safeguards of the rights of minority shareholders have failed in their duty and how those shareholders have remained practically without any protection against the arbitrariness of the companies and majority shareholders The law the SEC society boards of directors independent directors auditors analysts underwriters and the press have remained in many cases worthless panaceas Nevertheless in the Ethics of 2000 new vehicles have been developed for the protection of minority shareholders mainly the Internet transparency activist associations and ethical funds Those vehicles give the shareholders at least the chance to understand the pattern and methods that are utilized to wrong them and give them a viable alternative for investment in ethical funds The new vehicles will prevent minority shareholders from using the Armageddon weapon by ceasing to invest in the stock exchange and causing the collapse of the system that discriminates against them **Making of an African Giant** Dan Mou,2015-10-16 The performance of Nigeria has recently been vehemently criticized as not commensurate with her human and material potentialities The hope that Nigeria is by destiny the African Giant appears to be fading Some analysts seeing this have blamed it on the character defects of the leadership in Nigeria They argue that because the leaders are predatory and corrupt they have preoccupied themselves with their interests which are primitive accumulation and luxurious lifestyles Meanwhile the rest of the citizens are suffering This book argues that such character defects may indeed exist in some of Nigerian leaders However these are not the main reasons for their dismal performance regarding the welfare of the citizens The main problem is that Nigerian leaders seem to have largely lost control over the state and its policies which appear to have been captured by the dominant classes and groups local and international Nigerias main problem is therefore a structural one Nonetheless the book concludes as the security economic political and social crises intensify Nigerian leaders even if it is simply for self preservation will be forced by the objective conditions to move against the interests of these dominant classes and groups It is only then that Nigeria can realistically be restored to the possibility of becoming an African Giant **A Noble Calling** David W. Whitlock, Gordon Dutilleul, 2008-01-01 Too often individuals who have been called to practice their gifts and talents in the field of business and professional life sense that to serve God they ought to be doing something more directly involved with the church Many successful business leaders upon coming to faith in Christ or upon renewing their interest in God's Word struggle with whether or not they should enter vocational ministry Certainly God calls some from among the professions into such vocations but many simply haven't realized the full potential of where God has placed them God's people who are assigned to duties in corporate boardrooms or offices on sales forces in entrepreneurial ventures and as members of research and development teams are among his most effective servants Believers who are active in the marketplace are surely among God's most treasured ministers and have the potential to have a wider impact and larger influence than most who serve in full time vocational ministries Likewise these professionals have a capacity for great harm to the church and the cause of Christ if while they make claims of Christian belief their actions prove inconsistent with what God's Word teaches if their walk doesn't match their talk Be encouraged God wants to use you

Psalm 15 David W. National Security, Democracy, and Good Governance in Postmilitary-Rule Nigeria, Volume Two Dr. Dan Mou, 2017-01-12 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the 71 percent of Nigerias population still living below the poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness worse civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in the future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use There is this perception that Nigerians dont write and read This perception is deep seated even among intellectuals who see our authors as shallow researchers But Dr Dan Mou has debunked that myth and shown that Nigerians can write well researched and detailed books It is quite prophetic in its assessment of the Nigerian State Agbo Agbo deputy editor The Nation Dr Dan Mou has proven

himself a world class scholar and an intellectual colossus His reputation as an internationally renowned public policy expert has continued to soar I congratulate him for these remarkable achievements Professor Justice Abdul Fatai Kuti first justice of Abuja High Court and former dean faculty of law University of Ado Ekiti Ekiti State of Nigeria Dr Mou is certainly one of the best scholars we have on the African continent As an educationist myself before I became a traditional ruler I agree totally with his analysis and conclusions I share the optimism Dr Mou has expressed that once the recommendations therein are adopted and meticulously implemented with proper monitoring and evaluation of such resultant policies and programmes Nigeria and indeed Africa would be able to solve most of these challenges HRH Alh Dr Sheban Audu Nizazo III Etsu Kwali Etsu Kwalis Palace Abuja Nigeria The Leadership Genius of Jesus William Beausay, 2009-06-22 A voyage through the business section of your local bookstore can be daunting You could drown in the sea of books on management and leadership At the very least the conflicting waves of instruction and advice from one book to the next will toss you back and forth leaving you confused and disoriented Which business guru can steer you to the shores of your promised land Which leadership trend is in and which ones are out If an approach works with one person does that mean it will work with another Don't let the competing voices make things more complicated than they should be And don't miss the most powerful example of leadership in history Jesus His approach was simple effective and brilliant How much more information do you need asks William Beausay II The fact is very little What you need are passion and heart Courage and dreams You'll find those traits in Jesus' life The Leadership Genius of Jesus is the lifeboat that will keep you afloat and point the way to fulfilling and dynamic leadership that will impact you and everyone you serve
