**Loons Postcard Collection** Peter Roberts, 1990-05-01      **Birding** ,1989      **The Book of Postcard Collecting** Thomas E. Range, 1980      *The Line Tender* Kate Allen, 2020-04-21 Funny poignant and deeply moving *The Line Tender* is a story of nature's enduring mystery and a girl determined to find meaning and connection within it. Wherever the sharks led Lucy Everhart's marine biologist mother was sure to follow. In fact, she was on a boat far off the coast of Massachusetts collecting shark data when she died suddenly. Lucy was seven. Since then, Lucy and her father have kept their heads above water thanks in large part to a few close friends and neighbors. But June of her twelfth summer brings more than the end of school and a heat wave to sleepy Rockport. On one steamy day, the tide brings a great white and then another tragedy cutting short a friendship everyone insists was meaningful but no one can tell Lucy what it all meant. To survive the fresh wave of grief, Lucy must grab the line that connects her depressed father, a stubborn fisherman, and a curious old widower to her mother's unfinished research on the Great White's return to Cape Cod. If Lucy can find a way to help this unlikely quartet follow the sharks her mother loved, she'll finally be able to look beyond what she's lost and toward what's left to be discovered. Godden, 1996 Uses *Worthing* as a case study and looks at the introduction and development of picture postcard collecting      Defenders ,1989      **Wilderness** ,1989      **Paperbound Books in Print** ,1991      **In the Adirondacks** Matt Dallos, 2023-03-28 An immersive journey into the past, present, and future of a region many consider the Northeast's wilderness backyard. Out of all the rural areas of the United States, including those in the West, which are bigger and propped up by more pervasive myths about adventure, nation, and wilderness, and freedom, the Adirondacks has accumulated a well-known identity beyond its boundaries. Untouched, unspoiled, it is defined by what we haven't done to it. Combining author Matt Dallos's personal observations with his thorough research of primary and secondary documents, *In the Adirondacks* rambles through the region to understand its significance within American culture and what lessons it might offer us for how we think about the environment. In vivid prose, Dallos digs through the region's past and present to excavate a series of compelling stories and places: a moose named Harold, a hot dog mogul's rustic mansion, an ecological restoration on an alpine summit, a hermit who demanded a helicopter ride, and a millionaire who dressed up as a Native American to rob a stagecoach. Along the way, Dallos listens to locals and tourists, visits wilderness areas and souvenir shops, and digs through archives in museums and libraries. *In the Adirondacks* blends lively history and immersive travel writing to explore the Adirondacks that captivated Dallos's childhood imagination while presenting a compelling and entertaining story about America's largest park outside of Alaska. The result is an inquisitive journey through the region's bogs and lakes and boreal forests and the lives of residents and

tourists Dallos turned toward the region to understand why he couldn't shake it from his mind What he learned is that he is not the only one In the Adirondacks explores the history and future of the most complicated contested park in North America raising important questions about the role of environmental preservation and the great outdoors in American history and culture

**Postcards from the Road** Jonathan Day, 2014-05-01 Walker Evans said in his 1958 introduction to Robert Frank's *The Americans* For the thousandth time it must be said that pictures speak for themselves wordlessly visually or they fail The images revolutionized post war American photography With their candid images of men and women from all classes and walks of life the photographs presented a very different story than that portrayed by the wholesome caricature of midcentury prosperity pervading American photography at the time Although initially dismissed by his peers for his pioneering work Frank was ultimately credited with changing the course of the art form and his photography holds a secure status in the history of twentieth century art And he did all this without words It seems appropriate then and not a little overdue that Jonathan Day has created a book that expounds explores and examines Frank's work pictorially Taking Frank's iconic images as his point of reference Day shot new photographs that commented on the road and contemporary America Here these images are paired with critical commentary that details the aspects of the work that are visually expounded and explained in Day's complementary images A visual entryway to the photographs and themes of this iconic book in the history of photography *Postcards from the Road* represents an innovative carefully considered departure from standard photographic textbooks

**Made in Newark** Ezra Shales, 2010 What does it mean to turn the public library or museum into a civic forum *Made in Newark* describes a turbulent industrial city at the dawn of the twentieth century and the ways it inspired the library's outspoken director John Cotton Dana to collaborate with industrialists social workers educators and New Women This is the story of experimental exhibitions in the library and the founding of the Newark Museum Association a project in which cultural literacy was intertwined with civics and consumption Local artisans demonstrated crafts connecting the cultural institution to the department store school and factory all of which invoked the ideal of municipal patriotism Today as cultural institutions reappraise their relevance *Made in Newark* explores precedents for contemporary debates over the ways the library and museum engage communities define heritage in a multicultural era and add value to the economy
