Rights And Responsibilities:

What Are Rights and Responsibilities? Leslie Harper, 2012-08-15 Readers will learn about a citizen's rights and responsibilities through engaging accessible text. After reading they will be able to define the difference between a right and a responsibility, give examples of rights people have stood up and fought for, and of responsibilities that are part of good citizenship. Readers will gain a new understanding of the importance of the relationship between citizenship and society.

Rights and Responsibilities, 1995 Multiple generations in families as well as their wider communities have clearly defined responsibilities for care and nutrition, for the equitable distribution of social and economic resources within the family unit, and for the protection of individual members. However, governments also have responsibilities to ensure that family members are protected, especially those who are vulnerable or dependent. If the family environment becomes noxious for its members and subjects them to abuse and neglect, then governments have a responsibility to take appropriate action to address the situation. In summary, the perspective indicates that while it is the role of the family to nurture, care for, and protect children and other vulnerable family members, governments also have a role in providing adequate resources to enable them to do so. Clearly, then, rights and responsibilities accrue to the state as well as to families. Introduction: rights, responsibilities, and social investment by Rajen Prasad, page vii

Exploring Corporate Human Rights Responsibilities in OECD Case Law

Otgontuya Davaanyam, Markus Krajewski, 2025-01-03 This open access book consolidates a collection of scholarly papers presented at the academic conference titled Corporate Human Rights Responsibility in OECD Case Law: Actors, Issues, Responsibilities, and Remedies, held on 4 and 5 May 2023. The conference was organized by the OECD Case Law Project at Friedrich-Alexander-Universität Erlangen-Nürnberg. The book is divided into three sections. The first examines how NCP cases interpret corporate responsibilities, including financial institutions, on human rights and environmental issues, focusing on climate change and conflict-affected zones. It also highlights how OECD cases address corporate accountability and its impact on the revised OECD Guidelines and the EU Corporate Sustainability Due Diligence Directive (CSDDD). The second section critically evaluates the NCP mechanism's effectiveness, assessing whether it provides substantive remedies and how well NCP mediation resolves disputes. It offers both quantitative and qualitative analysis of the grievance processes in line with UNGP effectiveness criteria. The third section explores the NCP's role in global corporate responsibility frameworks, particularly its potential influence on shaping mandatory due diligence obligations through frameworks like the CSDDD, reinforcing corporate accountability in international business practices. Additionally, the book offers key recommendations for policymakers, NCP experts, and practitioners on improving the NCP system to ensure more meaningful outcomes for human rights violations.

Corporate Social and Human Rights Responsibilities K. Buhmann, L. Roseberry, M. Morsing, 2010-12-08 This book challenges the separation between CSR and law. Human Rights Responsibilities in the Digital Age Jonathan Andrew, Frédéric Bernard, 2021-08-26 This book examines the tangled responsibilities of states companies and individuals surrounding human rights in the digital age Digital technologies have a huge impact for better and worse on human lives while they can clearly enhance some human rights they also facilitate a wide range of violations States are expected to implement efficient measures against powerful private companies but at the same time they are drawn to technologies that extend their own control over citizens Tech companies are increasingly asked to prevent violations committed online by their users yet many of their business models depend on the accumulation and exploitation of users personal data While civil society has a crucial part to play in upholding human rights it is also the case that individuals harm other individuals online All three stakeholders need to ensure that technology does not provoke the disintegration of human rights Bringing together experts from a range of disciplines including law international relations and journalism this book provides a detailed analysis of the impact of digital technologies on human rights which will be of interest to academics research students and professionals concerned by this issue

Persons and Their Bodies: Rights, Responsibilities, Relationships Mark J. Cherry, 2006-04-11 Debate regarding organ sales is largely innocent of the history of thought on the matter This volume seeks to remedy this shortcoming Positions for or against a market in human organs are nested within moral intuitions ontological or political theoretical premises or understandings of special moral concerns such as permissible uses of the body which have a long history of analysis The essays compass the views of Plato Aristotle Aquinas Locke Kant Hegel Mill and Christianity as well as particular methodological approaches such as the phenomenology of the body natural law theory legal theory and libertarian critique of legal theory These discussions cluster a number of conceptually independent philosophical concerns 1 What is the appropriate understanding of the relationship between persons and their bodies 2 What does it mean to own an organ 3 Do governments have moral authority to regulate how persons use their own body parts 4 What are the costs and benefits of a market in human organs Such questions are related by an urgent public health challenge the considerable disparity between the number of patients who could significantly benefit from organ transplantation and the number of human organs available for transplantation This volume explores the theoretical normative and historical foundations for alternative policies for procurement and transplantation of human organs
