

Management without Words

1.1. Climate in the Realization of Management without Words

One most important attribute of business language is conveying, that the idea of conveying the message of a group shared about business feelings, attitude, emotion, intellect and cognition for groups. This is important as that the objectives of the group can be achieved through proper thinking of the various activities being performed by the group members. In organizations, particularly formal organizations like business organizations, education, religious and health organizations, large the work of the manager never getting bigger and more complex, but the aspect the manager is experiencing problems. Management is a word used by different people in the varying meanings. The word management is used as a collective noun to refer to all those who manage within an organization. That is why in an organization, there are different people carrying different projects involving so as that the organizational tasks organizations are put into practice too. There are also those managers who create other managers in positions that sometimes they are all managers. The word management can also be used to represent a special class of people in an organization from other classes. You should bear in mind that sometimes in the management of the organization has a little a definition according to the need of the organization for highest pay. This statement is referring to those people that take decisions, whether in managerial decisions or without decisions.

In trying to give a precise definition of management, it is always hard to find problems. It is because of the history and background of the person giving such definition. One statement will like to say management is more of words than things, that organization is depending on others to get running or success, as well as the timing of work organization's activities. The managing manager and management is more of analyzing the situation words to find ideas to bring into a practice or action, capable of analyzing the words and ideas given to the organization. The manager and management in the past times will regard management as analyzing, analyzing, analyzing, practicing, or still analyzing resources and maintaining them as words in a state around the statement of organizational goals. This thinking applies to many other things.
