A Long Cold War Jerry Carrier, 2017-11-10. A Long Cold War is a two volume cultural history of Cold War America from 1945 to 1991. This is the story of America at her peak as a world power with the fear of nuclear war and the hyper competition with the USSR and China, a good read for the historical, nostalgic, or even casual reader.

Quentin Tarantino Edward Gallafent, 2014-09-11. Quentin Tarantino is one of the best known living American filmmakers in the world and the story of his career has been the subject of a number of books and articles. But what do his films mean? In this new study, Edward Gallafent does not look at Tarantino's story but at the films themselves. He asks to what extent Tarantino can be seen as a specifically American filmmaker with the kinds of preoccupations and interests that have formed part of Hollywood's traditions, and also how he explores the expressive possibilities of current cinema. The book concentrates on the main feature films of Tarantino's career so far: Reservoir Dogs, Pulp Fiction, Jackie Brown, and the two volumes of Kill Bill. Apart from Kill Bill, the films are not treated individually but in terms of some of the subjects that connect them together, such as success and tradition, their notorious deployment of violence, and Tarantino's approach to story telling, his interest in presenting events out of chronological order. The book also covers adaptations of Tarantino's work, looking at the screenplays of True Romance and Natural Born Killers, as well as the films made from them, and compares Tarantino's approach to adapting Elmore Leonard with that of another important American filmmaker, Paul Schrader. The aim of the book is to explore these topics and to take the reader back to what the American critic Robert Warshaw called the actual, immediate experience of seeing and responding to the movies. It is designed to appeal both to those who were excited by the films on first seeing them in the cinema, and to those taking the opportunity of reconsidering them on the screen or on DVD.

[Evil Eyes](#) Corey Mitchell, 2014-08-26 A deep dive into the twisted mind of *The Sunday Morning Slasher* from the Los Angeles Times bestselling author the leading voice of true crime Dennis McDougal More victims than Bundy In Houston Texas on a Sunday morning in spring Carl Coral Eugene Watts trapped two young women in their apartment Only hours before he'd killed another woman by drowning her in her bathtub As Watts attempted to do the same to twenty year old Lori Lister her

roommate made a daring escape leading to Watts's arrest. Watts confessed to thirteen murders but with no direct evidence he managed to plea bargain his sentence down to sixty years for burglary. Through the untiring efforts of investigators and the mother of one of his victims, Watts was finally convicted of murder and sentenced to life in prison where he remained the prime suspect in dozens of other slayings. Experts theorized that Watts may have slain more than Ted Bundy, Jeffrey Dahmer, and John Wayne Gacy combined.

Suzy Spencer, New York Times bestselling author: No one faces evil head on like Corey Mitchell.

Gregg Olsen, New York Times bestselling author: Corey Mitchell uncovers yet another level of the insanity behind the world of youth and violence.

Aphrodite Jones, New York Times bestselling author: **Simply Complexity**

Neil Johnson, 2009-10-01: The new branch of science which will reveal how to avoid the rush hour, overcome cancer, and find the perfect date. What do traffic jams, stock market crashes, and wars have in common? They are all explained using complexity, an unsolved puzzle that many researchers believe is the key to predicting and ultimately solving everything from terrorist attacks and pandemic viruses right down to rush hour traffic congestion. Complexity is considered by many to be the single most important scientific development since general relativity and promises to make sense of no less than the very heart of the Universe. Using it, scientists can find order emerging from seemingly random interactions of all kinds, from something as simple as flipping coins through to more challenging problems such as predicting shopping habits, the patterns in modern jazz, and the growth of cancer tumours.

Language, Ideology and Identity in Serial Killer Narratives Christiana Gregoriou, 2011-01-25: In this book, Gregoriou explores the portrayal of the serial killer identity and its related ideology across a range of contemporary crime narratives, including detective fiction, the true crime genre, and media journalism. How exactly is the serial killer consciousness portrayed, how is the killing linguistically justified, and how distinguishing is the language revolving around criminal ideology and identity across these narrative genres? By employing linguistic and content-related methods of analysis, her study aims to work toward the development of a stylistic framework on the representation of serial killer ideology across factual (i.e. media texts), fictional (i.e. true crime books), and fictional (i.e. novels) murder narratives. Schema is a term commonly used to refer to organised bundles of knowledge in our brains which are activated once we come across situations we have previously experienced, a group schema being one such inventory shared by many. By analysing serial murder narratives across various genres, Gregoriou uncovers a widely shared group schema for these murderers and questions the extent to which real criminal minds are in fact linguistically fictionalised. Gregoriou's study of the mental functioning and representation of criminal personas can help illuminate our schematic understanding of actual criminal minds.

