Guru Gobind Singh (1666-1708) J. S. Grewal, 2019-07-25 The unifying theme in the life of Guru Gobind Singh was confrontation with the Mughals, which culminated in a struggle for political power. This fact is brought into sharp focus when we consider the Guru's life and legacy simultaneously in the contexts of the Mughal Empire, its feudatory states in the hills, and the Sikh movement. The creation of the Khalsa in 1699 as a political community with the aspiration to rule made conciliation or compromise with the Mughal state almost impossible. Their long struggle ended eventually in the declaration of Khalsa Raj in 1765. Using contemporary and near-contemporary sources in Gurmukhi, Persian, and English, J. S. Grewal presents a comprehensive study of this era of Sikh history. The volume elaborates on the life and legacy of Guru Gobind Singh and explores the ideological background of the institution of the Khalsa and its larger political context. Grewal, however, emphasizes that the legacy of the Khalsa was also social and cultural. This authoritative volume on the tenth Guru is a significant addition to the field of Sikh studies.

Cultivating Sikh Culture and Identity Bob van der Linden, 2024-11-18 Cultivating Sikh Culture and Identity explores the development of modern Sikh identities through the concept of cultivation of culture. It investigates diverse but repeatedly overlapping Sikh encounters in the fields of art, music, and philology and considers their role in the making of a continuous living tradition. The volume

focuses particularly on the imperial encounter and intellectual interaction between coloniser and colonised. It emphasises the enduring importance of the modern rational approach of the Singh Sabha Tat Khalsa reformers in defining a normative Sikh tradition. In so doing, the author reflects on the importance of philological research and the complexity of modern knowledge production in relation to the formation of cultural identities. The chapters offer a critical historical overview of the changes in the performance and reception of Sikh devotional music in the context of the community's successive encounters with the Mughals, the British, and globalisation. They also provide new insights into the life and work of Max Arthur Macauliffe, author of the classic *The Sikh Religion* (1909) and a contextualised discussion of contemporary Sikh drawings by Emily de Klerk. Taking a global interdisciplinary approach, this book will be of particular interest to scholars of religion, South Asian Studies, and history.

Religion and Violence in South Asia John Hinnells, Richard King, 2007-01-24. Do religions justify and cause violence, or are they more appropriately seen as forces for peace and tolerance? Featuring contributions from international experts in the field, this book explores the debate that has emerged in the context of secular modernity about whether religion is a primary cause of social division, conflict, and war, or whether this is simply a distortion of the true significance of religion, and that if properly followed, it promotes peace, harmony, goodwill, and social cohesion. Focusing on how this debate is played out in the South Asian context, the book engages with issues relating to religion and violence in both its classical and contemporary formations. The collection is designed to look beyond the stereotypical images and idealized portrayals of the peaceful South Asian religious traditions, especially Hindu, Buddhist, Jain, and Sufi, which can occlude their own violent histories, and to analyze the diverse attitudes towards and manifestations of violence within the major religious traditions of South Asia. Divided into three sections, the book also discusses globalization and the theoretical issues that inform contemporary discussions of the relationship between religion and violence.

Sacred and Secular Musics Virinder S. Kalra, 2014-11-20. How does the sacred/secular opposition explain itself in the context of musical production? This volume traces this binary as it frames Western Classical music and Indian Classical music in the 18th and 19th centuries, laying the ground for a contemporary exploration of what is ostensibly sacred music in South Asia. Offering a potent critique of musicological knowledge, making Virinder S. Kalra explore examples of South Asian musics in various domains and traverses a new cartography of music in which the sacred and the secular overlap. Drawing on examples which include Qawwali, kirtan, and popular devotional genres, *Sacred and Secular Musics* offers new empirical material as well as new insights into conceptualising religion and music and the ways in which music performs sacredness and secularity across the contested India-Pakistan border in the region of Punjab. Through its deconstruction of the sacred/secular opposition, *Sacred and Secular Musics* explores the relationship of religion and music to wider questions of religion and politics. Its postcolonial approach brings Asia into the Western sacred/secular opposition and provides a set of analytical tools, a language, and a range of theories to allow further exploration of non-Western religious music.

THE INDIA THEY SAW (VOL-4) Meenakshi Jain, 2011-01-01

In the wake of the commercial and political expansion of Europe in the eighteenth century there was a remarkable increase in the number of Europeans visiting India not merely for trade but also in search of her fabled ancient wisdom. The European rediscovery of India's cultural heritage led to the emergence of Orientalist scholarship and a belief that India was the original home of the arts and sciences. In India the great patron of Indian studies was the Governor General Warren Hastings. He gathered around himself a select group that included Charles Wilkins, Nathaniel Halhed and William Jones, the most famous of the Orientalists. But the growing political ascendancy of the British in India dampened the early exuberance for Indian studies. As conquerors the British began to feel the need to justify their conquests and exalt their own race and religion. Several other forces were at work to turn the tide against India. The Industrial Revolution in England had created the need to convert India into a market for machine-made British goods. Meanwhile the Evangelicals pressed for the Christianization and Anglicization of India, which they felt would lead to permanent British rule and also change Indian lifestyle to the advantage of British manufacturers. The Evangelicals allied with the Utilitarians to launch a tirade against Indian culture and force the retreat of the Orientalists. This volume covers the period from A.D. 1700 to 1850. A significant number of travellers visited India during this century and a half. The accounts available to us are primarily those written in English. A considerable amount of the work in French and the rich accounts of the early Danish missionaries on the Coromandel Coast, for instance, have yet to be translated into English.

Approaches to History Sabyasachi Bhattacharya, 2011: History as a social science is arguably more self-reflective than associated disciplines in that family. Other social scientists seem to see little reason to look beyond the paradigm they are developing in the present times. Historians, on the other hand, tend to depend on the cumulative process of the development of their craft and the fund of accumulated knowledge. Yet while this is acknowledged in the practice of research, historiography in itself as a subject of study has rarely found its place in the syllabi of Indian universities. Knowledge of historiography is taken for granted when a scholar plunges into research. In an attempt to address this lacuna, the Indian Council of Historical Research (ICHR) has planned a series of volumes on historiography, comprising articles by subject specialists commissioned by the ICHR. The first volume in the series, *Approaches to History: Essays in Indian*

Historiography brings to the readers the first fruits of that endeavour While the essays encompass areas of research presently at the frontiers of new research scholars will also find the bibliographies accompanying the essays of significant appeal

Labors of Division Navyug Gill,2024-01-16 One of the most durable figures in modern history the peasant has long been a site of intense intellectual and political debate Yet underlying much of this literature is the assumption that peasants simply existed everywhere a general if not generic group traced backward from modernity to antiquity Focused on the transformation of Panjab during the nineteenth and early twentieth centuries this book accounts for the colonial origins of global capitalism through a radical history of the concept of the peasant demonstrating how seemingly fixed hierarchies were in fact produced legitimized and challenged within the preeminent agricultural region of South Asia Navyug Gill uncovers how and why British officials and ascendant Panjabis disrupted existing forms of identity and occupation to generate a new agrarian order in the countryside The notion of the hereditary caste peasant engaged in timeless cultivation thus emerged paradoxically as a result of a dramatic series of conceptual juridical and monetary divisions Far from archaic relics this book ultimately reveals both the landowning peasant and landless laborer to be novel political subjects forged through the encounter between colonialism and struggles over culture and capital within Panjabi society Questions of progress exploitation and knowledge come to animate the vernacular operations of power With this history Gill brings difference and contingency to understandings of the global past in order to re think the itinerary of comparative political economy as well as alternative possibilities for emancipatory futures
