## **Natural Resource Management For Sustainable Development In The Caribbean:**

Natural Resource Management for Sustainable Development in the Caribbean Ivan Goodbody, Elizabeth M.

Thomas-Hope, 2002 At the International Earth Summit convened in Rio de Janeiro in 1994 all nations of the world were mandated to protect the environment for the benefit of present and future generations This collection introduces the reader to the major issues involved in the management of a number of resources critical to Caribbean development The chapters discuss the sustainability of water fisheries and agriculture in the region from a variety of perspectives Particular emphasis is also given to the use of energy recreation and coastal resource management and their impact on the fragile ecosystem The book makes a contribution to the ongoing debate of sustainable environmental management within the region and the world

**Sustainable Development in the Caribbean** John Cox, C. Embree, Institute for Research on Public Policy, 1990 This document contains the conference papers which aimed to design appropriate incentives or disincentives to encourage sustainable development for three key areas policy enabling measures price change policies and policies directed at the needs of the resource user in Caribbean countries Papers also cover ideas which would enable these countries to cope with and respond to international pressures which are limiting their capacity to design implement and regulate sustainable development These pressures affect policies which concern international agencies and institutions regarding such issues as terms of trade debt financing and policing the unsustainable practices of multinational corporations and other countries

*Research Handbook on Biodiversity and Law* Michael Bowman, Peter Davies, Edward Goodwin, 2016-04-29 The crucial importance of biodiversity law to future human welfare is only now being fully appreciated This wide ranging Handbook presents a range of perspectives from leading international experts reflecting up to date research thinking on the vital subject of biodiversity and its interaction with law Through a rigorous examination of the principles procedures and practices that characterise this area of law this timely volume effectively highlights its objectives implementation achievements and prospects More specifically the work addresses the regulatory challenges posed by the principal contemporary threats to biological diversity the applicable general principles of international environmental law and the visions values and voices that are shaping the development of the law Presenting thematic rather than regime based coverage the editors demonstrate the state of the art of current research and identify future research needs and directions This comprehensive and authoritative Handbook will be an indispensable resource for legal scholars students and practitioners alike

*Ecological Health* Maya K. Gislason, 2013-09-11 Drawing on ecosystem thinking complexity and postnormal science Ecological Health offers a radical new way of thinking about the health issues of the 21st Century This volume reflects on recent social scientific engagement with Ecosystem Health research and practice and sets out a vision for the future

**Tools for Mainstreaming**

**Sustainable Development in Small States** Constance Vigilance, John Laing Roberts, 2011 This book provides a thorough grounding in bringing sustainable development to the forefront of policy making It advises small states on how to devise

practical national strategies addresses the need for legislative change and examines methods for monitoring progress Contributors range from international academics to economists Small Island States and Sustainable Development International Institute for Environment & Development,1995 **Placing Latin America** Ed Jackiewicz,Fernando J. Bosco,2008 An innovative text for students Placing Latin America takes a thematic approach to the study of the diverse human geographies of Latin America The book includes a discussion of the current problems of border and migration between the United States Mexico and the rest of Latin America as well as exciting chapters on themes not typically found in other textbooks on the region such as geographic analysis of the drug trade tourism landscapes and Latin American cinema

