Man, Metals and Modern Magic American Society for Metals, 1958      *AF Manual* United States. Department of the Air Force, 1966      Wealth from the Rocks Mwelwa C. Musambachime, 2016-07-29 This study focuses on the study of metallurgy in pre colonial Zambia to 1890 A general review of the literature on metallurgy in pre colonial Zambia reveals that during the period our study up to 1890 three metals were mined Iron production was a widespread important and significant phenomenon responsible for producing utility toolshoes axe knives weapons spears arrow heads and broad knives and regalia for the political and religious office holders copper which was confine to few areas and gold to even fewer areas Metallurgy was an important economic activity in which all ethnic groups participated in different levels of intensity From iron ore which was smelted in elaborate and complicated processes imbued in magic song dance incantations medicines and taboos by members of exclusively male guilds blacksmiths were able to produce the following a tools used in agriculture hoes axes used to clear forestays or areas to be cultivated to grow food for subsistence non edible crops such as tobacco and hemp which were smoked as part of relaxation cotton used to make blankets sand shawls needles for mending clothes and knives for a variety of uses b hunting using varieties of spears to hunt game seek protection from dangerous animals for defence of resources or offence to capture desired resources c various sizes of hooks used in fishing different varieties of fish and d making of regalia used in chieftaincies and priesthood as symbols of authority Copper was also smelted and put in ingots of varying sizes and rods of varying sizes and lengths which were a used to make copper wires as wires rods vessels and other utensils copper smiths produced jewellery and ornaments and cast art pieces such as statues and necklaces worn by men and women as status symbols b used in exchange of goods and services as currency and c used to produce regalia for the for those in authority Gold was mined directly and processed into making a variety of items such as buttons and regalia In its various forms of development and sophistication metallurgy was responsible for the economic social and political advances among the pre colonial societies A variety of skills was required for building furnaces producing charcoal smelting and forging iron into goods Metallurgy and production of various items that were needed and necessary for an improved life were generally not an enclave activity but a process that satisfied the totality of socioeconomic needs It also promoted the gender division of labour within community Wealth from the Rocks is therefore a detailed study of the place role and function of metallurgy in pre colonial Zambian societies      **Durability of Marker Materials for Nuclear Waste Isolation Sites** Warren E. Berry, 1983      **Poetic Glue** Dan Noyes, 2013-08-16 Materiality offers us the most basic playing field for finding poetic glue For here we can use our right brain to left brain oscillation to drag the animated from the inanimate object with respect to its characteristics and form Look for the twitch in a stone or the bowing of a blade of grass In seeing such manneristics within the banal you will certainly uncover more than a maple and perhaps more than a universe I hope that

you find an approach to look for poetry in all that abounds I hope you find revery in that poetry to inspire an idea The poetic idea is a simple one It is the connection between two seemingly dissimilars If you find a seed and notice the tiny spring within it and wonder of its function only to imagine it as the flinger of all things radicle in hopes of finding fertile ground then you ve found the poetic glue

**Breaking Boundaries** Agnes Horvath,Bjørn Thomassen (Associate professor),Harald Wydra,2015-05 Liminality has the potential to be a leading paradigm for understanding transformation in a globalizing world As a fundamental human experience liminality transmits cultural practices codes rituals and meanings in situations that fall between defined structures and have uncertain outcomes Based on case studies of some of the most important crises in history society and politics this volume explores the methodological range and applicability of the concept to a variety of concrete social and political problems

Political Alchemy: Technology Unbounded Agnes Horvath,2021-03-21 This book explores politics as a form of alchemy understood as the transformation of entities through an alteration of their identities Identifying this process as a common denominator of many political phenomena such as EU integration mediatisation communism or globalisation the author demonstrates not only the widespread presence of alchemical techniques in politics but also the acceleration of their deployment A study of the steady growth of power as it reaches a continuous and permanent stage thus avoiding the inherent difficulties connected with birth and death of political organisations and institutions this volume reveals political alchemy to be a form of self sustaining growth through sterile multiplication devoid of meaning Revealing both the integrative and disintegrative nature of a political process that while appearing to work in the interests of all in fact produces apathy desperate mobilisation and despair by crushing concrete entities such as personality and tradition Political Alchemy Technology Unbounded will appeal to scholars of sociology and anthropology with interests in social theory and political thought
