Ritchie,2023-11-01 This revised edition of Dr Neville A Ritchie s 1986 PhD dissertation explores the history and archaeology of the 19th century Chinese mining communities in the Clutha Valley New Zealand Lavishly illustrated with black and white line drawings of Chinese domestic and industrial sites and of the artefacts excavated from them this study offers unprecedented insight into the life and material culture of these male only sojourner communities Widely considered the most comprehensive archaeological study of overseas Chinese miners experience anywhere in the world this volume contains the total summation and analysis of artefacts found in 23 Chinese sites excavated over nine years which included two camps with 40 individual huts and other features a Chinese store and 20 rural sites including miner s huts and rock shelters Considered by the Australian Society for Historical Archaeology to be a seminal work in the field of historical archaeology

this 2023 edition introduces Dr Ritchie's groundbreaking work to the next generation of archaeologists *The Oxford History of Historical Writing* Stuart Macintyre, Juan Maiguashca, Attila Pók, 2011-10-27 Volume 4 of The Oxford History of Historical Writing offers essays by leading scholars on the writing of history globally from 1800 to 1945 Divided into four parts it first covers the rise, consolidation and crisis of European historical thought and the professionalization and institutionalization of history The chapters in Part II analyze how historical scholarship connected to various European national traditions Part III considers the historical writing of Europe's Offspring the United States Canada South Africa Australia New Zealand Mexico Brazil and Spanish South America The concluding part is devoted to histories of non-European cultural traditions China Japan India South East Asia Turkey the Arab world and Sub-Saharan Africa This is the fourth of five volumes in a series that explores representations of the past from the beginning of writing to the present day and from all over the world This volume aims at once to provide an authoritative survey of the field and especially to provoke cross-cultural comparisons **Boston journal of natural history**, 1844 **Journal of the Royal Society of New Zealand**, 1982-09 New Zealand Journal of Zoology, 1982 *Journal of the Royal Society of New Zealand*, **United Empire**, 1914 **A Concise History of New Zealand** Philippa Mein Smith, 2012 The story of this rugged and dynamic land is beautifully narrated from its origins in Gondwana to the twenty-first century *A Catalogue of ... [books] ...* Bernard Quaritch (Firm), 1912 **Quaternary Extinctions** Paul S. Martin, Richard G. Klein, 2022-01-04 What caused the extinction of so many animals at or near the end of the Pleistocene Was it overkill by human hunters the result of a major climatic change or was it just a part of some massive evolutionary turnover Questions such as these have plagued scientists for over one hundred years and are still being heatedly debated today Quaternary Extinctions presents the latest and most comprehensive examination of these questions Geological Magazine May be regarded as a kind of standard encyclopedia for Pleistocene vertebrate paleontology for years to come American Scientist Should be read by paleobiologists biologists wildlife managers ecologists archeologists and anyone concerned about the ongoing extinction of plants and animals Science Uncommonly readable and varied for watchers of paleontology and the rise of humankind Scientific American Represents a quantum leap in our knowledge of Pleistocene and Holocene palaeobiology Many volumes on our bookshelves are destined to gather dust rather than attention But not this one Nature Two strong impressions prevail when first looking into this epic compendium One is the judicious balance of views that range over the whole continuum between monocausal cultural or environmental explanations The second is that both the data base and theoretical sophistication of the protagonists in the debate have improved by a quantum leap since 1967 American Anthropologist Racial Crossings Damon Ieremia Salesa, 2011-05-19 The Victorians were fascinated with intersections between different races Whether in sexual or domestic partnerships in interracial children racially diverse communities or societies these racial crossings were a lasting Victorian concern But in an era of imperial expansion when slavery was abolished colonial wars were fought and Britain itself was reformed these

concerns were more than academic In both the British empire and imperial Britain racial crossings shaped what people thought about race the future the past and the conduct and possibilities of empire Victorian fears of miscegenation and degeneration are well known this study turns to apparently opposite ideas where racial crossing was seen as a means of improvement a way of creating new societies or a mode for furthering the rule of law and the kingdom of Heaven Salesa explores how and why the preoccupation with racial crossings came to be so important so varied and so widely shared through the writings and experiences of a raft of participants from Victorian politicians and writers to philanthropists and scientists to those at the razor s edge of empire from soldiers missionaries and settlers to natives half castes and other colonized people Anchored in the striking history of colonial New Zealand where the colonial policy of racial amalgamation sought to incorporate and intermarry settlers and New Zealand Maori Racial Crossings examines colonial encounters working closely with indigenous ideas and experiences to put Victorian racial practice and thought into sharp critical relief

Journal of the Royal Society of New Zealand ,1988-03 **Historical Dictionary of Polynesia** Robert D. Craig,2011 The term Polynesia refers to a cultural and geographical area in the Pacific Ocean bound by what is commonly referred to as the Polynesian Triangle which consists of Hawai i in the north New Zealand in the southwest and Easter Island in the southeast Thousands of islands are scattered throughout this area most of which are currently included in one of the modern island states of American Samoa Cook Islands French Polynesia Hawai i New Zealand Samoa Tonga Tokelau Tuvalu and Wallis and Futuna The third edition of the Historical Dictionary of Polynesia greatly expands on the previous editions through a chronology an introductory essay an expansive bibliography and over 400 cross referenced dictionary entries on significant persons events places organizations and other aspects of Polynesian history from the earliest times to the present Appendixes of the major islands and atolls within Polynesia the rulers and administrators of the 13 major island states and basic demographic information of those states are also included
