Glimpses at the origin, mission and destiny of man, with miscellaneous papers on taxation, peace, war [&c.]. Lawrence Heyworth, 1866 **History of Old Age** Georges Minois, 1989-11-28 History of Old Age is the first major study of the ways in which old age has been perceived in western culture throughout history Georges Minois paints a vast fresco starting with the first old man to relate his own story an Egyptian scribe some 4500 years ago and ending with the deaths of Elizabeth I and Henry IV in the sixteenth century Tracing the changing conceptions of the nature value and burden of the old Minois argues that western history during this period is marked by great fluctuation in the social and political role of the aged Minois shows how in ancient Greece the cult of youth and beauty on the one hand and the reverence for the figure of the Homeric sage on the other created an ambivalent attitude toward the aged This ambiguity appears again in the contrast between the active role that older citizens played in Roman politics and their depiction in satirical literature of the period Christian literature in the Middle Ages also played a large part in defining society's perception of the old both in the image of the revered holy sage and in the total condemnation of the aged sinner Drawing on literary texts throughout Minois considers the interrelation of literary religious medical and political factors in determining the social fate of the elderly and their relationship to society This book will be of great interest to social and cultural historians as well as to general readers interested in the subject of the aged in society today

The Preacher's Complete Homiletical Commentary, 1892 **Man Through the Ages** John Bowle, 1962 History of the Christian Church: Middle ages, translated by Andrew Rutherford Wilhelm Möller, 1893 *History Teacher's Magazine*, 1910 **Ancient**

Faith and Logic Basil Mitchell, 2013-07-18 When this book was originally published in 1957 there had been lively debates on the air and in the press about the bearing of modern philosophy upon Christianity but there had been relatively little sustained discussion of the subject This book of essays was the product of a small group of Oxford philosophers and theologians who had met and talked informally for some years before writing it It is an attempt to discuss with care and candour some of the problems raised for Christian belief by contemporary analytical philosophy In asking the questions raised this book makes articulate the perplexities of many intelligent people both believers and unbelievers The contributors concentrate on the way such concepts as God Revelation the Soul Grace are actually used rather than asserting or denying some very general theory of meaning

Changing Histories Ryôta Nishino,2011-06-16 The teaching of history in South African and Japanese schools has attracted sustained criticism for the alleged attempts to conceal the controversial aspects of their countries past and to inculcate ideologies favourable to the ruling regimes This book is the first attempt to systematically compare the ways in which education bureaucracy in both nations dealt with opposition and critics in the period from ca 1945 to 1995 when both countries were dominated by single party governments for most of the fifty years The author argues that both South African and Japanese education bureaucracy did not overtly express its intentions in the curriculum documents or in the textbooks but found ways to enhance its authority through a range of often subtle measures A total of eight themes in 60 officially approved Standard 6 South African and Japanese middle school history textbooks have been selected to demonstrate the changes and continuity This work hopes to contribute to the existing literature of comparative history by drawing lessons that would probably not have emerged from the study of either country by itself The dissertation won a publication prize at Georg Eckert Institute for Textbook Research
