Man the Measure, 1967      **Man the Measure** Erich Kahler, 1956      *Man The Measure* Erich Kahler, 2019-03-05 Man the Measure is the work of a man who has searched passionately for the reasons of the current breakdown of values and ways of life attempting to write history as the biography of man and from it to gain a view of the future of man      Anatomies of Modern Discontent Thomas S. Marciniak, 2006 Towards a History of Consciousness Space Time and Death offers a cogent and compelling discussion of the neglected topic of the history of consciousness An analysis of our postmodern ontology reveals deep but neglected roots What are those roots and how did they grow Is there a self without consciousness What is the relation of the self to the individual Does the recognition of death contribute to the growth of consciousness As a survey of western history this work pushes the boundaries of the understanding of consciousness in intriguing and sometimes provocative directions This integrative study is intended for the serious curious student and thinker      *Utopic Dreams and Apocalyptic Fantasies* Talmadge J. Wright, David G. Embrick, Andras Lukacs, 2010-09-25 Few books have attempted to contextualize the importance of video game play with a critical social cultural and political perspective that raises the question of the significance of work pleasure fantasy and play in the modern world The study of why video game play is fun has often been relegated to psychology or the disciplines of cultural anthropology literary and media studies communications and other assorted humanistic and social science disciplines In Utopic Dreams and Apocalyptic Fantasies Talmadge Wright David Embrick and Andras Lukacs invites us to

move further and consider questions on appropriate methods of researching games understanding the carnival quality of modern life the role of marketing in altering game narratives and the role of fantasy and desire in modern video game play Embracing an approach that combines a cultural and or critical studies approach with a sociological understanding of this new media moves the debate beyond simple media effects moral panics and industry boosterism to one of asking critical questions what does modern video game play mean what questions should we be asking and what can sociological research contribute to answering these questions This collection includes works which use textual analysis audience based research symbolic interactionism as well as political economic and psychoanalytic perspectives to illuminate areas of inquiry that preserves the pleasure of modern play while asking tough questions about what such pleasure means in a world divided by political economic cultural and social inequalities

*Frontiers of History* Donald R. Kelley, 2006-01-01 In 1764 65 the irrepressible playwright Beaumarchais travelled to Madrid where he immersed himself in the life and society of the day Inspired by the places he had seen and the people he had met Beaumarchais returned home to create *The Barber of Seville* and *The Marriage of Figaro* plays that became the basis for the operas by Rossini and Mozart that continue to delight audiences today This book is a lively and original account of Beaumarchais s visit to Madrid he never went to Seville and a re creation of the society that fired his imagination Drawing on Beaumarchais s letters and

commentaries translated into English for the first time Hugh Thomas investigates the full range of the playwright's activities in Madrid. He focuses particular attention on short plays that Beaumarchais attended and by which he was probably influenced and he probes the inspirations for such widely recognized characters as the barber valet Figaro, the lordly Count Almaviva and the beautiful but deceived Rosine. Not neglecting Beaumarchais's many other pursuits ranging from an endeavour to gain a contract for selling African slaves to an attempt to place his mistress as a spy in the bed of King Charles III, Lord Thomas provides a highly entertaining view of a vital moment in Madrid's history and in the creative life of the energetic Beaumarchais.

**Weimar in Princeton** Stanley Corngold, 2022-02-10 Thomas Mann arrived in Princeton in 1938 in exile from Nazi Germany and feted in his new country as the greatest living man of letters. This beautiful new book from literary critic Stanley Corngold tells the little known story of Mann's early years in America and his encounters with a group of highly gifted migrants in Princeton which came to be called the Kahler Circle with Mann at its center. The Circle included immensely creative, mostly German speaking exiles from Nazism: foremost Mann, Erich Kahler, Hermann Broch and Albert Einstein, all of whom during the Circle's nascent years in Princeton were stupendously productive. In clear, engaging prose Corngold explores the traces the Circle left behind during Mann's stay in Princeton: treating literary works and political statements, anecdotes, contemporary history and the Circle's afterlife. *Weimar in Princeton* portrays a fascinating scene of cultural production at a critical juncture in the 20th century and the experiences of an extraordinary group of writers and thinkers who gathered together to mourn a lost culture and to reckon with the new world in which they had arrived.

**Beyond the Noise of Solemn Assemblies** Richard Allen, 2019-01-15 Since the 1970s Richard Allen's scholarship on the social gospel has broken new ground in the field of Canadian social and religious history by recovering key aspects of the tradition and its contribution to reform movements and politics. *Beyond the Noise of Solemn Assemblies* collects and extends many of his classic works to present a comprehensive overview of a major thread in the fabric of the country. Observing the mutual foundations of political and religious traditions in myth and arguing that the sacred and the secular belong together in discussions of public affairs, Allen contests the view that religion is personal and isolated from the public square. He discusses a range of topics: the transition from providential to progressive thought in nineteenth century Canada; the new spirituality of social solidarity articulated by Winnipeg college students in the 1890s; the role of the social gospel in pioneering urban reform; farmers and workers finding in radical Christianity legitimation for political revolt; Christian intellectuals in the 1930s framing a revolutionary prospectus for Depression era Canada; the significance of Norman Bethune's religious upbringing for his life and work; strategically focused post-war ecumenical coalitions like Project North and the Latin American Working Group; and the prospects for democratic socialism at the end of the Cold War. Opening with a chapter relating the author's upbringing in a ministerial household dedicated to the Protestant ethic as the spirit of socialism, *Beyond the Noise of Solemn Assemblies* represents a significant contribution to understanding the social Christian movement.