Phillips, 2008-06-30 At the heart of any history of controversial films is a strange paradox while films especially popular and mainstream films are often portrayed as meaningless products of popular culture those popular films involved in public controversies become the focal point of enormous cultural energy political attention and profoundly conflicting sets of principles The ongoing culture wars continue to shape the American political landscape and controversial films continue to be a major point of conflict Controversial Cinema The Films that Outraged America traces the history of controversial films and offers insights into why it is that certain films spark controversies and how Americans typically react to controversial moviemaking Since the widespread banning of DW Griffith s The Birth of a Nation the American film industry has found itself embroiled in one political controversy after another These controversies have centered on everything from the portrayal of the past as in Griffith s film to depictions of sex and sexuality to the use of graphic violence and issues of race religion and politics In turn segments of the American public have been driven to boycott picket and even censor those films they felt challenged their sense of decency At the heart of this history of controversial films is a strange paradox while films especially popular and mainstream films are often portrayed as meaningless products of popular culture popular films involved in public controversies become the focal point of enormous cultural energy and political attention The ongoing culture wars thus continue to shape the American political landscape and controversial films continue to be a major point of conflict In the course of this wide ranging work Kendall Phillips offers insights into the kinds of films that spark controversies and the ways that Americans typically react to them Organized around broad controversial themes and with particular attention to mainstream films since the dissolution of the Motion Picture Production Code in the mid 1960s Controversial Cinema

explores why films spark broad cultural controversies how these controversies play out and the long term results The four broad areas of controversy examined in the work are Sex and Sexuality Violence Race and Religion Each chapter offers a broad overview of the history of these topics in controversial American films as well as more in depth examinations of recent examples including *The Silence of the Lambs* *Natural Born Killers* *Do the Right Thing* and *The Passion of the Christ* A final section of the book considers the broader issues of cultural politics in light of the long history of controversial cinema

Extra-Ordinary Men Nicola Rehling, 2010-06-21 *Extra Ordinary Men* analyzes popular cinematic representations of white heterosexual masculinity as the ordinary form of male identity one that enjoys considerable economic social political and representational strength Nicola Rehling argues that while this normative position affords white heterosexual masculinity ideological and political dominance such ordinariness also engenders the anxiety that it is a depthless vacuous and unstable identity At a time when the neutrality of white heterosexual masculinity has been challenged by identity politics this insightful volume offers lucid accounts of contemporary theoretical debates on masculinity in popular cinema and explores the strategies deployed in popular films to reassert white heterosexual male hegemony through detailed readings of films as diverse as *Fight Club* *Boys Don't Cry* and *The Matrix* Accessible to undergraduates but also of interest to film scholars the book makes a distinctive contribution to our understanding of the ways in which popular film helps construct and maintain many unexamined assumptions about masculinity gender race and sexuality

Theatres of Human Sacrifice Mark Pizzato, 2004-11-18 Contemporary debates about mass media violence tend to ignore the long history of staged violence in the theatres and rituals of many cultures In *Theatres of Human Sacrifice* Mark Pizzato relates the appeal and possible effects of screen violence today in sports movies and television news to specific sacrificial rites and performance conventions in ancient Greek Aztec and Roman culture Using the psychoanalytic theories of Lacan Kristeva and Žižek as well as the theatrical theories of Artaud and Brecht the book offers insights into the ritual lures and effects of current mass media spectatorship especially regarding the pleasures purposes and risks of violent display Updating Aristotle's notion of catharsis Pizzato identifies a sacrificial imperative within the human mind structured by various patriarchal cultures and manifested in distinctive rites and dramas with both positive and negative potential effects on their audiences
