The Long Way to Europe Wolfgang J. Mommsen, 1994 Prominent historians from Eastern and Western Europe speculate on the political and economic future of the continent

The Social Construction of Europe Thomas Christiansen, Knud Erik Jørgensen, Antje Wiener, 2001-06-01 This book is the first to systematically introduce and apply a social constructivist perspective to the study of European integration Social constructivism is carefully located in terms of its philosophical and methodological origins The wider debates and contribution of constructivist approaches to international relations are reviewed and the insights that might then be afforded to European studies fully explored Highlights include new theoretical contributions to the debate by Ernst B Haas Andrew Moravcsik and Steve Smith research on key aspects of European integration and EU governance applying a variety of constructivist approaches The Social Construction of Europe provides new and important in

Europe and the Other and Europe as the Other Bo Stråth, 2010 This book contributes to the debate on what Europe means by demonstrating the complexities and contradictions inherent in the concept They are seen most clearly when Europe is viewed from a long historical perspective During the closing decades of the twentieth century Europe emerged as one of the main points of reference in both the cultural and the political constructs of the global community An obsession with the concept of European identity is readily discernible This process of identity construction provokes critical questions which the book aims to address At the same time the book explores the opportunities offered by the concept of Europe to see how it may be used in the construction of the future The approach is one of both deconstruction and reconstruction The issue of Europe is closely related in the book to more general issues concerning the cultural construction of community The book should therefore be seen as the companion of *Myth and Memory in the Construction of Community* which is also published by PIE Peter Lang in the series *Multiple Europes* The book appears within the framework of a research project on the cultural construction of community in modernisation processes in comparison This project is a joint enterprise of the European University Institute in Florence and the Humboldt University in Berlin sponsored by the Bank of Sweden Tercentenary Fund

War and Diplomacy in East and West M. B. Biskupski, 2017-05-12 The New York Times said of Józef Hieronim Retinger that he was on intimate terms with most leading statesmen of the Western World including presidents of the United States He has been repeatedly acknowledged as

one of the principle architects of the movement for European unity after the World War II and one of the outstanding creative political influences of the post war period He has also been credited with being the dark master behind the so called Bilderberg Group described variously as an organization of idealistic internationalists and a malevolent global conspiracy Before that Retinger involved himself in intelligence activities during World War II and given the covert and semi covert nature of many of his activities it is little wonder that no biography has appeared about him This book draws on a broad range of international archives to rectify that American Imperatives Anders Stephanson,2025-07-15 What was the cold war Conventional wisdom makes it coextensive with an epoch stretching from the end of the Second World War to the collapse of the Soviet Union a geopolitical period dominated by the confrontation between the United States and the USSR In a fundamental challenge to prevailing orthodoxy Anders Stephanson explodes this misconception which has misled historians and obscured the US centered nature of the entire process He argues that the cold war is better understood as the frame that made the global role of the US after 1947 not only possible but imperative and that in its classic form it ended in 1963 after the Cuban Missile Crisis American Imperatives does not assume that the causes of the great superpower rivalry rest solely with the United States But the frame was unmistakably and ineradicably American Without it there would not have been properly speaking a cold war Protectionism to Liberalisation Maurice Fitzgerald,2018-02-06 This title was first published in 2000 This work examines Irish government towards European integration in the second post war decade by concentrating on crisis points or flash points it does this in a fairly subject oriented manner concerning Dublin s decision making processes The central themes of this study are concentrated on economic matters but they deal with other tenets when relevant too be they of a cultural diplomatic ideological military political or social nature Policy Discourses on Irregular Migration in Germany and the United Kingdom B. Vollmer,2014-10-20 Migration expert Bastian Vollmer explores the contentious issue of irregular migration in the highly charged contexts of Germany and the UK Through policy and discourse analysis the author explains why despite the differing contexts and migration histories German and British policy responses to the issue are now on a convergent path **International Cold War Military Records and History** William W. Epley,1996 Historical Abstracts ,1995 **Europe Without Borders** Mabel Berezin,Martin Schain,2003 Contributors to this volume address such topics as how Europeans now see themselves in relation to national identity whether they identify themselves as citizens of a particular country or as members of a larger socio political entity how both natives and immigrants experience national and transnational identity at the local level and the impact of globalization on national culture and the idea of the nation state European Identity Alex Drace-Francis,2013-10-17 What is Europe A continent A political institution A cultural community Bringing together 101 key texts on the theme of European identity this reader provides essential insights into the idea of Europe from 450 BC to the twenty first century The only collection of its kind in English it includes rare and newly translated material alongside classic texts from antiquity and the Enlightenment from

figures as diverse as Aristotle Immanuel Kant Fyodor Dostoevsky Winston S Churchill and Julia Kristeva Space is also given to views of Europe from the outside including Asian African Latin American US and Caribbean authors With an introductory overview notes on each text and a guide to further reading Alex Drace Francis brings issues of European identity into sharp relief for both teachers and students of European history geography culture and politics

Geschichtswissenschaft im Geist der Demokratie Christoph Cornelißen, 2014-06-04 Obwohl die Zeitgeschichtsschreibung in der Bundesrepublik inzwischen die Schwelle zu den 1970er Jahren berwinden konnte ist die Selbstthematisierung der Fachgeschichte bislang kaum über das Jahr 1965 hinausgelangt Zwar haben die Debatten über die Rolle der deutschen Historiker im Nationalsozialismus ebenfalls ein Licht auf ausgewählte Grundraster der westdeutschen Geschichtswissenschaft geworfen aber über die Angehörigen der so genannten 45er Dirk Moses liegen bislang nur bruchstückhaft Informationen vor Vor diesem Hintergrund wird hier erstmals der Versuch unternommen ausgewählte Entwicklungen der westdeutschen Geschichtswissenschaft in den 1970er und 1980er Jahren näher zu ergreifen Im Mittelpunkt steht das weit gespannte wissenschaftliche und publizistische Werk des früheren Düsseldorf Historikers Wolfgang J Mommsen 1930 2004 von dem wesentliche Impulse sowohl auf die Erforschung des Deutschen Kaiserreichs als auch die Auseinandersetzung mit dem Werk Max Webers in der Bundesrepublik ausgegangen sind Daneben steht Wolfgang J Mommsen der über mehrere Jahre das Deutsche Historische Institut in London leitete mit seinem Namen für die Internationalisierung der westdeutschen Geschichtswissenschaft Der Band rückt somit einen der bekanntesten westdeutschen Historiker der 1970er und 1980er Jahre in den Mittelpunkt um den Hauptdeutungslinien den Wirkungsmechanismen und den generationellen Prägungen der westdeutschen Historiographie in dieser Phase auf den Grund zu gehen
