Four Last Songs Linda Hutcheon, Michael Hutcheon, 2015-05-22 Aging and creativity can seem a particularly fraught relationship for artists who often face age related difficulties as their audience's expectations are at a peak In *Four Last Songs* Linda and Michael Hutcheon explore this issue via the late works of some of the world's greatest composers Giuseppe Verdi 1813-1901 Richard Strauss 1864-1949 Olivier Messiaen 1908-1992 and Benjamin Britten 1913-1976 all wrote operas late in life pieces that reveal unique responses to the challenges of growing older Verdi's *Falstaff* his only comedic success combated Richard Wagner's influence by introducing young Italian composers to a new model of national music Strauss on the other hand struggling with personal and political problems in Nazi Germany composed the self-reflexive *Capriccio* a life review of opera and his own legacy Though it exhausted him physically and emotionally Messiaen at the age of seventy-five finished his only opera *Saint Franois d'Assise* which marked the pinnacle of his career Britten meanwhile suffering from heart problems refused surgery until he had completed his masterpiece *Death in Venice* For all four composers age far from sapping their creative power provided impetus for some of their best accomplishments With its deft treatment of these composers' final years and works *Four Last Songs* provides a valuable look at the challenges and opportunities that present themselves as artists grow older

Busoni had illustrious careers of their own yet the extent to which their mentor's influence helped shape their success was largely unexplored until now Through rich archival research including correspondence essays and scores Erinn E Knyt presents an evocative account of Busoni's idiosyncratic pedagogy focused on aesthetic ideals rather than methodologies or techniques and how this teaching style and philosophy can be seen and heard in the Nordic inspired musical works of Sibelius the unusual soundscapes of Var se the polystylistic meldings of music and technology in Louis Gruenberg's radio operas and film scores the electronic music of Otto Luening and the experimentalism of Philip Jarnach Equal parts critical biography and interpretive analysis Knyt's work compels a reconsideration of Busoni's legacy and puts forth the notion of a Busoni School as one that shaped the trajectory of twentieth century music Erinn Knyt's *Ferruccio Busoni and His Legacy* is a most welcome addition to the literature on Busoni as a fine example of research based on primary sources Bach

Ten Masterpieces of Music Harvey Sachs, 2021-10-26 Some pieces of music survive Most fall into oblivion What gives the ten masterpieces selected for this book their exceptional vitality In this penetrating volume Harvey Sachs acclaimed biographer and historian of classical music takes readers into the hearts of ten extraordinary works of classical music in ten different genres showing both the curious novice and the seasoned listener how to recognize appreciate and engage with these masterpieces on a historical and compositional level Far from what is often thought classical music is neither dead nor dying As a genre it is constantly evolving its pieces passing through countless permutations and combinations yet always retaining that essential life force The works collected here composed in the years between 1784 and 1966 are a testament to this fact As Sachs skillfully demonstrates they have endured not because they were exceptionally well made or interesting but because they were created by composers Mozart and Beethoven Schubert Schumann Berlioz Verdi and Brahms Sibelius Prokofiev and Stravinsky who had a particular genius for drawing music out of their deepest wellsprings Through music Sachs writes they universalized the intimate In describing how music actually sounds *Ten Masterpieces of Music* seems to do the impossible animating the process of composing as well as the coming together of disparate scales and melodies trills and harmonies It tells us too how particular compositions came to be often revealing that the pieces we now consider classic were never intended to be so In poignant exquisite prose Sachs shows how Mozart a former child prodigy under constant pressure to produce new music hastily penned Piano Concerto No 17 in G major one of his finest piano concertos for a teenage student and likewise demonstrates how Goethe's *Faust* Part One became a springboard for the musical imagination of the French composer Berlioz As Sachs explains these pieces are not presented as candidates for a new Top Ten They represent neither the most well known nor the most often

performed works of each composer. Instead they were chosen precisely because he had something profound to say about them about their composers about how each piece fits into its composer's life and about how each of these lives can be contextualized by time and place. In fact Sachs encourages readers to form their own favorites and teaches them how to discern special characteristics that will enhance their own listening experiences. With *Ten Masterpieces of Music* it becomes evident that Sachs has lived with these pieces for a veritable lifetime. His often soaring descriptions of the works and the dramatic lives of the men who composed them bring a heightened dimension to the musical perceptions of all listeners communicating both the sheer improbability of a work becoming a classic and why certain pieces these ten among them survive the perilous test of time.

