world spins on its own rhythm we dance to the music we hear There are things we often fail to see and messages we often miss out We fret at our loss cry at our wounds and weep over what we've lost These poems will make you see beyond the dark days and learn that you are more than who you think you are And above all you will realize that you're not alone in your suffering There are messages that you can relate to and some that will let you think of yesterday and then tomorrow Together we shall share our tears of joy and sorrow Faulkner's Subject Philip M. Wilson,2009-09-18 To early European colonists the swamp was a place linked with sin and impurity to the plantation elite it was a practical obstacle to agricultural development For the many excluded from the white southern aristocracy African Americans Native Americans Acadians and poor rural whites the swamp meant something very different providing shelter and sustenance and offering separation and protection from the dominant plantation culture Shadow and Shelter The Swamp in Southern Culture explores the interplay of contradictory but equally prevailing metaphors first the swamp as the underside of the myth of pastoral Eden that defined the antebellum South and second the swamp as the last pure vestige of undominated southern ecoculture As the South gives in to strip malls and suburban sprawl its wooded wetlands have come to embody the last part of the region that will always be beyond cultural domination Examining the southern swamp from a perspective informed by ecocriticism literary studies and ecological history Shadow and Shelter considers the many representations of the swamp and its evolving role in an increasingly multicultural South **Faulkner and Formalism**

Faulkner's language to writing and the letter itself Serena Blount Owen Robinson James Harding and Taylor Hagood interpret returns of the text in the sense in which Roland Barthes characterizes this shift his seminal essay From Work to Text For Barthes the text is not to be thought of as an object but as a methodological field a notion quite different from the New Critical understanding of the work as a unified construct with intrinsic aesthetic value Faulkner's language itself is under close scrutiny in some of the readings that emphasize a deconstructive or a semiological approach to his writing Historical and cultural contexts continue to play significant roles however in many of the essays The contributions by Thadious Davis Ted Atkinson Martyn Bone and Ethel Young Minor by no means ignore the cultural contexts but instead of approaching the literary text as a reflection a representation of that context whether historical economic political or social these readings stress the role of the text as a challenge to the power of external ideological systems By retaining a bond with new historicist analysis and cultural studies these essays are illustrative of a kind of analysis that carefully preserves attention to Faulkner's sociopolitical environment The concluding essay by Theresa Towner issues an invitation to return to Faulkner's less well known short stories for critical exposure and the pleasure of reading
