Photographer Rebecca A. Senf, 2020-02-08 An unprecedented and eye opening examination of the early career of one of America's most celebrated photographers. One of the most influential photographers of his generation, Ansel Adams (1902-1984) is famous for his dramatic photographs of the American West. Although many of Adams's images are now iconic, his early work has remained largely unknown. In this first monograph dedicated to the beginnings of Adams's career, Rebecca A. Senf argues that these early photographs are crucial to understanding Adams's artistic development and offer new insights into many aspects of the artist's mature oeuvre. Drawing on copious archival research, Senf traces the first three decades of Adams's photographic practice, beginning with an amateur album made during his childhood and culminating with his Guggenheim-supported National Parks photography of the 1940s. Highlighting the artist's persistence in forging a career path and his remarkable ability to learn from experience as he sharpened his image-making skills, this beautifully illustrated volume also looks at the significance of the artist's environmentalism, including his involvement with the Sierra Club.

I Want to Change My Life Barrie Gunter, 2014-07-24 Competition talent shows have been among the most popular on television in the 21st century The producers of these shows claim to give ordinary people extraordinary opportunities to change their lives by showcasing a specific skill leading to a new career trajectory Most participants will claim that they

entered to get a big break and to develop a career they have always dreamed of To what extent do these shows deliver on such promises Following through what happens to leading contestants in singing entertainment modelling cooking and business entrepreneur competitions this book shows that few go on to achieve lasting success in their chosen career Many return to obscurity or to their previous lives Some enjoy a low level career in the new direction delivered by the competition they entered Just a few become truly successful The pop and entertainment themed contests have discovered just a handful of major pop stars and entertainers out of many hundreds who have taken part after the initial auditions Turning to the cookery or business franchises there are few who go on to achieve lasting success in their chosen career In these it is equally likely that the winners go on to enjoy success with media careers rather than as chefs or entrepreneurs The most successful franchise of all is the fashion model competition Next Top Model which has yielded a high hit rate in terms of career success What the analysis here also reveals is that it isn't only the winners who ultimately benefit the most from their appearances in these shows Moreover television picks its own stars by recruiting contestants because they are telegenic or have a good backstory as much as for their relevant talents In this way a talent hungry medium has co-opted these franchises to replenish its own needs