A Brahms Reader Michael Musgrave, 2000-01-01 Johannes Brahms 1833-1897 was prominent not only as a composer but as a pianist, conductor, editor, scholar, collector, and friend of many notables. He was also in private an articulate critic, connoisseur of other arts, and traveler. In this enlightening book the eminent Brahms scholar Michael Musgrave presents a comprehensive and original account of the composer's private and professional lives. Drawing on an array of documentary materials, Musgrave weaves together diverse strands to illuminate Brahms's character and personality, his outlook as a composer, his attitudes toward other composers, his activities as pianist and conductor, his scholarly and cultural interests, his friendships with Robert and Clara Schumann and others, his social life and travel, and critical attitudes toward his music from his own time to the present. The book quotes extensively from Brahms's own words and those of his circle. Musgrave mines the composer's letters, reminiscences of his contemporaries, early biographies, reviews, and commentary by friends, critics, and scholars to create an unparalleled source of information about Brahms. The author sets the materials in context, identifies sources in detail, includes a glossary of information on principal individuals, and notes recent research on the composer. This engaging biographical work with a gallery of illustrations will appeal to general music lovers as well as to scholars with a special interest in Brahms.

The Cambridge Companion to Mozart Simon P. Keefe, 2003-05-22 The *Cambridge Companion to Mozart* paints a rounded yet focussed picture of one of the most revered artists of all time. Bringing the most recent scholarship into the public arena, this volume bridges the gap between scholarly and popular images of the composer, enhancing the reader's appreciation of Mozart and his extraordinary output regardless of their prior knowledge of the music. Part I situates Mozart in the context of late eighteenth-century musical environments and aesthetic trends that played a pivotal role in his artistic development and examines his methods of composition. Part II surveys Mozart's works in all of the genres in which he excelled, and Part III looks at the reception of the composer and his music since his death. Part IV offers insight into Mozart's career as a performer as well as theoretical and practical perspectives on historically informed performances of his music.

The Lives and Times of the Great Composers Michael Steen, 2011-07-01 A glorious plum pudding of a book to be consulted with pleasure and profit over and over again. Sir Jeremy Isaacs' *Michael Steen's Great Composers* was originally published in 2003. A lifetime's work and almost 1000 pages long, it

has since become the reference point and key read on the biographical backgrounds to classical music's biggest names. Authoritative and hugely detailed but nonetheless a joy to read, this new edition will expand its readership further and capitalise on a newfound popular interest in classical music. Steen's book helps you explore the story of Bach, the respectable burgher, much of whose vast output was composed amidst petty turf disputes in Lutheran Leipzig; or the ugly, argumentative Beethoven in French-occupied Vienna, obsessed by his laundry; or Mozart, the over-exploited infant prodigy whose untimely death was shrouded in rumour. Read about Verdi, who composed against the background of the Italian Risorgimento; or about the family life of the Wagners; and Brahms, who rose from the slums of Hamburg to become a devotee of beer and coffee in fin de siècle Vienna, a cultural capital bent on destroying Mahler and much, much more. *Architectures* Andrew Ballantyne, 2008-04-15 *Architectures: Modernism and After* surveys the history of the building from the advent of industrialization to the cultural imperatives of the present moment. Brings together international art and architectural historians to consider a range of topics that have influenced the shape, profile and aesthetics of the built environment. Presents crucial moments in the history of the field when the architecture of the past is made to respond to new and changing cultural circumstances. Provides a view of architectural history as a part of a continuing dialogue between aesthetic criteria and social and cultural imperatives. Part of the New Interventions in Art History Series, which is published in conjunction with the Association of Art Historians.
