Ross, 2003-06-30 In the first volume of the Artists of an Era series Leslie Ross examines the identities of artists attributed

to the most famous and influential works of medieval art. These works are much discussed within the realm of art history yet the identities of medieval artists fall victim to incomplete historical records and often remain enigmatic. In ten narrative chapters Ross examines this significant area of the art world including architecture, iconography, metalwork, scribe work, sculpture, even medieval art instruction and summarizes the lives and work of that genre's leading artist or artists. Students will learn not only what is factually known of an artist's life as well as what is purely speculative but also the processes used to gather the information and fuel speculation. Readers will also gain unique insights into the practices and traditions of medieval art and the role it played within medieval society. A timeline, chapter bibliographies, a list of further resources on medieval art and an index offer additional tools to students of medieval art and art history.

**Orsanmichele** Marie D'Aguianno Ito, 2023-10-09. This work provides a new narrative for Orsanmichele in the era before the Renaissance. It examines Orsanmichele from the mid-thirteenth century as the piazza transformed into the city's grain market. It considers the market's tandem confraternity with its stunning Madonnas over three successive loggias. It examines the grain market and confraternity from a social, economic, political, and artistic perspective. It provides extensive data on the Florentine grain trade, sales at the market, and the nexus between traders, political leaders, and the confraternity. The work suggests that developments at Orsanmichele during the medieval period formed the basis for the Renaissance structure.

**How Divine Images Became Art** Oleg Tarasov, 2024-02-09. *How Divine Images Became Art* tells the story of the parallel discovery of Russian medieval art and of the Italian primitives at the beginning of the twentieth century. While these two developments are well known, they are usually studied in isolation. Tarasov's study has the great merit of showing the connection between the art world in Russia and the West and its impact in the cultural history of the continent in the pre-war period. Drawing on a profound familiarity with Russian sources, some of which are little known to Western scholars, and on equally expert knowledge of Western material and scholarship, Oleg Tarasov presents a fresh perspective on early twentieth-century Russian and Western art. The author demonstrates that during the Belle Époque the interest in medieval Russian icons and Italian primitives led to the recognition of both as distinctive art forms conveying a powerful spiritual message. Formalist art theory and its influence on art collecting played a

major role in this recognition of aesthetic and moral value of primitive paintings and was instrumental in reshaping the perception of divine images as artworks Ultimately this monograph represents a significant contribution to our understanding of early twentieth century art it will be of interest to art scholars students and anyone interested in the spiritual and aesthetic revival of religious paintings in the Belle poque
