## Short Stories Enlarged:

Enlarging the Story Wilbert R. Shenk, 2011-09-08 Contributors Philip Yuen Sang Leung Mathias Mundadan Gerald J Pillay Lamin Sanneh Andrew F Walls      **The Collected Short Stories of Murray Leinster** Murray Leinster, 2023-12-15 Murray Leinster's *The Collected Short Stories of Murray Leinster* offers a rich tapestry of science fiction narratives that reflect the author's pioneering contributions to the genre. Characterized by concise prose and inventive concepts, Leinster's stories traverse themes of technology, human interaction with the cosmos, and speculative futures. Written during the early to mid-20th century, his works often echo the cultural anxieties and aspirations of a rapidly modernizing world, making them both timely and timeless. The collection showcases Leinster's versatility, from thrilling space voyages to thought-provoking social commentaries, each piece illustrating his mastery of narrative structure and imaginative depth. Murray Leinster, born as William Fitzgerald Jenkins, was a prolific writer whose extensive career spanned over seven decades. His profound interest in technology and science, likely influenced by his upbringing in the early 20th century, manifests in his insightful explorations of the unknown. Leinster's writings not only captivated readers but also influenced future generations of science fiction authors, making his perspectives invaluable in understanding the evolution of the genre. This anthology is a must-read for both enthusiasts and scholars of science fiction. Leinster's ability to blend engaging storytelling with thought-provoking themes renders this collection essential for understanding pivotal shifts in speculative literature. Dive into these tales and discover the roots of concepts that continue to resonate within the genre today.

*Political Theory and the Enlarged Mentality* Stephen Acreman, 2017-10-20 In this book, Stephen Acreman follows the development and reception of a hitherto under-analyzed concept central to modern and postmodern political theory: the Kantian *erweiterte Denkungsart* or enlarged mentality. While the enlarged mentality plays a major role in a number of key texts underpinning contemporary democratic theory, including works by Arendt, Gadamer, Habermas, and Lyotard, this is the first in-depth study of the concept, encompassing and bringing together its full range of expressions. A number of attempts to place the enlarged mentality at the service of particular ideals—the politics of empathy, of consensus, of agonistic contest, or of moral righteousness—are challenged and redirected. In its exploration of the enlarged mentality, the book asks what it means to assume a properly political stance and, in giving as the answer, facing reality together, it uncovers a political theory attentive to the facts and events that concern us and uniquely well-suited to the ecological politics of our time.
