The Power of God in Paul's Letters Petrus J. Gräbe, 2008 The concept of God's power is a leading motif in Pauline theology It functions in key passages of Paul's letters and is intrinsically linked to his theology of the cross and its soteriological explication in the message of justification Because this concept is so closely related to the message of the cross Paul often speaks of power in a paradoxical context Although power is generally assumed to be an important motif in Pauline theology the concept has not yet been fully explored Petrus J Grabe investigates the concept of God's power in Paul's letters He also gives an overview of God's power in the broader New Testament context in order to distinguish more clearly the specific Pauline interpretation of the power of God The investigation comprises three sections A lexico and conceptual historical overview of the concept of power an exegetical investigation of the concept of God's power in Paul's letters and a theological scope of the concept of God's power in the Pauline letters In the last section Petrus J Grabe distinguishes between a theological christological and a pneumatological emphasis The concept of God's power plays an important role in the way Paul views his apostolic ministry In the concluding chapter the author therefore deals with Paul's ministry within the christological perspective on weakness and power The work is an important contribution to Pauline studies and is a well researched thorough and scholarly study Jeffrey R Asher in *The Catholic Biblical Quarterly* vol 64 2002 page 762 This book is a useful refresher course on Paul with a valuable dialogue with the most recent monographs and commentaries on his letters Benedict T Viviano in *Zeitschrift für Missions und Religionswissenschaft* Jahrgang 86 2002 p 74 **Structures of Epic Poetry** Christiane Reitz, Simone Finkmann, 2019-12-16 This compendium 4 vols studies the continuity flexibility and variation of structural elements in epic narratives It provides an overview of the structural patterns of epic poetry by means of a standardized stringent terminology Both diachronic developments and changes within individual epics are scrutinized in order to provide a comprehensive structural approach and a key to intra and intertextual characteristics of ancient epic poetry Catalog of Copyright Entries Library of Congress. Morris, 2005-11-01 In his 1955 examination of Jonathan Edwards formative years Morris undertook a corrective of the prevailing view of Edwards relation to John Locke The result is an analysis of the intellectual milieu inhabited by Edwards during the years in which his philosophical vocabulary and his seminal theological concepts evolved Long an unpublished dissertation this massive work reflects that most unusual combination of being a pioneering exploration and most likely a definitive evaluation Dr Kenneth Minkema Executive Director of the Jonathan Edwards Center Yale University Other scholars have filled in our picture of Jonathan Edwards mental world adding new shades hues and detail to our view of the young theologian But no one matches William Morris s Young Jonathan Edwards for comprehension and virtuosity His study is as rewarding as it is challenging The Jonathan Edwards Center at Yale University deserves our thanks for bringing this masterpiece back to us Douglas A Sweeney Trinity Evangelical Divinity School Written at the onset of the academic recovery of Jonathan Edwards William Morris s Chicago dissertation remains the best record of the young Edwards from his years at home and at Yale to his months at the Scots Presbyterian Church in New York altogether an extensive reconstruction of how he came to think the way he did That it will be widely available now is a welcome recovery in itself M X Lesser Emeritus Northeastern University William Sparkes Morris wrote The Young Jonathan Edwards as a dissertation at the University of Chicago and completed it in 1955 His dissertation was originally published in 1991 as part of the Chicago Studies in the History of American Religion edited by Martin Mary and Jerald C Brauer Morris died in 1983 at the age of 67 **The Charm of a List** Lucie Doležalová, 2009-01-14 Lists one of the most archaic literary genres stand behind many of our complex mental or rhetorical structures and they often influence the way we conceptualize the world even if we are unaware of it They seem plain but may conceal a complicated inner logic They are agrammatical but may tell a story Their basic features selection order and layout may be enough to give them enormous power by including they exclude by ordering they create a hierarchy by taking on particular physical aspects they place themselves into a specific context These and other issues are discussed in the present transdisciplinary volume collecting the best revised contributions to a workshop on lists held at the Center for Theoretical Study in Prague in November 2008 Each of the 13 articles by researchers from seven countries provides a case study on the subject of list The fields covered include late antique medieval and early modern history philology philosophy cognitive and computer science The contributors aim both at presenting particular cases specific lists or list types and at the same time at addressing

methodological issues exploring the ways of researching lists in their particular disciplines formulating relevant research themes and questions contextualizing the subject Since theoretical discourse on lists has not been established yet this volume should be seen as a first step in the process showing the variety of possible research directions on a transdisciplinary level and raising interest in the topic which although it may seem a bit obscure at first has indeed a lot to offer

Book of the Dead (39) J. F. Borghouts, 2007 Among the more than 200 known chapters of the Book of the Dead genre chapters 7 and 39 are entirely devoted to Apopis the representative of darkness and chaos in Egyptian mythology The present edition contains a translation of and extensive commentary on the text of the longer of the two chapter 39 with a hieroglyphic transcription of six representative manuscripts from the 18th Dynasty down to the Ptolemaic period Apopis the rebel against cosmic order is traditionally represented as a giant serpent and documented in a great number of cosmological and ritual texts of the Middle Kingdom and later He is the ever returning opponent of the sun god Re trying to halt the course of the sun boat His emerging from the chaos waters is especially feared at night Although time and again the attack is repelled and Apopis driven back or bound and annihilated by the sun god s helpers he always resurges and continues to be a threat to the cosmic balance Precisely this is the theme of chapter 39 which is less a description of events than a violent vociferation on the part of gods and goddesses against the enemy An attempt is made in the commentary to reconstruct the course of events
