O'Connell, 1987 Sicilian Defence , 197? **Chess Opening Essentials** Stefan Djuric, Dimitry Komarov, Claudio Pantaleoni, 2015-09-01 Most chess opening books are either too detailed or too shallow Chess Opening Essentials has exactly the right balance and is an accessible primer and a reference book at the same time It gives a flavor of how every opening works and points at the various middlegame plans that apply after the opening has ended Chess Opening essentials helps beginners to develop a solid understanding of fundamental opening ideas gives casual players the ability to choose the opening that suits their style and taste and is a tool for club players to test and review their opening repertoire as well as a reference book to which advanced players keep returning The authors do not propagate forcing tactical variations to be memorized mechanically but explain what you should actually be trying to achieve when playing the opening of your choice They include the main alternative responses and give clear indications for further study **Sicilian Attacks** Yuri Yakovich, 2014-11-07 Learn how to attack in the sharpest lines of the most widely played chess opening Against most Sicilian variations White s sharpest and often best weapon is queenside castling a strategy that frequently leads to spectacular fireworks Regrettably these powerful charges have never been properly categorized Until this book In Sicilian Attacks Grandmaster Yuri Yakovich who has more than thirty years of experience with complex Sicilian systems analyses the Najdorf the Scheveningen the Dragon the Taimanov and the Richter Rauzer Variations He teaches how their pawn structures dictate typical methods of attack for White but he also gives the best defending techniques for Black This book provides cutting edge analysis full of original ideas but also contains useful verbal guidelines to help you to recognize typical Sicilian plans and counterplans An abundance of highly instructive games illustrate the various strategic and tactical themes At the end of each chapter you will find practical conclusions How to Beat the Sicilian Defence Gawain Jones, 2011 The Sicilian Defence is by far the most popular chess opening If you play 1 e4 as White on average you are likely to meet the Sicilian in virtually every other game You need to be prepared to face the Sicilian at all times and a ready to use repertoire against it is an indispensable weapon In this book Gawain Jones confronts the challenge of meeting the Sicilian head on He has constructed a comprehensive Anti Sicilian repertoire for White which is based on lines he has successfully employed at grandmaster level These are sound reliable options for White but don t be fooled they also contain more than a drop of poison Variations covered include the popular King s Indian Attack various Bb5 systems and weapons against Black s offbeat tries A Grandmaster s repertoire against the Sicilian Packed with new ideas and critical analysis Highlights key tactical and positional ideas *Tactics in the Chess Opening 1* A.
