Wright Mills and the Generic Ends of Life* Rick Tilman,2004-02-12 Although Veblen Dewey and Mills disagreed on a number of points Rick Tilman shows how these thinkers forged an authentic coherent and original tradition of critical social science in the United States By comparing their views on a number of timely issues such as aesthetics feminism and gambling the author shows how their tradition is vibrantly relevant in the new millenium **Consumption and the World of Goods** John Brewer,Roy Porter,2013-06-17 The study of past society in terms of what it consumes rather than what it produces is relatively speaking a new development The focus on consumption changes the whole emphasis and structure of historical enquiry While human beings usually work within a single trade or industry as producers as say farmers or industrial workers as consumers they are active in many different markets or networks And while history written from a production viewpoint has by chance or design largely been centred on the work of men consumption history helps to restore women o the mainstream The history of consumption demands a wide range of skills It calls upon the methods and techniques of many other disciplines including archaeology sociology social and economic history anthropology and art criticism But it is not simply a melting pot of techniques and skills brought to bear on a past epoch Its objectives amount to a new description of a past culture in its totality as perceived through its patterns of consumption in goods and services Consumption and the World of Goods is the first of three volumes to examine history from this perspective and is a unique collaboration between twenty six leading subject specialists from Europe and North America The outcome is a new interpretation of the seventeenth and eighteenth centuries one that shapes a new historical landscape based on the consumption of goods and services [Utopianism for a Dying Planet](#) Gregory Claeys,2024-12-10 How the utopian tradition offers answers to today s environmental crises In the face of Earth s environmental breakdown it is clear that technological innovation alone won t save our planet A more radical approach is required one that involves profound changes in individual and collective behavior Utopianism for a Dying Planet examines the ways the expansive history of utopian thought from its origins in ancient Sparta and ideas of the Golden Age

through to today's thinkers can offer moral and imaginative guidance in the face of catastrophe. The utopian tradition which has been critical of conspicuous consumption and luxurious indulgence might light a path to a society that emphasizes equality, sociability and sustainability. Gregory Claeys unfolds his argument through a wide ranging consideration of utopian literature, social theory and intentional communities. He defends a realist definition of utopia focusing on ideas of sociability and belonging as central to utopian narratives. He surveys the development of these themes during the eighteenth and nineteenth centuries before examining twentieth and twenty first century debates about alternatives to consumerism. Claeys contends that the current global warming limit of 1.5C to 2.7F will result in cataclysm if there is no further reduction in the cap. In response he offers a radical Green New Deal program which combines ideas from the theory of sociability with proposals to withdraw from fossil fuels and cease reliance on unsustainable commodities. An urgent and comprehensive search for antidotes to our planet's destruction. *Utopianism for a Dying Planet* asks for a revival of utopian ideas not as an escape from reality but as a powerful means of changing it. *Debt and Dispossession* Kathryn Marie Dudley, 2000-04-15 Explores the social impact of the farm debt crisis of the 1980's through interviews with members of an agricultural community.

Keeping Up with the Joneses Susan J. Matt, 2013-04-19 A century ago many Americans condemned envy as a destructive emotion and a sin. Today few Americans expect criticism when they express envy and some commentators maintain that the emotion drives the economy. This shift in attitude is Susan Matt's central concern. *Keeping up with the Joneses: Envy in American Consumer Society 1890-1930* examines a key transition in the meaning of envy for the American middle class. Although people certainly have experienced envy throughout history, the expansion of the consumer economy at the turn of the twentieth century dramatically reshaped the social role of the emotion. Matt looks at how different groups within the middle class—men in white collar jobs, bourgeois women, farm families and children—responded to the transformation in social and cultural life. *Keeping Up with the Joneses* traces how attitudes about envy changed as department stores, mail order catalogs, magazines, movies and advertising became more prevalent and the mass production of imitation luxury goods offered middle and working class individuals the opportunity to emulate upper class life. Between 1890 and 1910 moralists sought to tame envy and emulation in order to uphold a moral economy and preserve social order. They criticized the liberal capitalist preoccupation with personal striving and advancement and praised the virtue of contentment. They admonished the bourgeoisie to be satisfied with their circumstances and cease yearning for their neighbors' possessions. After 1910 more secular commentators gained ground repudiating the doctrine of contentment and rejecting the notion that there were divinely ordained limits on what each class should possess. They encouraged everyone to pursue the objects of desire. Envy was no longer a sin but a valuable economic stimulant. The expansion of consumer economy fostered such institutions as department stores and advertising firms but it also depended on a transformation in attitudes and emotional codes. Matt explores the ways gender, geography and age shaped this transformation. Bridging the history of emotions and the history of

consumerism she uncovers the connection between changing social norms and the growth of the consumer economy
