Refugees From Nowhere:

Refugees from Nowhere George W. Bourland, 1968 **Immigrant and Asylum Seekers Labour Market Integration upon Arrival: NowHereLand** Irina Isaakyan, Anna Triandafyllidou, Simone Baglioni, 2022-11-18 Through an inter subjective lens this open access book investigates the initial labour market integration experiences of these migrants refugees or asylum seekers who are characterised by different biographies and migration asylum trajectories The book gives voice to the migrants and seeks to highlight their own experiences and understandings of the labour market integration process in the first years of immigration It adopts a critical qualitative perspective but does not remain ethnographic The book rather refers the migrants own voice and experience to their own expert knowledge of the policy and socio economic context that is navigated Each chapter brings into dialogue the migrant s intersubjective experiences with the relevant policies and practices as well as with the relevant stakeholders whether local government national services civil society or migrant organisations The book concludes with relevant critical insights as to how labour market integration is lived on the ground and on what migrants do with labour market policies rather than on what labour market policies do to or for migrants

The League of Nations and the Refugees from Nazi Germany Greg Burgess, 2016-10-20 Greg Burgess s important new study explores the short life of the High Commission for Refugees Jewish and Other Coming from Germany from its creation by the League of Nations in October 1933 to the resignation of High Commissioner James G McDonald in December 1935 The book relates the history of the first stage of refugees from Germany through the prism of McDonald and the High Commission It analyses the factors that shaped the Commission s formation the undertakings the Commission embarked upon and its eventual failure owing to external complications The League of Nations and the Refugees from Nazi Germany argues that in spite of the Commission s failure the refugees from Nazi Germany and the High Commission s work mark a turn in conceptions of international humanitarian responsibilities when a state defies standards of proper behaviour towards its citizens From this point on it was no longer considered sufficient or acceptable for states to respect the sovereign rights of another if the rights of citizens were being violated Greg Burgess discusses this idea amongst others in detail as part of what is a crucial volume for all scholars and students of Nazi Germany the Holocaust and modern Jewish history The Refugees Convention 50 Years on Susan Kneebone, 2018-04-27 This title was first published in 2003 The authors of the essays in this collection all internationally recognised refugee scholars and practitioners look at the controversial hot topic of refugee rights They consider whether 50 years after its agreement the Refugees Convention can provide an adequate framework for protection In particular the authors address the effect of globalization upon the human rights of asylum seekers and refugees the efficacy of the Convention as an instrument of international law the role of the UNHCR whether NGOs are effective instruments for change and nationality and citizenship issues They also consider alternatives and options for solutions to the global refugee problem **Administration's Proposed Refugee Admissions Program for Fiscal Year 1993** United

A House Next Door to Trauma Judith Hassan, 2003 Judith Hassan's book discusses the kinds of demands placed on those who work with war survivors and opens up issues for others in the field of war trauma to answer in their own particular and appropriate way. A House Next Door to Trauma points to a different way of becoming a neighbour to all those who suffer extreme war experiences.

Child Refugee Asylum as a Basic Human Right Sonja C. Grover, 2018-05-24 This book addresses the intersection of various domains of international law: refugee law, human rights law, including child rights, international law, and humanitarian law in terms of the implications for State obligations to child refugee asylum seekers in particular both as collectives and as individual persons. How these State obligations have been interpreted and translated into practice in different jurisdictions is explored through selected problematic significant cases. Further, various threats to refugee children realizing their asylum rights, including refoulement of these children through State extraterritorial and pushback migration control strategies, are highlighted through selected case law. The argument is made that child refugee asylum seekers must not be considered in theory or in practice beyond the protection of the law if the international rule of law grounded on respect for human dignity and human rights is in fact to prevail.

Lionboy: The Chase Zizou Corder, 2005-06-02 Charlie Ashanti is on the run from an amazing floating circus with six homesick beautiful Lions and an extraordinary sabre-toothed creature. Charlie has promised to help the Lions find their way home to Morocco but he has his own problems: his Mum and Dad have been kidnapped and he is determined to find them. His new friends King Boris of Bulgaria and his security chief Edward have promised to help. But Charlie wonders if he was wrong to trust them when he and the Lions find themselves held virtually as prisoners in Venice. They eventually escape with the help of a friendly gondolier and after a dangerous sea journey the Lions finally make it home and Charlie is at last reunited with his parents.

Refugees and Forced Displacement in Northern Ireland's Troubles Niall Gilmartin, Brendan Ciarán Browne, 2022-10-15 Though forced displacement constituted a central and pervasive feature of the Northern Ireland Troubles, affecting tens of thousands of citizens, remarkably it has been afforded little more than a footnote or fleeting reference in most accounts of the conflict. This book seeks to end the silence surrounding this neglected and ubiquitous aspect of the conflict. Based on 88 in-depth qualitative interviews with victims and survivors and extensive secondary research, this fascinating study provides the first comprehensive examination of forced displacement in Northern Ireland. The analysis presented captures the unique perspectives of those forcibly uprooted over the course of the 30-year conflict and places on historical record their stories and experiences. This thought-provoking work challenges and broadens prevailing understandings of conflict-related violence, harm, and loss in Northern Ireland to demonstrate the centrality of forced movement, territory, and demographics to the roots and subsequent trajectory of the Troubles. In doing so, it shows that to fully understand the eruption and outplaying of the Troubles and its elusive peace engagement with and understanding of the

legacy of forced displacement is crucial *Governing the Displaced* Ali Bhagat, 2024-02-15 *Governing the Displaced* answers a straightforward question how are refugees governed under capitalism in this moment of heightened global displacement To answer this question Ali Bhagat takes a dual case study approach to explore three dimensions of refugee survival in Paris and Nairobi shelter work and political belonging Bhagat s book makes sense of a global refugee regime along the contradictory fault lines of passive humanitarianism violent exclusion and organized abandonment in the European Union and East Africa *Governing the Displaced* highlights the interrelated and overlapping features of refugee governance and survival in these seemingly disparate places In its intersectional engagement with theories of racial capitalism with respect to right wing populism labor politics and the everyday forms of exclusion the book is a timely and necessary contribution to the field of migration studies and to political economy
