Shutdown at Youngstown Terry F. Buss, F. Stevens Redburn, 1983-01-01 In spite of the gravity of the problem of mass unemployment and its periodic recurrence in industrial societies few scientific studies have been undertaken which serve to define the impact of plant closings on workers families and the community to evaluate individual group or community responses to closings and to offer suggestions for the future Shutdown at Youngstown meets this need It presents the findings of a multidisciplinary scientific study of the closing of the steel mills in Youngstown in 1977 which put 5 000 persons out of work Research reported in the text is based on personal interviews social indicator data and data from health and human service agencies The authors conclude by developing a public policy for dealing with plant closings and the crisis of mass unemployment Shutdown United States Commission on Civil Rights. Illinois Advisory Committee, 1981 City in Transition Frank Akpadock, 2012-03 In a climate of scarce financial resources where federal and state fiscal assistance to cities has dwindled quantitatively all civic leaders must somehow find a way to provide long term vision a good business climate and diverse economic development planning strategies to grow their cities economies Such plans should be strategically flexible and adaptable to change yet strong enough to withstand the whirlwinds and vicissitudes of the constantly changing national and global economies Youngstown Ohio achieved its success through the visionary leadership of its city mayors who partnered with local University leadership tapping into their invaluable assets of knowledge capital and technology transfer capacities while at the same time mobilizing public support from labor businesses foundations and other entrepreneurial stakeholders to provide assistance with the city s economic recovery City in Transition is a landmark testimonial assessment of tried and true economic development strategies of Youngstown mayors visionary leaderships to revive and grow the city s declining economy following its steel mill closings in the late 1970s Economic development strategies together with city size reclassification into a smaller post industrial city created a classic leadership story of foresight that transcended the city s economic regeneration per se to garner both national recognition and international attention **Closing Chapters** Thomas G. Welsh, 2011-12-16 Closing Chapters attempts to explain the disintegration of urban parochial schools in Youngstown Ohio a onetime industrial center that lost all but one of its eighteen Catholic parochial elementary schools between 1960 and 2006 Through this examination of Youngstown Welsh sheds light on a significant national phenomenon the fragmentation of American Catholic identity **Toxic burn [electronic resource]** Thomas C. Shevory, 2007 The City After Abandonment Margaret Dewar, June Manning Thomas, 2012-10-15 A number of U S cities former manufacturing centers of the Northeast and Midwest have suffered such dramatic losses in population and employment that urban experts have put them in a class by themselves calling them rustbelt cities shrinking cities and more recently legacy cities This decline has led to property disinvestment extensive demolition and abandonment While much policy and planning have focused on growth and redevelopment little research has investigated the conditions of disinvested

places and why some improvement efforts have greater impact than others The City After Abandonment brings together essays from top urban planning experts to focus on policy and planning issues related to three questions What are cities becoming after abandonment The rise of community gardens and artists installations in Detroit and St Louis reveal numerous unexamined impacts of population decline on the development of these cities Why these outcomes By analyzing post hurricane policy in New Orleans the acceptance of becoming a smaller city in Youngstown Ohio and targeted assistance to small areas of Baltimore Cleveland and Detroit this book assesses how varied institutions and policies affect the process of change in cities where demand for property is very weak What should abandoned areas of cities become Assuming growth is not a choice this book assesses widely cited formulas for addressing vacancy analyzes the sustainability plans of Cleveland Buffalo Philadelphia and Baltimore suggests an urban design scheme for shrinking cities and lays out ways policymakers and planners can approach the future through processes and ideas that differ from those in growing cities **Shutdown of**

**Youngstown Sheet and Tube** Clingan Jackson, Philip Bracy, 1981 *A Race of Singers* Bryan K. Garman, 2018-07-25 When Walt Whitman published *Leaves of Grass* in 1855 he dreamed of inspiring a race of singers who would celebrate the working class and realize the promise of American democracy By examining how singers such as Woody Guthrie Bob Dylan and Bruce Springsteen both embraced and reconfigured Whitman's vision Bryan Garman shows that Whitman succeeded In doing so Garman celebrates the triumphs yet also exposes the limitations of Whitman's legacy While Whitman's verse propounded notions of sexual freedom and renounced the competitiveness of capitalism it also safeguarded the interests of the white workingman often at the expense of women and people of color Garman describes how each of Whitman's successors adopted the mantle of the working class hero while adapting the role to his own generation's concerns Guthrie condemned racism in the 1930s Dylan addressed race and war in the 1960s and Springsteen explored sexism racism and homophobia in the 1980s and 1990s But as Garman points out even the Boss like his forebears tends to represent solidarity in terms of white male bonding and homosocial allegiance We can hear America singing in the voices of these artists Garman says but it is still the song of a white male America Hearings, Reports and Prints of the Senate Committee on Labor and Human Resources
