Sidmouth Searon Lyme Regis Branches:

The Branch Lines of Devon Exeter, South, Central & East Devon Colin Maggs, 2011-10-15 The first of two lavishly illustrated titles from acknowledged railway expert Colin G Maggs presenting the story of Devon's branch lines *The Railway Magazine*, 1908 *The Branch Lines of Somerset* Colin Maggs, 2011-06-15 A lavishly illustrated title from acknowledged railway expert Colin G Maggs presenting the story of Somerset's branch lines **The Beeching Legacy** Phil Horton, 2019-10-24 The first edition of this popular volume has been out of print for several years and has become much sought after Produced in black and white the first edition was the first volume in the series taking a detailed regional look at the Beeching Report its proposals for closures and modifications of the UK railway network The report has become legendary and the interest and debate it generated is no less today than it has ever been since first published Indeed with railways now rejuvenated and passenger numbers growing ever larger the reflection on what Beeching got right and what perhaps in hindsight got very badly wrong makes for fascinating reading This new expanded second edition has been completely reworked and is now published with color illustrations both new and replacing the original black and white images where possible The text has been expanded and updated as appropriate and there are 32 extra pages bringing the new edition to 192 pages *The Official Guide to the London and South Western Railway* Cassell and Company, Ltd, 1894 *The Branch Lines of Devon Plymouth, West & North Devon* Colin Maggs, 2012-01-15 The second of two lavishly illustrated titles from acknowledged railway expert Colin G Maggs presenting the story of Devon's branch lines *Edwardian Devon 1900-1914* David Parker, 2016-08-04 A century ago Britain was locked in a devastating worldwide conflict that would change every aspect of society This book explores life in Devon between 1900 and 1914 offering a revealing glimpse of a world now long vanished before war broke out Devon was no backwater its railways and shipping were busy bringing tourists in and sending vast quantities of produce out It was though a county of contrasts and change Farming had reinvented itself after the late Victorian depression but villages were in decline churches and chapels were full but religion bitterly divided communities the wealthy enjoyed extravagant lifestyles on great estates but their authority was under attack Devon's upper middle and lower class schools perfectly reflected the Edwardian social hierarchy but as the county's elections revealed society was being torn asunder by bitter controversies over exactly who should have the vote rule the country and control the Empire It was a worrying time overseas too Great Britain's supremacy was increasingly challenged and the warships in Devon's harbours and army manoeuvres on the moors drew many comments as the storm clouds began to gather over Europe Using mainly contemporary sources this engaging book examines the attitudes and experiences of people across all social classes in this tumultuous era *Where shall we go, a guide to the watering-places and health resorts of England, Scotland, Ireland, and Wales*, ed. by A.R.H. Moncrieff Where, 1899 **Seventy Years of the South Western** Colin Boocock, 2022-07-28 The South Western main line is one of the most important railways in the south of England Colin Boocock spent a significant part of his

life living on and researching the history of this centre of railway operations in the South and South West of England This book looks at the network over the last seventy years from Nationalisation through to the present day The system provides a vital link between the South and South West of Britain and London operating a mixture of commuter services and important main line passenger trains Throughout the seventy years covered in this book the South Western network also had significant flows of heavy freight between the capital and Southampton Docks and the West Country Today there are still frequent well loaded container trains from Southampton to the Midlands and the North via Basingstoke and Reading This volume also covers the transitions from steam traction to diesel and electric in stages from the 1950s through to the late 1980s

South Devon (including W. Dorset Coast) and South Cornwall Charles Slegg Ward, Mountford John Byrde Baddeley, 1892

Mile by Mile S. N. Pike, 2017-02-23 Travel back in time on a journey across Britain's main line railways on the eve of nationalisation The views from the carriage windows are conveyed through finely detailed hand drawn maps each a rich reminder of the linesides bursting with activity in an era of technical progress glamour and prestige Speed along the LNER's racing track from King's Cross to Newcastle upon Tyne and Edinburgh from next door St Pancras through the Peak District to Manchester from Waterloo to Plymouth with some pleasant seaside diversions on the way from Euston through the industrial heartlands of the West Midlands and the north west to the seaport of Liverpool and from Paddington along Brunel's bowling green railway to Bristol Exeter and Penzance Mile by Mile faithfully reproduces the three original route maps drafted in 1947 by S N Pike and adds a new one for the Great Western Railway to complete its coverage of the so called Big Four railway firms formed in the aftermath of the First World War New introductions describe how the Big Four came about the passengers and goods they conveyed the key personalities that shaped them engineers managers even publicists and the trains and locomotives that gave each its unique character Climb aboard sit back and take a ride to a special period in the history of Britain's railways *Truth*, 1925

South Devon and South Cornwall Charles Slegg Ward, Mountford John Byrde Baddeley, 1889

The World's First Railway System Mark Casson, 2009-09-10 The British railway network was a monument to Victorian private enterprise Its masterpieces of civil engineering were emulated around the world But its performance was controversial praised for promoting a high density of lines it was also criticised for wasteful duplication of routes This is the first history of the British railway system written from a modern economic perspective It uses counterfactual analysis to construct an alternative network to represent the most efficient alternative rail network that could have been constructed given what was known at the time the first time this has been done It reveals how weaknesses in regulation and defects in government policy resulted in enormous inefficiency in the Victorian system that Britain lives with today British railway companies developed into powerful regional monopolies which then contested each other's territories When denied access to existing lines in rival territories they built duplicate lines instead Plans for an integrated national system sponsored by William Gladstone were blocked by Members of Parliament because of a perceived conflict with the local interests they

represented Each town wanted more railways than its neighbours and so too many lines were built The costs of these surplus lines led ultimately to higher fares and freight charges which impaired the performance of the economy The book will be the definitive source of reference for those interested in the economic history of the British railway system It makes use of a major new historical source deposited railway plans integrates transport and local history through its regional analysis of the railway system and provides a comprehensive classified bibliography **Great Britain** ,1906 British Medical Journal ,1890 *Railway & Travel Monthly* ,1919 **Great Britain** Karl Baedeker (Firm),Karl Baedeker,1901 **The Blue Guides England** ,1920 England Findlay Muirhead,1920
