

STORIES LESSON SHORT INSIGHT

My mind has been opened to the idea that stories can also help us understand others and ourselves, which is a wonderful thing considering the lesson I've learned recently. The characters we come across in fiction elicit empathy in us. Stories enrich people's lives and offer advice on how to live, in addition to advancing scholastic objectives. It is important for students to comprehend the aspects of stories since doing so improves comprehension, fosters a greater appreciation for stories, and teaches them how to create their own stories. I consider myself fortunate to also understand the kinds of characters that contribute to the plot. Readers can enter the world you've built through the characters you've developed, both through their interactions with and perceptions of their surroundings. Because tales are something we constantly encounter—not just in books and television programs, but also in today's age of social media users—I can apply this lesson in the future. we definitely need to study about it because it is something that we will encounter outside of the classroom as well as in order to provide us with humorous purposes.