**Overcoming Factors of Unsustainability and Overexploitation in Fisheries** Food and Agriculture Organization of the United Nations,2005-01-01 This international workshop was organized in order to identify factors of unsustainability and over exploitation in fisheries and review major issues in the implementation of international fisheries instruments The Workshop was based on a review of discussion papers that took into account the outcomes of the previous workshops on these issues It addressed the following thematic issues governance and fisheries management causes or solutions for unsustainability access and fishing rights fishery management and sustainability dimensions and small scale issues and developing country perspective This document contains the report of the Workshop and eighteen discussion papers submitted by participants Integrating Sustainable Development into the Curriculum Enakshi Sengupta,Patrick Blessinger,Taisir Subhi Yamin,2020-03-18 This book explores the value of institutions of higher education in leading the way on the topic of sustainability education by ensuring that it is well entrenched in the curriculum as well as everyday practice and lifestyles *Caricom Single Market and Economy* Kenneth O. Hall,Myrtle Chuck-A-Sang,2007 The CARICOM Single Market and Economy CSME has for years been touted as the most critical pillar in Caribbean regional integration Yet for years the implementation of the CSME stalled due to the absence of a common view as to its feasibility the speed of its implementation the institutional capacity programming for public education and ultimately its benefits In this work a special edition of the Integrationist and put together by the UWI CARICOM project the CSME is explained in all its dimensions The contents cover the background to the establishment of the CSME and perspectives on its implementation The main provisions and expected benefits of the Single Market are also presented along with the strategic framework and efforts at resource mobilisation to make the CSME a reality The importance of the Caribbean Court of Justice to the effective functioning of the CSME is also outlined The book concludes with a call to the member states for a unity in both understanding and action in the pursuit of integration not as choice but rather as necessity The work is complemented by the inclusion of several appendices notably the original 1989 Grand Anse Declaration the 2005 PetroCaribe Agreement as well as an indicative plan of action by priorities and an outline of major technical assistance resource gaps **Resource Management, Sustainable Development and Governance** Baleshwar Thakur,Rajiv R. Thakur,Srikumar

Chattopadhyay, Rajesh K. Abhay, 2022-01-01 This book examines the relationship between natural resource management sustainable development and governance with case studies from India and other places covering disaster risk reduction conflict resolution capacity building climate change adaptation and resilience citizen engagement and ecological conservation Though the studies focus mostly on cases in India the volume discusses how governance can be employed to help develop and implement sustainable practices globally through the lens of the United Nations Sustainable Development Goals SDGs framework Readers will learn how to integrate concepts of resource management sustainable development and governance to improve human resilience to global environmental change and to assess the proper development approaches to assist economically stressed and resource deprived individuals The book will be of use to graduate students and academics policy makers planners and nonprofits

**Sustainable Development and Learning** William Scott, Stephen Gough, 2003 In this important new book the authors explore the role of learning in sustainable development The book sets out the key issues and raises concepts for discussion reflection and ongoing consideration by all stakeholders in this crucial field

*Overcoming Obstacles in Environmental Policymaking* John K. Gamman, 1994-12-05 This book examines why policies and laws intended to protect the environment often do not work In particular Gamman addresses the fundamental reasons why efforts to protect natural resources in the developing world generally fail He describes why environmental initiatives originating in national governments international foreign assistance agencies and environmental groups suffer from a dysfunctional decision making process And he suggests how to improve environmental policymaking by creating partnerships for sustainable development showing how to do this with a step by step negotiation process

**A.I.D. Research and Development Abstracts**, 1984 *A.I.D. Research and Development Abstracts* United States. Agency for International Development, 1989

**Responsible Living** Victoria W. Thoresen, Declan Doyle, Jorgen Klein, Robert J. Didham, 2015-02-04 Focusing on the challenges of the transition to responsible sustainable lifestyles this book examines developments over the last decade in relation to the creation of awareness of consumer citizenship civic involvement and environmental stewardship research projects and publications on education for responsible living the creation and implementation of relevant teaching methods and materials policies on education for sustainable consumption and lifestyles global processes for education on sustainable development The articles deal with topics related to policy support institutional approaches educators young people and local communities They draw attention to successful initiatives and reflect upon what still needs to be done The book also looks at the roles that central actors such as PERL The Partnership for Education and research about Responsible Living play in this process

*Sustaining the World's Wetlands* Richard Smardon, 2009-06-13 Wetlands throughout the world including those described in this book are among the most sensitive and vulnerable ecosystems They are critical habitats to the world's migratory birds and a broad range of endangered mammal reptile amphibian and plant species They provide a broad range of flood storage pollution control water supply ecotourism functions to indigenous peoples and country

populations as a whole They are also at the center of severe land and water use conflicts These are conflicts between countries where wetland resources or the water supplies required for such resources involve more than one country These are conflicts in use such as conflicts between habitat protection and charcoal production in mangroves These are conflicts between groups of peoples such as indigenous peoples and hydropower advocates Many wetlands have already been destroyed by water extractions dams levees channelization and fills Others have been degraded by water pollution overfishing and overhunting timber harvest and a host of other activities This book describes these conflicts and international policies and institutions developed to protect and manage wetland resources Most of the broader literature and other books on wetlands focuses on wildlife Wildlife is described in the case studies which follow But Richard Smardon provides us with more He traces the history of conflicts and the development of policies and institutions to protect and manage wetland resources

