Long Slow Burn Sexuality And Social Science:

Long Slow Burn Kath Weston, 2013 Kath Weston's powerful collection of essays *Long Slow Burn* challenges the preconception that queer studies is the brainchild of the humanities and argues that social science has been talking about sex all along To deny this one would have to overlook Kinsey's pioneering sex research in the 1950s or the psychiatrist Evelyn Hooker's pathbreaking study of homosexuality but also in the sex talk that lies at the heart of classic debates on kinship inequality cognition and other foundational topics in the social sciences What is different now Weston claims is the way sexuality has been isolated from other contemporary issues Not content with its ghettoization as a contained subfield Weston refuses to draw an artificial line around sexuality

Why America's Top Pundits Are Wrong

Catherine Besteman, Hugh Gusterson, 2005-01-17 In this fresh literate and biting critique of current thinking on some of today's most important and controversial topics leading anthropologists take on some of America's top pundits This absorbing collection of essays subjects such popular commentators as Thomas Friedman Samuel Huntington Robert Kaplan and Dinesh D Souza to cold hard scrutiny and finds that their writing is often misleadingly simplistic culturally ill informed and politically dangerous Mixing critical reflection with insights from their own fieldwork twelve distinguished anthropologists respond by offering fresh perspectives on globalization ethnic violence social justice and the biological roots of behavior They take on such topics as the collapse of Yugoslavia the consumer practices of the American poor American foreign policy in the Balkans and

contemporary debates over race welfare and violence against women In the clear vigorous prose of the pundits themselves these contributors reveal the hollowness of what often passes as prevailing wisdom and passionately demonstrate the need for a humanistically complex and democratic understanding of the contemporary world Available November 2004 Pub Date January 2005

Heterosexual Africa? Marc Epprecht, 2008-08-15 Heterosexual Africa The History of an Idea from the Age of Exploration to the Age of AIDS builds from Marc Epprecht's previous book Hungochani which focuses explicitly on same sex desire in southern Africa to explore the historical processes by which a singular heterosexual identity for Africa was constructed by anthropologists ethnopsychologists colonial officials African elites and most recently health care workers seeking to address the HIV AIDS pandemic This is an eloquently written accessible book based on a rich and diverse range of sources that will find enthusiastic audiences in classrooms and in the general public Epprecht argues that Africans just like people all over the world have always had a range of sexualities and sexual identities Over the course of the last two centuries however African societies south of the Sahara have come to be viewed as singularly heterosexual Epprecht carefully traces the many routes by which this singularity this heteronormativity became a dominant culture In telling a fascinating story that will surely generate lively debate Epprecht makes his project speak to a range of literatures queer theory the new imperial history African social history queer and women's studies and biomedical literature on the HIV AIDS pandemic He does this with a light enough hand that his story is not bogged down by endless references to particular debates Heterosexual Africa aims to understand an enduring stereotype about Africa and Africans It asks how Africa came to be defined as a homosexual free zone during the colonial era and how this idea not only survived the transition to independence but flourished under conditions of globalization and early panicky responses to HIV AIDS

Gubrium, James A. Holstein, 2002 The Handbook of Interview Research is the most ambitious attempt yet at examining the place of the interview in contemporary society Interviewing is the predominant mode of research in the social sciences It is also the stock in trade of information seekers in organizations and institutions of all kinds as well as in the mass media Across

the board interviews provide today's leading window on the world of experience. The Handbook offers a comprehensive examination of the interview at the cutting edge of information technology. Drawing upon leading experts from a wide range of professional disciplines, this book addresses conceptual and technical challenges that confront both academic researchers and interviewers with more applied goals. From interview theory to the nuts and bolts of the interview process, the coverage is impressively broad and authoritative. The Handbook of Interview Research is both encyclopedic and thematic. As an encyclopedia, it provides extensive discussions of the methodological issues now surrounding interview practice, offering a multi-faceted assessment of what has become the method of choice for obtaining personal information in today's society. But the Handbook also is a story which spins a particular tale of interviewing one that moves from the commonly recognized individual interview to what is called the interview society. The gist of the presentation is that we can no longer regard the interview as simply an instrument for gathering data but must now also view it as an integral part of society.

Real Queer? David A. B. Murray, 2015-12-03 How do I prove I'm gay? This is the central question for many refugee claimants who are claiming asylum on the basis of sexual orientation persecution. But what are the inherent challenges in obtaining this proof? How is the system that assesses this predicated upon homonormative frameworks and nervous borders? What is the impact of gender, race, and class? What is an authentic sexual or gender identity and how can it be performed? *Real Queer* is an ethnographic examination of the Canadian refugee apparatus, analysing the social, cultural, political, and affective dimensions of a legal and bureaucratic process predicated on separating the authentic from the bogus LGBT refugee. Through interviews, conversations, and participant observation with various participants ranging from refugee claimants to their lawyers, Refugee Protection Division staff, and local support group workers, it reveals the ways in which sexuality simultaneously disrupts and is folded into the nation-state's dynamic modes of gate-keeping citizenship and identity making and the uneven effects of these discourses and practices on this category of transnational migrants.

Performing Masculinity Geir Presterudstuen, 2020-06-11 Geir Henning Presterudstuen provides an ethnographic account of how men in the multicultural urban centres of Fiji perceive, construct, and perform masculinities in the context of rapid social change. Theoretically informed by critical feminist theories, postcolonialism, R. W. Connell's work on masculinities, and a Bourdieuan conceptualization of the body, this book explores how notions of masculinity, manhood, and the male body are shaped by the conflicting social forces of Fijian tradition, modernity, commercialization, and urbanization. The book provides a timely intervention from the grassroots level in the global south into an ongoing discourse about men and masculinities that has long been dominated by voices from Europe and the US. Combining classic ethnography with innovative social analysis, Presterudstuen's book is suitable for students and academics with an interest in gender and social change and for scholars across a variety of disciplines including anthropology, gender studies, sociology, Pacific studies, and international development.

Myers comparatively examines the adoption of Asian Black and Native American children by White families in the United States He shows how race has been constructed relationally to mark certain homes families and nations as spaces of love freedom and better futures in contrast to others that are not and argues that violence is attached to adoption in complex ways Propelled by different types of love such adoptions attempt to transgress biological racial cultural and national borders established by traditional family ideals Yet they are also linked to structural symbolic and traumatic forms of violence The Violence of Love confronts this discomfoting reality and rethinks theories of family to offer more capacious understandings of love kinship and care **Relative Values** Sarah Franklin, Susan McKinnon, 2002-02-22 A collection of essays that redefine and transform the field of kinship
