Refractory Metlas Silicides Proc Of 4t:

Proceedings of the Symposium on Multilevel Metallization, Interconnection, and Contact Technologies L. B. Rothman, T. Herndon, 1987 *Refractory Metals in Molten Salts* D.H. Kerridge, Evgeny G. Polyakov, 2013-04-17 This NATO Advanced Research Workshop was devoted to a specialized topic in molten salt chemistry and was held in an exotic location as far as Westerners were concerned well within the Arctic Circle It nevertheless facilitated a fruitful week both of science and of human contacts The 42 oral presentations and posters from nine countries enabled the 59 participants to learn a great deal about many areas of recent research in the molten salt chemistry of refractory metals while making new contacts as well as renewing old friendships The time of informal contact led to the beginning of a number of new research cooperations with interchange of personnel Thus the twin aims of advancing science and improving East West understanding were both amply fulfilled Indeed a warm and happy family atmosphere was very tangible both during the scientific sessions and the social events which participants accompanying persons and local staff all enjoyed This opportunity of living for a short time within the Arctic Circle was a novelty for most Westerners who generally appreciated the very warm weather the hottest for 20 years according to some residents as well as the beautiful surroundings of very green birch pine forest rushing rivers vast lakes and rounded mountains frequently illuminated by wonderful sunsets The evening barbeque beside Lake Imandra 100 km long and the coach tour beside the beautiful White Sea dotted with islands in the Kandalaksha Recreational Area National Park to sample Pomor culture dancing and fresh salmon soup were high spots of the social programme **Dry Etching for VLSI** A.J. van Roosmalen, J.A.G. Baggerman, S.J.H. Brader, 2013-06-29 This book has been written as part of a series of scientific books being published by Plenum Press The scope of the series is to review a chosen topic in each volume To supplement this information the abstracts to the most important references cited in the text are reprinted thus allowing the reader to find in depth material without having to refer to many additional publications This volume is dedicated to the field of dry plasma etching as applied in silicon semiconductor processing Although a number of books have appeared dealing with this area of physics and chemistry these all deal with parts of the field This book is unique in that it gives a compact yet complete in depth overview of fundamental systems processes tools and applications of etching with gas plasmas for VLSI Examples are given throughout the fundamental sections in order to give the reader a better insight in the meaning and magnitude of the many parameters relevant to dry etching Electrical engineering concepts are emphasized to explain the pros and cons of reactor concepts and excitation frequency ranges In the description of practical applications extensive use is made of cross referencing between processes and materials as well as theory and practice It is thus intended to provide a total model for understanding dry etching The book has been written such that no previous knowledge of the subject is required It is intended as a review of all aspects of dry etching for silicon semiconductor processing Dry Etching for Microelectronics R.A. Powell, 2012-12-02 This volume collects together for the first time a series of in depth critical reviews

of important topics in dry etching such as dry processing of III V compound semiconductors dry etching of refractory metal silicides and dry etching aluminium and aluminium alloys This topical format provides the reader with more specialised information and references than found in a general review article In addition it presents a broad perspective which would otherwise have to be gained by reading a large number of individual research papers An additional important and unique feature of this book is the inclusion of an extensive literature review of dry processing compiled by search of computerized data bases A subject index allows ready access to the key points raised in each of the chapters
