Cognitive Literary Science Michael Burke, Emily Troscianko, 2017 This book brings together researchers with cognitive scientific and literary backgrounds to present innovative research in all three variations on the possible interactions between literary studies and cognitive science The tripartite structure of the volume reflects a more ambitious conception of what cognitive approaches to literature are and could be than is usually encountered and thus aims both to map out and to advance the field The first section corresponds to what most people think of as cognitive poetics or cognitive literary studies the study of literature by literary scholars drawing on cognitive scientific methods findings and or debates to yield insights into literature The second section demonstrates that literary scholars needn't only make use of cognitive science to study literature but can also in a reciprocally interdisciplinary manner use a cognitively informed perspective on literature to offer benefits back to the cognitive sciences Finally the third section literature in cognitive science showcases some of the ways in which literature can be a stimulating object of study and a fertile testing ground for theories and models not only to literary scholars but also to cognitive scientists who here engage with some key questions in cognitive literary studies with the benefit of their in depth scientific knowledge and training

Patent and Trademark Office, 2006 *Literary Theory and Criticism* Samiran Kumar Paul, 2020-12-08 Literary theory and
 criticism aims to cater to the academic requirements of college and university students and research scholars Among the
 students of English literature it is found that they are mostly engaged in genres like poetry novel drama prose and essay My
 endeavour for such students and scholars is to make this book a supplement to their marginalized genres such as theory and
 criticism The Transnational in Literary Studies Kai Wiegandt, 2020-07-06 This volume clarifies the meanings and
 applications of the concept of the transnational and identifies areas in which the concept can be particularly useful The
 division of the volume into three parts reflects areas which seem particularly amenable to analysis through a transnational
 lens The chapters in Part 1 present case studies in which the concept replaces or complements traditionally dominant
 concepts in literary studies These chapters demonstrate for example why some dramatic texts and performances can better
 be described as transnational than as postcolonial and how the transnational underlies and complements concepts such as
 world literature Part 2 assesses the advantages and limitations of writing literary history with a transnational focus These
 chapters illustrate how such a perspective loosens the epistemic stranglehold of national historiographies but they also argue
 that the transnational and national agendas of literary historiography are frequently entangled The chapters in Part 3 identify
 transnational genres such as the transnational historical novel transnational migrant fiction and translinguistic theatre and
 analyse the specific poetics and politics of these genres Thinking through Children's Literature in the Classroom Agustín
 Reyes-Torres, Luis S. Villacañas-de-Castro, Betlem Soler Pardo, 2014-06-30 This book is the result of understanding literature
 as a central part of children's education Fiction and nonfiction literary works constitute a source to open young minds and to
