aspects of traditionalism and modernity although the topics here are divergent the consistent part of it is that all of the authors mostly come from the same disciplines of Sociology and Social Anthropology The main concern is to find out the socio cultural changes that have occurred due to modernization and development From that perspective the book is very useful to understand Sociology and Social Anthropology from diversities based on traditionalism and modernity It contains eleven articles contributed by a few renowned sociologists and social anthropologists from a number of countries around the world focusing on diversified issues on traditionalism and modernity The papers are written on the basis of each author s expertise in their respective field which are compiled to make them a suitable document in the field of Sociology and Social Anthropology The book seems to be very useful for the students seeking knowledge on traditionalism and modernity having based in Sociology and Social Anthropology The concepts of traditionalism and modernity are very important and are related issues in Sociology and Social Anthropology that many theoretical discussions have been carried out in these areas and several theoretical paradigms have been conceptualized in this regard which have been highlighted in the book in the form of descriptive analytic discussion Donald Thomson In Arnhem Land Nicolas Peterson,2018-07-13 I had lived and hunted

with these people accompanied them on their nomadic wanderings and learned their customs and their languages with the result that I understood and believed in them and resented the injustices under which they had suffered for so long at the hands of the white man and other invaders of their territory In 1932 33 Yolngu people living in the Caledon Bay area of north east Arnhem Land were involved in the killing of five Japanese fishermen and three Europeans A punitive expedition was proposed to teach the Aborigines a lesson In response Donald Thomson a Melbourne born anthropologist offered to investigate the causes of the conflict After seven months of investigation he persuaded the Federal Government to free the three men convicted of the killings and returned with them to their own country subsequently spending fifteen months documenting the culture of the region Whilst in Arnhem Land Thomson a superb and enthusiastic photographer made the

most comprehensive photographic record of any fully functioning self supporting Aboriginal society that we will ever have. The one hundred and thirty images included in this book cover domestic life, subsistence, house types, material culture, and religious life, providing a uniquely privileged glimpse of life beyond the frontier. Thomson recorded his experiences in newspaper and academic articles, private papers, and extended reports to the government. Nicolas Peterson brings this material together as a compelling, highly personal narrative in Thomson's own words. It is a narrative that names all the Aboriginal people involved, presenting them as individuals in a way no other writings of the time do. Through it all, Thomson's passionate commitment to Aboriginal rights as defender, critic, and advocate shines through.
