

The background of the slide features a close-up, slightly blurred photograph of a magnifying glass resting on a stack of old, yellowed documents. The magnifying glass is positioned in the upper right, with its handle extending towards the top edge. The documents are layered, with the top one showing some dark, illegible markings. The overall lighting is warm and soft, creating a sense of historical or archival research.

Welsh prisoners in the prison estate Great Britain: Parliament: House of Commons: Welsh Affairs Committee, 2007-06-06 The Committee undertook this inquiry to address concerns about the imprisonment of Welsh prisoners outside Wales At present there are only four prisons in Wales all in the South and there is little provision for juveniles and no prisons for women The overcrowding means that Welsh prisoners have a reduced chance of serving their sentence near home and reduces the chances of successful resettlement on release The Committee believe there should be new prison places in North Wales separate provision for young offenders and a new approach to women prisoners along the lines suggested by Baroness Corston The report also address concerns about support services for mental illness amongst prisoners the amount of Welsh language provision and education services

Principles of European Prison Law and Policy Dirk van Zyl Smit, Sonja Snacken, 2009-01-08 In recent years European prison law and policy have emerged as a force to be reckoned with This book explores its development and analyses the penological and human rights foundations on which it is based It examines the findings of the European Committee for the Prevention of Torture the recommendations of the Council of Europe and the judgments of the European Court of Human Rights From these sources it makes the general principles that underlie European prison law and policy explicit emphasising the principle of using imprisonment as a last resort and the recognition of prisoners rights The book then moves on to apply these principles to conditions of imprisonment regimes in prison contacts between prisoners and the outside world and the maintenance of good order in prisons The final chapter of the book considers how European prison law and policy could best be advanced in future The authors argue that the European Court of Human Rights should adopt a more proactive approach to ensuring that imprisonment is used only as a last resort and that a more radical interpretation of the existing provisions of the European Convention on Human Rights will allow it to do so It concludes that the growing cooperation on prison matters within Europe bodes well for the increased recognition of prisoners rights across Europe In spite of some countervailing voices Europe should increasingly be able to give an international lead in a human rights approach to prison law and policy in the same way it has done with the abolition of the death penalty
