losers and if so how Regional fisheries management organisations in whose gift participatory rights increasingly lie are perceptibly shifting their attention to this approach which has hitherto been little analysed this book provides a review of the practice of these bodies and the States that are their members The recently favoured response of governments combating IUU illegal unregulated and unreported fishing is shown to rest on a flawed concept and the solution might lie less in law than in legal policy compulsory dispute settlement to moderate their claims and an expansion of the possibilities of trading of quotas to make solving the global overcapacity issue easier **The Southwest Under Stress** Allen V.
