**Man, State, and Society in Contemporary Southeast Asia** Robert O. Tilman, 1969 *State, Nation and Ethnicity in Contemporary South Asia* Ishtiaq Ahmed, 1998-01-01 Preface *The State, Society and Big Business in South Korea* Yeon-Ho Lee, 2002-09-11 This book examines how the South Korean state is able to execute national policies that are opposed to the interests of social constituents despite the expansion of social power The relationship between the government and big business provides an illuminating example of this The author demonstrates how Confucian values the role of the family and a firm hierarchical tradition have prevented South Korea from developing a modern state on the Western model **State, Society and the Environment in South Asia** Stig Toft Madsen, 2013-12-16 Contemporary thinking favours local participation and local stake holding under a decentralized democratic framework as the just and efficient solution to contemporary South Asian environmental dilemmas and crises In a series of case studies and more extensive audits a group of mainly Nordic and American authors seek to substantiate qualify or criticize this formula Covering both urban and rural environments the hills and the plains the book provides insights into the actual management and mismanagement of resources in India and Pakistan Contents Income Distribution and Environmental Degradation The State and Local Management in Colonial Irrigation Oral Histories of Environmental Change in Rajasthan The Van Gujjars and the Rajaji National Park Implementing International Regimes in India Forest Contractors as Intermediaries in Pakistan s Forestry Tragedy of Collective Action among farmers in South India International production of Pesticides Voluntary Organisations in Environmental Service Provision The Use of Metaphor in Himalayan Resource Management **Imagining the Public in Modern South Asia** Brannon Ingram, J. Barton Scott, SherAli K Tareen, 2018-02-02 In South Asia as elsewhere the category of the public has come under increased scholarly and popular scrutiny in recent years To better understand this current conjuncture we need a fuller understanding of the specifically South Asian history of the term To that end this book surveys the modern Indian public across multiple historical contexts and sites with contributions from leading scholars of South Asia in anthropology history literary studies and religious studies As a whole this volume highlights the complex genealogies of the public in the Indian subcontinent during the colonial and postcolonial eras showing in particular how British notions of the public intersected with South Asian forms of publicity Two principal methods or approaches the genealogical and the typological have characterised this scholarship This book suggests more in the mode of genealogy that the category of the public has been closely linked to the sub continental history of political liberalism Also discussed is how the studies collected in this volume challenge some of liberalism s key presuppositions about the public and its relationship to law and religion **Science and Development in Thai and South Asian Buddhism** David L Gosling, 2019-11-27 Becoming a Buddhist monk in Thailand has for a long time provided the opportunity for access to a good education and to social advancement both to bright poor rural youths and to members of the urban elite whose youth often become monks for a few months as a rite of

passage into adulthood Moreover although women are not allowed to become fully fledged monks recent developments have encouraged a special status akin to nuns for many devout Thai Buddhist women All this has resulted in large numbers of well educated well motivated Buddhist religious people keen both to engage in religious contemplation and also determined to contribute to this worldly social economic educational and medical development goals This book by a leading authority on the subject considers the role of Thai Buddhist religious people in development within Thailand It discusses how Thai Buddhism has evolved philosophically and in its organisation to allow this examines various examples of Buddhist people s engagement in development projects and assesses how the situation is likely to unfold going forward In addition the book considers the relationship between science and religion in Thai Buddhism and also some aspects of the parallel situation in Sri Lanka

