Management Accounting and Cases Anthony A. Atkinson, 1997-01-01 **Cases in Management Accounting and Control Systems** Brandt R. Allen, 2005. Written to create a collection of teaching cases that are interesting, thought provoking and relevant to contemporary business situations and decisions, this book advocates broadening and strengthening the management dimensions of management accounting and control courses, doing so without sacrificing essential accounting content. Challenging yet concise cases are presented in a manner that minimizes reader preparation requirements. Topics and materials demonstrate how costs, cost analysis and planning and performance measurement can be useful to managers in making operating and strategic decisions. This edition includes cases intended to build a foundation of basic concepts like cost behaviors, standard costing and relevant costs. It also includes cases intended to address more comprehensive and complex issues such as activity based thinking, balanced scorecards, transfer pricing, the use of ROI versus Residual Income to measure performance, flexible budgeting and revenue and expense variance analysis. For anyone in management accounting, cost accounting, strategic cost management and/or management control systems professions.

Cases from Management Accounting Practice Shane Moriarty, 1985 *Accounting, Text and Cases* Robert Newton Anthony, James S. Reece, 1983. ACCOUNTING Text and Cases 10 E is a 28 chapter book. Chapters 1-14 cover financial accounting while Chapters 15-21 cover management accounting and Chapters 22-28 focus on broader issues of control and corporate strategy. The approximately 120 cases that largely make up the end of chapter material are a combination of classic Harvard style cases as well as extended problems. New to this edition is the inclusion of 2-3 problems per chapter. These problems, while not as involved as the case material, allow the students to exercise the concepts demonstrated in each chapter. The goal of the problem material is to provide a transition to the case material, which is a response to customer requests.