in Canada      **Permanent Crisis** Paul Reitter, Chad Wellmon, 2023-04-05 Any reader of the Chronicle of Higher Education can tell you that the humanities are in crisis Seen as irrelevant for modern careers and hopelessly devoid of funding humanistic disciplines seem at the mercy of modernizing forces driving the university towards academic pursuits that pull in grant money and direct students to lucrative careers But as Paul Reitter and Chad Wellmon show this crisis isn't new in fact it's as old as the humanities themselves Today's humanities scholars experience and react to basic pressures in ways that are strikingly similar to the response of their nineteenth century German counterparts In German universities of the 1800s as in those in the United States today humanities scholars felt threatened by the very processes that allowed the modern humanities to flourish such as institutional rationalization and the commodification of knowledge But Reitter and Wellmon also emphasize the constructive side of crisis discourse They claim that the self-understanding of the modern humanities didn't merely take shape in response to a perceived crisis it also made crisis a core part of its project The humanities came into their own by framing themselves as a unique resource for resolving crises of meaning and value that threatened other cultural or social goods With this critical historical perspective Permanent Crisis can take humanists beyond the usual scolding exhorting and handwringing into clearer more effective thinking about the fate of the humanities Furthering ideas from Max Weber and Friedrich Nietzsche to Andrew Delbanco and William Deresiewicz Reitter and Wellmon dig into the notion of the humanities as a way to find meaning and coherence in the world      Czechs Won't Get Lost in the World, Let Alone in America Miloslav Rechciĝl Jr., 2018-05-02 This book features a panorama of the lives of selected personalities whose roots had origin in the Czech lands and who in the US reached extraordinary success and who with their activities substantially influenced the growth and development of their new homeland It is a saga of plain as well as powerful people whose influence and importance often exceeded the borders of the US A great portion of included individuals may be unknown to readers since it concerns persons whose Czech origin was usually not known The book covers the total period from the times of the discovery of New World to the end of the twentieth century During the selection little concern was given to nationalistic or ethnographic criteria the only prerequisite was that the respected individuals were either born on the territory of the Czech lands or were descendants of emigrants from the Czech lands The image on the front cover is a portrait of Augustine Herman Lord of Bohemia Manor the first documented Czech immigrant in the United States The portrait comes from his famous Map of Maryland and Virginia dated 1670 The colorful story of his life would be unbelievable if made into a movie Pioneer merchant explorer surveyor map maker patriot rebel diplomat and finally Lord Read more about him in the book      *The Common Good* Marcus G. Raskin, 2019-11-19 First published in 1986 In this thought provoking book the widely acclaimed thinker and activist Marcus Raskin moves beyond the limits and failures of socialism and capitalism to an original theory of social reconstruction for a humane society Presenting concrete alternatives for education health economics and national security he develops a new conception of democracy and the rule of law in relation to our common

good A political and philosophic tool designed for those who search for alternatives in their lives and in the world The Common Good shows how to organize for social reconstruction the type of leadership now required and the importance of restoring progress as a political purpose Defining politics as broader than the mere manifestation of power Raskin s vision helps the left and liberals find their way towards a new public philosophy and program **The Christian Century**, 1928

*Education and Responsibility* Tunis Romein, 2021-03-17 This book reveals the sources of the disquiet prevailing among educators over the apparent failure of the public school system to develop moral responsibility in America s youth The doctrine of separation of church and state has made sectarian religious training illegal in public schools and Tunis Romein shows that the task of providing moral guidance suddenly thrust upon educators has disclosed their deep schisms in educational philosophy basic contradictions which have split American education from top to bottom Romein explains the basic conflicts in education by examining three educational philosophies progressivism educational reconstructionism and classical humanism and comparing all of them with the traditional Christian view He holds that all educational philosophies whether secular or not are based on faith and that all can be tested with regard to their beliefs about the nature of man and about the kind of moral responsibility education should develop in man With sincerity and frankness Romein analyzes the moral and intellectual poverty of much of the thinking dominant in education today and he shows the necessity as well as the difficulty of making faith in God once more the underlying influence in American education Ralph Ellison Michael Germana, 2018 Ralph Ellison Temporal Technologist elucidates the theory of temporality that binds Ellison s oeuvre together and explains why race is a matter of time Germana offers a wholesale reinterpretation of Ellison s corpus as well as an extension of Ellison s ideas about the dynamism of becoming and the open endedness of the future University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Subjects University of California (System). Institute of Library Research, University of California, Berkeley, 1972 *The Jews Among the Nations* Erich Kahler, This is an augmented edition of a superb volume by one of the foremost analysts of European institutions and ideas Here the late Erich Kahler turns his attention to the special character of the Jewish people formed uniquely through the interaction of internal and external circumstances in which past and present merge The chapters in this book deal with persistent problems of Jewish identity Kahler claims these can be fully understood only by awareness of the close interconnection between the singular ethnic nature and the unique social structure of the Jewish people He discusses the Jews in Europe specifically the historical implications of a strict tribal ritual that yet permitted the widest spiritual scope The second half of the book concerns anti-Semitism in relation to Jews and Germans How did the German people seemingly so congenial to the Jews develop a murderous revulsion against them ending a long and fruitful symbiosis Kahler sees this as a parallel to the parricidal rejection of the Jews by the Christian church His argument is deepened in an added chapter new to this volume on the major forms and features of anti-Judaism in which the earlier theme of the universal and the specific are

seen as central not only to the inner history of Judaism but also to the specific interaction of Jews and Gentiles throughout social history
