Man On His Past The Wiles Lectures:

Man on His Past Herbert Butterfield,1955 This book is an extended version of the Wiles lectures and illustrates the rise scope methods and objectives of the history of historiography *Man on His Past* Herbert Butterfield,1969 Man on His Past Herbert Butterfield,1955 **Man on His Past** Herbert Butterfield,1960 *Man on His Past* Herbert Butterfield,1955

Modernizing England's Past Michael Bentley,2006-01-12 What came before postmodernism in historical studies By thinking through the assumptions methods and cast of mind of English historians writing between about 1870 and 1970 this book reveals the intellectual world of the modernists and offers a full analysis of English historiography in this crucial period Modernist historiography set itself the objective of going beyond the colourful narratives of whigs and popularizers in order to establish history as the queen of the humanities and as a rival to the sciences as a vehicle of knowledge Professor Bentley does not follow those who deride modernism as positivist or empiricist but instead shows how it set in train brilliant new styles of investigation that transformed how historians understood the English past But he shows how these strengths were eventually outweighed by inherent confusions and misapprehensions that threatened to kill the very subject that the modernists had intended to sustain **Man on His Past** Herbert Butterfield,1955 **Herbert Butterfield and the**

Interpretation of History K. Sewell,2005-01-13 This book examines successive stages in the development of the thought of Sir Herbert Butterfield in relation to fundamental issues in the science of history In a carefully nuanced way it lays bare the unspoken motivations and hidden tensions in Butterfield s debate with himself and with a host of contemporary historians in the period between 1924 79 *Cultural Foundations of Industrial Civilization* , **The Life and Thought of Herbert**

Butterfield Michael Bentley,2011-04-21 Once recalled only for *The Whig Interpretation of History* 1931 and *Christianity and History* 1949 Sir Herbert Butterfield s contribution to western culture has undergone an astonishing revaluation over the past twenty years What has been left out of this reappraisal is the man himself Yet the force of Butterfield s writings is weakened without some knowledge of the man behind them his temperament contexts and personal torments Previous authors have been unable to supply a rounded portrait for lack of available material particularly a dearth of sources for the crucial period before the outbreak of war in 1939 Michael Bentley s original startling 2011 biography draws on sources never seen before They enable him to present a new Butterfield one deeply troubled by self doubt driven by an urgent sexuality and plagued by an unending tension between history science and God in a mind as hard and cynical as it was loving and charitable **Herbert Butterfield** Kenneth B. McIntyre,2023-10-03 The most original historian of his generation That is

how the celebrated British academic Noel Annan described Herbert Butterfield 1900 1979 a profound and prolific writer who made important contributions as both a public and academic historian In this authoritative and accessible intellectual biography Kenneth B McIntyre explores the extraordinary range of Butterfield s work He shows why the small book *The Whig Interpretation of History* 1931 achieved such large influence Butterfield he demonstrates has profoundly shaped

American and European historiography by highlighting the distortions that occur when historians interpret the past merely as steps along the way toward the glorious present But McIntyre delves much deeper examining everything from Butterfield's lectures on history historiography and Christianity to his warnings about the dangers of hubris in international affairs to his essays on the origins of modern science which basically created the modern discipline of the history of science This latest volume in the acclaimed Library of Modern Thinkers series helps us understand a prescient and insightful thinker who challenged dominant currents in history historiography international relations and politics *Herbert Butterfield C.T.*

McIntire,2008-10-01 Herbert Butterfield 1900 1979 was an important British historian and religious thinker whose ideas in particular his concept of a Whig interpretation of history remain deeply influential In this intellectual biography the first comprehensive study of Butterfield C T McIntire focuses on the creative processes that lay behind Butterfield's intellectual accomplishments Drawing on his investigations into Butterfield's vast and diverse output of published and unpublished work McIntire explores Butterfield's ideas and methods He describes Butterfield's lifelong devotion to his Methodist faith and shows how his Christian spirituality animated his historical work He also traces the theme of dissent that ran through Butterfield's life and work presenting a man who found himself at odds with prevailing convictions about history morality politics religion and teaching a man who elevated the notion of dissent into an ethic of living in tension with any established system Worlds Made by Words Anthony Grafton,2009

The Construction of Nationhood Adrian Hastings, 1997-11-06

The Construction of Nationhood first published in 1997 is a thorough re-analysis of both nationalism and nations. In particular it challenges the current modernist orthodoxies of such writers as Eric Hobsbawm, Benedict Anderson and Ernest Gellner and it offers a systematic critique of Hobsbawm's best-selling Nations and Nationalism since 1780. In opposition to a historiography which limits nations and nationalism to the eighteenth century and after as an aspect of modernisation, Professor Hastings argues for a medieval origin to both, dependent upon biblical religion and the development of vernacular literatures. While theorists of nationhood have paid mostly scant attention to England, the development of the nation state is seen here as central to the subject, but the analysis is carried forward to embrace many other examples including Ireland, the South Slavs and modern Africa, before concluding with an overview of the impact of religion, contrasting Islam with Christianity while evaluating the ability of each to support supra-national political communities.
