Women Voicing Resistance Suzanne McKenzie-Mohr, Michelle N. LaFrance, 2014-03-26 Feminist scholars have demonstrated how dominant discourses and master narratives frequently reflect patriarchal influence, thereby distorting and depoliticizing women's storytelling of their own lives. In this groundbreaking volume, a number of internationally recognized researchers working across a range of disciplines provide a detailed examination of women's attempts to counter-story their lives when prevailing discourses are unhelpful or indeed harmful. As such, it is an exploration of women's agency and resistance, which highlights the challenges and complexities of such discursive work. The chapters explore women's resistance across a wide range of experiences, including intimate partner violence, casual sex, depression, premenstrual change, disordered eating, lesbian identity, women's work in male-dominated spaces, rape, and child birth. Each chapter combines theoretical analyses with illuminating first-hand accounts and elaborates practical implications that provide directions for individual and social change. Providing an incisive and comprehensive exploration of discourse, oppression, and resistance that cuts across domains of women's everyday lives, *Women Voicing Resistance* will be of great interest to students, scholars, and practitioners in the fields of psychology, gender studies, women's studies, sociology, and social work.
