Siete escenarios para el siglo XXI Fernando López-Alves, 2004 **Globalization and Uncertainty in Latin America** D. Johnson, F. López-Alves, 2007-02-19 This balanced and innovative collection uses different methodologies to approach the common theme of a region transformed in recent years by neoliberalism Most of the contributors suggest that Latin America is experiencing rapid and unexpected change its future looks much different than ever predicted with high levels of uncertainty resulting in counterintuitive and at times innovative political outcomes **Geografía del conflicto** Alejandro Nató, 2008 , *Democracia de alta tensión* César Armando Rojas Ríos, 2007 **Thinking International Relations Differently** Arlene Tickner, David L. Blaney, 2013-03-01 A host of voices has risen to challenge Western core dominance of the field of International Relations IR and yet intellectual production about world politics continues to be highly skewed This book is the second volume in a trilogy of titles that tries to put the international back into IR by showing how knowledge is actually produced around the world The book examines how concepts that are central to the analysis of international relations are conceived in diverse parts of the world both within the disciplinary boundaries of IR and beyond them Adopting a thematic structure scholars from around the world issues that include security the state authority and sovereignty globalization secularism and religion and the international an idea that is central to discourses about world politics but which in given geocultural locations does not necessarily look the same By mapping global variation in the concepts used by scholars to think about international relations the work brings to light important differences in non Western approaches and the potential implications of such differences for the IR discipline and the study of world politics in general This is essential reading for anyone who is concerned about the history development and future of International Relations

derecho y economía de mercado A su vez muchos de los mencionados referentes se caracterizaron por no reparar en esa omisión Paso seguido es perfectamente comprensible la percepción generalizada de haber asistido durante los 90 a la implementación de reformas de mercado Ante ello la experiencia de la transición chilena iniciada en 1990 surge como el ejemplo analítico e histórico al que se puede apelar para comprender y comparar procesos de reforma Al respecto inmediatamente aparecen diferencias cualitativas profundas entre el proceso de reforma chileno y el del resto de los países de la región Principalmente se distingue una relación consolidada entre estado de derecho economía de mercado y consensos básicos Para ello el papel jugado por la Concertación de Partidos por la Democracia ha sido y es crucial El seminario Lecciones de la Experiencia Chilena para Argentina y América Latina organizado por CADAL y el Instituto de Ciencia Política y Relaciones Internacionales de la Universidad Católica Argentina el 4 de junio de 2004 en Buenos Aires ha buscado destacar este proceso político económico e institucional vivido en ese país desde 1990 en adelante En dicha oportunidad participaron como expositores los argentinos Carlos Chacho lvarez ex Vicepresidente de la Nación Javier González Fraga ex Presidente del Banco Central de la República Argentina Eugenio Kvaternik analista político Ricardo López Murphy ex candidato a Presidente de la Nación en el 2003 y Carlos Gervasoni y Pedro Isern Munn directivos de CADAL Por su parte asistieron desde Chile los señores Eugenio Tironi ex Secretario de Comunicación del Presidente Patricio Aylwin Patricio Walter diputado y ex jefe de bancada de la Democracia Cristiana Rodrigo lvarez diputado y jefe de bancada de la UDI Harald Beyer investigador del Centro de Estudios Públicos Jorge Marshall ex Ministro de Economía del Presidente Patricio Aylwin y ex Vicepresidente del Banco Central y Raúl Ferro director periodístico de la revista América Economía Por su parte el cierre del seminario estuvo a cargo de Juan Gabriel Valdez el entonces embajador de Chile en Argentina Este libro es fruto de algunas de las ponencias presentadas en dicho seminario a cuyos rigurosos y profundos análisis se agregan otros textos de expertos invitados y estudios que pretenden describir el proceso político y económico que ha llevado a la consolidación del nuevo arreglo institucional exitoso en América Latina Por consiguiente su publicación tiene como objetivo potenciar la difusión y el debate sobre este tema y complementar al esfuerzo realizado por CADAL al haber convocado a excelentes expositores en un evento de primer nivel que mereció en su momento comentarios en distintos medios de comunicación de Argentina y Chile se ofrecen como anexos Pedro Isern Munn Director rector Economía y Estado de Derecho Gabriel C Salvia Director General