**The Journal of the Chemical, Metallurgical & Mining Society of South Africa** ,1906 *Journal of the National Dental Association* ,1918 Includes the proceedings The Facts on File Companion to the World Novel Michael Sollars,Arbolina Llamas Jennings,2008 Power, Place, and State-Society Relations in Korea Jongwoo Han,2013-11-26 No book has addressed the simultaneous phenomena of Korea s rapid economic development and its vibrant democratization in a single coherent paradigm The late developmentalist approach emphasizes the strong role of Korea s state and bureaucratic efficiency but does not explain how political development was concurrent with the economic miracles in the Han River modernization and dependence theories also fail to explain the aspect of simultaneity in this phenomenon What these three theories commonly miss is the unique relationship between state and society in Korea s long history of political culture In this book Jongwoo Han takes a holistic approach to understanding these phenomena by examining the state s role in the unprecedented economic development and society s capabilities to resist the state s centralized power Han re articulates state society relations through Onuf s social constructivist approach based on three rules of a political community hegemony hierarchy and heteronomy This book expands upon this effort to re construct the state and society relations in two ways First it produces case studies of the capital city of Hanyang Joseon Dynasty from 1392 to 1910 Kyeongseong Japanese colonial control from 1910 to 1945 and Seoul 1945 current The capital city is analyzed as a container for the major ideologies and ways of thinking that have shaped three important political eras Second i adopts two indigenous thoughts Neo Confucianism and geomancy as sources of the main political and cultural ideologies that shape Korea s state and society relations These sources have never been treated as units of political analysis This book finds that both Neo Confucianism and geomancy over two periods of Hanyang and Kyeongseong are two main contributing factors of the emergence of the developmental state and vibrant democracy in Korea in the Seoul era *Modern South Asian Thinkers* Dev Nath Pathak,Sanjeev Kumar H.M,2025-10-30 This exceptional anthology brings together a collection of insightful expositions on modern South Asian thinkers and thoughts Employing an encyclopedic approach this volume delves deep into the intellectual history of South Asia transcending traditional academic perspectives and exploring a rich tapestry of ideas from various sources across time The

book departs from the imported ideas of South Asia by delving into the diverse intellectual heritage of the region pertaining to political thinkers social and cultural thinkers and activists Historically the book aids in approaching the enduring social and political challenges in South Asia Drawing from an extensive array of works including polemics commentaries literary accounts politics and poetics modern thoughts in South Asia provide systematic solutions to the perennial issues that shape the region The curatorial consequence of the modern thoughts from the region put together in this compendium is a collective consciousness of South Asia as an offspring of the epistemological interface between region and universe The readers of this book shall arrive at a profound insight into the social political and cultural intricacies the transformative power of ideas and their enduring influence on the development of the region This book would be useful to students researchers and teachers working in the field of political science philosophy history and sociology in varied course curricula such as Indian political thought Eastern philosophy South Asian thought political thinkers and modern political thought

Writing imperial histories Andrew S. Thompson, 2016-05-16 This book appraises the critical contribution of the Studies in Imperialism series to the writing of imperial histories as the series passes its 100th publication The volume brings together some of the most distinguished scholars writing today to explore the major intellectual trends in Imperial history with a particular focus on the cultural readings of empire that have flourished over the last generation When the Studies in Imperialism series was founded the discipline of Imperial history was at what was probably its lowest ebb A quarter of a century on there has been a tremendous broadening of the scope of what the study of empire encompasses Essays in the volume consider ways in which the series and the wider historiography have sought to reconnect British and imperial histories to lay bare the cultural expressions and registers of colonial power and to explore the variety of experiences the home population derived from the empire

**Sport Past and Present in South Africa** Scarlett Cornelissen, Albert Grundlingh, 2013-09-13 This book provides an interpretation of sport in contemporary South Africa through an historical account of the evolution and social ramifications of sport in the twentieth century It comprises chapters which trace the growth of sports such as football cricket surfing boxing and rugby and considers their relationship to aspects of racial identity masculinity femininity political and social development in the country The book also draws out the wider geo political significance of South African sport placing it in the context of the development of sport both elsewhere on the African continent and internationally The history of sport has seen significant international growth over the past few decades For the most part however the history of sport in Africa has remained largely untraced By detailing the way in which sport's development in South Africa overlapped with major socio political processes on the wider African continent this volume seeks to narrow the gap This book was previously published as a special issue of
