Wallmann, 1999 Wallmann's sweep through the western is a careful incisive and blessedly non theoretical examination of the implications of the western from the beginning to the present taking the reader deep into the heart of the subject and offering original and perceptive theories of how the western reflects the evolution of America BOOK JACKET *Hyderabad, British India, and the World* Eric Lewis Beverley, 2015-06-01 This examination of the formally autonomous state of Hyderabad in a global comparative framework challenges the idea of

the dominant British Raj as the sole sovereign power in the late colonial period Beverley argues that Hyderabad's position as a subordinate yet sovereign minor state was not just a legal formality but that in exercising the right to internal self government and acting as a conduit for the regeneration of transnational Muslim intellectual and political networks Hyderabad was indicative of the fragmentation of sovereignty between multiple political entities amidst empires By exploring connections with the Muslim world beyond South Asia law and policy administration along frontiers with the colonial state and urban planning in expanding Hyderabad City Beverley presents Hyderabad as a locus for experimentation in global and regional forms of political modernity This book recasts the political geography of late imperialism and historicises Muslim political modernity in South Asia and beyond
