A placebo analysis reveals that PSP does not affect symptoms of respiratory illness in the same children nor does it affect a rural control group unaffected by PSP **Sustainable Infrastructure for Cities and Societies** Michael Neuman,2021-12-30 The central role of infrastructure to cities and in particular their sustainability is essential for proper planning and design since most energy and materials are themselves consumed by or through infrastructures Moreover infrastructures of all types affect matters of economic and social equity due to access that they provide or prevent Sustainable Infrastructure for Cities and Societies shows how fundamental planning design finance and governance principles can be adapted for sustainable infrastructure to provide solutions to make cities significantly more sustainable By providing a contemporary overview on infrastructure cities planning economies and sustainability the book addresses how to plan design finance and manage infrastructure in ways that reduce consumption and harmful impacts while maintaining and improving life quality It considers the interrelationships between the economic political societal and institutional frameworks providing an integrative approach including livability and sustainability principles and practice and planning and design It further translates these approaches that professionals policymakers and leaders can use This approach gives the book wide appeal for students researchers and practitioners hoping to build a more sustainable world

European Business Debra Johnson,Colin Turner,2007-01-24 Fully revised and updated this new edition of an already well established text is easy to use engagingly written and contains a wealth of pedagogical features Exploring the European business environment paying particular attention to the role of member states and how Europe interacts with the rest of the world the authors examine what is unique about the European business environment integration how it has affected the strategy and behaviour of businesses with a European presence New to this edition is new material on the single European market the single currency and related policy issues issues not dealt with elsewhere such as the European consumer

entrepreneurship sustainability and Europe's relationship with emerging economies like China an attractive new design and new pedagogical features including numerous topical case studies to illustrate the themes explored chapter objectives discussion questions boxed supporting information and extensive further reading and resources a companion website to provide extra material for students and lecturers European Business is an essential read for all students of international business Visit the Companion website at www.routledge.com/textbooks/9780415351355 Regulating Development Edmund Amann, 2006 Regulating Development examines the impact that regulation good or bad can have on the development of poorer societies It opens with a succinct review of critical issues including the implications of the spread of intellectual property rights legislation and the role of the World Trade Organisation WTO The volume examines the regulatory experiences of three important developing economies Brazil Ghana and South Africa Key regulatory themes are analysed most notably capital markets and corporate governance regulation the regulation of the telecommunications sector and the use of regulatory reforms to promote the development of small and medium sized enterprises Within each chapter policy lessons are drawn the relevance of which extend well beyond national or even regional boundaries The principal aim of the book is to show the extent to which regulation is moving increasingly to centre stage as a driver of development in Africa and Latin America The book also demonstrates how thoughtful well planned regulation can make a real contribution to the emergence of supply side competitiveness This book will be invaluable reading for academics researchers and students with an interest in economics and development studies as well as for regulators and policymakers in developing countries *The Routledge Companion to Network Industries* Matthias Finger, Christian Jaag, 2015-11-19 In recent decades network industries around the world have gone through periods of de and re regulation With vast amounts of sometimes conflicting research carried out into specific network industries the time has come for a critical overarching assessment of this entire industry in order to provide a platform of understanding to aid future research and practice This comprehensive resource provides an orientation for academics policy makers and managers as to the main economic regulatory and commercial challenges in the network industries The book is split into sections covering market policy regulation management perspectives whilst all of the key network industries are covered including energy transport water and telecommunications Overseen by world class Editors and experts in the field this interdisciplinary resource is essential reading for students and researchers in international business industrial economics and the industries
