Looking North Northern England And The National Imagination:

Looking North Dave Russell, 2004-10 Investigating areas as diverse as travel literature fiction dialect the stage radio television feature film music and sport this book assesses the portrayal of the North of England within the national culture and how this has impacted upon attitudes to the region and its place within notions of Englishness The relationship between these cultural forms and the construction of regional identity has received only limited consideration and this fascinating work provides not only much new information but also a map for future writers The North although seen ultimately as other and the subject of much critical comment is also shown here as capable of stimulating the creative imagination and invigorating English culture in sometimes surprising ways

'Race,' Space and Multiculturalism

in Northern England Shamim Miah, Pete Sanderson, Paul Thomas, 2020-06-02 This book challenges the narrative of Northern England as a failed space of multiculturalism drawing on a historically contextualised discussion of ethnic relations to argue that multiculturalism has been more successful and locally situated than these assumptions allow The authors examine the interplay between race space and place to analyse how profound economic change the evolving nature of the state individual racism and the local creation and enactment of multiculturalist policies have all contributed to shaping the trajectory of ethnic faith identities and inter community relations at a local level In doing so the book analyses both change and continuity in discussion of and national local state policy towards ethnic relations particularly around the supposed segregation integration dichotomy and the ways in which racialised events are perceived and identities are created and reflected in state policy operations Drawing on the authors long involvement in empirical research policy and practice around ethnicity race and racism in the Northern England they effectively support critical and situated analysis of controversial racialised issues and set these geographically specific findings in the context of wider international experiences of and tensions around growing ethnic diversity in the context of profound economic and social changes

Northernness, Northern Culture and Northern Narratives Gabby Riches, Karl Spracklen, Spencer Swain, 2018-10-18 Northernness Northern culture and Northern narratives are a common aspect of popular culture and the North of England like other Northernnesses in Europe is a collection of narratives myths stereotypes and symbols In politics and everyday culture Northern culture is paradoxically a site of resistance against an inauthentic South a source of working class identity and a source of elite marginalisation This book provides a key to theorising about Northernness and a platform to scholars working away at exposing the North in different aspects of culture The aims of this book are twofold to re theorise the North and Northern culture and to highlight the ways in which constructions of Northernness and Northern culture are constituted alongside other gender racial and regional identities The contributions presented here theorise Northernness in relation to

space leisure gender race class social realism and everyday embodied practices A main thematic thread that weaves the whole book together is the notion that Northernness and the North is both an imagined discursive construct and an embodied subjectivity thus creating a paradox between the reality of North and its representation This book was originally published as a special issue of the Journal for Cultural Research **Storied Ground** Paul Readman,2018-02-22 The relationship between landscape and identity is explored to reveal how Englishness encompasses the urban and rural and the north and south *Face to Face* Kausik Bandyopadhyay,2021-03-30 While rivalry is embedded in any sporting event or performance soccer the world's most popular mass spectator sport has been an emblem of such rivalries since its inception as an organized sport Some of these rivalries grow to become long term and perennial by their nature extent impact and legacy from the local to the global level They represent identities based on widely diverse affiliations of human life locality region nation continent community class culture religion ethnicity and so on Yet at times such rivalries transcend barriers of space and time where soccer clubs nations personalities organizations styles and fans float and compete with intriguing identities The present volume brings into focus some of the most fascinating and enduring rivalries in the world of soccer It attempts to encapsulate analyse and reconstruct those rivalries between nations between clubs between personalities between styles of play between fandoms and between organizations in a historical perspective in relation to diverse identities competing ideologies contestations of power psychologies of attachment bonds of loyalty notions of enmity articulations of violence and affinities of fan culture some of the core manifestations of sporting rivalry The chapters in this book were originally published as a special issue of Soccer Society *The BBC and national identity in Britain, 1922-53* Thomas Hajkowski,2013-07-19 Examining the ways in which the BBC constructed and disseminated British national identity during the second quarter of the twentieth century this book is the first study that focuses in a comprehensive way on how the BBC through its radio programs tried to represent what it meant to be British The BBC and national identity in Britain offers a revision of histories of regional broadcasting in Britain that interpret it as a form of cultural imperialism The regional organization of the BBC and the news and creative programming designed specifically for regional listeners reinforced the cultural and historical distinctiveness of Scotland Wales and Northern Ireland The BBC anticipated and perhaps encouraged the development of the hybrid dual identities characteristic of contemporary Britain This book will be of interest to scholars and students of nationalism and national identity British imperialism mass media and media history and the four nations approach to British history **Health Divides** Clare Bambra,2016-08-30 HIGHLY COMMENDED IN THE BMA BOOK AWARDS 2017 Americans live three years less than their counterparts in France or Sweden Scottish men survive two years less than English men Across Europe women in the poorest communities live up to ten years less than those in the richest Revealing gaps in life expectancy of up to 25 years between places just a few miles apart this important book demonstrates that where you live can kill you Clare Bambra a leading expert in public health draws on case studies from across the globe

to examine the social environmental economic and political causes of these health inequalities how they have evolved over time and what they are like today Bambra concludes by considering how health divides might develop in the future and what should be done so that where you live is not a matter of life and death Danny Dorling provides a foreword