*Building Industries at Sea - 'Blue Growth' and the New Maritime Economy* Kate Johnson, Ian Masters, Gordon Dalton, 2022-09-01 Throughout the world there is evidence of mounting interest in marine resources and new maritime industries to create jobs economic growth and to help in the provision of energy and food security Expanding populations insecurity of traditional sources of supply and the effects of climate change add urgency to a perceived need to address and overcome the serious challenges of working in the maritime environment Four promising areas of activity for Blue Growth have been identified at European Union policy level including Aquaculture Renewable Energy offshore wind wave and tide Seabed Mining and Blue Biotechnology Work has started to raise the technological and investment readiness levels TRLs and IRLs of these prospective industries drawing on the experience of established maritime industries such as Offshore Oil and Gas Shipping Fisheries and Tourism An accord has to be struck between policy makers and regulators on the one hand anxious to direct research and business incentives in effective and efficient directions and developers investors and businesses on the other anxious to reduce the risks of such potentially profitable but innovative investments The EU H2020 MARIBE Marine Investment for the Blue Economy funded project was designed to identify the key technical and non technical challenges facing maritime industries and to place them into the social and economic context of the coastal and ocean economy MARIBE went on to examine with companies real projects for the combination of marine industry sectors into multi use platforms MUPs The purpose of this book is to publish the detailed analysis of each prospective and established maritime business sector Sector experts working to a common template explain what these industries are how they work their prospects to create wealth and employment and where they currently stand in terms of innovation trends and their lifecycle The book goes on to describe progress with the changing regulatory and planning regimes in the European Sea Basins including the Caribbean where there are significant European interests The book includes Experienced chapter authors from a truly multidisciplinary team of sector specialisms First extensive study to compare and contrast traditional Blue Economy with Blue Growth Complementary to EU and National policies for multi use of maritime space

*Encyclopedia of International Development* Tim Forsyth, 2018-10-24 International development is now a major global activity and the focus of the rapidly growing academic discipline of development studies The Encyclopedia of International Development provides definitions and discussions of the key concepts controversies and actors associated with international development for a readership of development workers teachers and students With 600 entries ranging in length from shorter factual studies to more in depth essays a comprehensive system of cross references and a full index it is the most definitive guide to international development yet published Development is more than a simple increase in a country's wealth and living conditions It also implies increasing people's choices and freedoms it is change that is inclusive and empowering Development theory and practice has important applications to questions of economic growth trade governance education healthcare gender rights and environmental protection and it involves issues such as international aid peacekeeping famine relief and strategies against HIV AIDS The Encyclopedia treats these topics and many more and provides critical analyses of important actors within development such as the United Nations and World Bank non governmental organizations and corporations Contributors to this volume reflect the multidisciplinary and international nature of the subject They come from social science disciplines such as economics international studies political science and anthropology and from specialities such as medicine This Encyclopedia provides crucial information for universities students and professional organizations involved with international development and those interested in related topics such as international studies or other studies of social and economic change today

*Managing Water Under Uncertainty and Risk: United Nations World Water Development Report #4 (3 Vols.)* UNESCO, 2012-01-01 Released every three years since March 2003 the United Nations World Water Development Report WWDR a flagship UN Water report published by UNESCO has become the voice of the United Nations system in terms of the state use and management of the world's freshwater resources The report is primarily targeted at national decision makers and water resource managers but is also aimed at educating and informing a broader audience from governments to the private sector and civil society It underlines the important roles water plays in all social economic and environmental decisions highlighting policy implications across various sectors from local and municipal to regional and international levels Similarly to the first two editions this report includes a comprehensive and up to date assessment of several key challenge areas such as water for food energy and human health and governance challenges such as institutional reform knowledge and capacity building and financing each produced by individual UN agencies
