Naturalists Garden:

Garden Natural History (Collins New Naturalist Library, Book 102) Stefan Buczacki, 2010-08-19 In a much anticipated addition to the New Naturalist library Stefan Buczacki takes a broad look at the relatively unexplored world of the garden and its relevance within the context of natural history overall

South Carolina Naturalists David Taylor, 1998 This collection of Civil War era letters includes epistles from the family of Charles Leverett an Episcopal clergyman and Lowcountry planter and his wife Mary Maxcy Leverett Carolinian

Utopia's Garden E. C. Spary, 2010-12-15 The royal Parisian botanical garden the Jardin du Roi was a jewel in the crown of the French Old Regime praised by both rulers and scientific practitioners Yet unlike many such institutions the Jardin not only survived the French Revolution but by 1800 had become the world's leading public establishment of natural history the Muséum d'Histoire Naturelle E C Spary traces the scientific administrative and political strategies that enabled the foundation of the Muséum arguing that agriculture and animal breeding rank alongside classification and collections in explaining why natural history was important for French rulers But the Muséum's success was also a consequence of its employees Revolutionary rhetoric by displaying the natural order they suggested the institution could assist in fashioning a self educating self policing Republican people Natural history was presented as an indispensable source of national prosperity and individual virtue Spary's fascinating account opens a new chapter in the history of France science and the Enlightenment

Public Garden Management: a Global Perspective BIJAN DEHGAN, 2014-04-15 Public Gardens Management A Global Perspective provides essential information about public gardens and what is involved in designing managing and maintaining one Although suitable as a textbook its audience will include anyone with direct or peripheral responsibility for administration or supervision of a complex organization that requires scientific knowledge as well as public relations and business acumen It may also prove useful for homeowners for there is no fundamental difference between growing plants in a public garden or a home garden a fact reflected in the extensive reference citations The topic is multidisciplinary and as old as the beginning of human civilization when the concept of mental and physical restoration was realized by early man while he/she was in a natural but well ordered garden environment Thus began the art of garden making Many volumes have been written on every applicable subject discussed in this and similar publications Indeed the voluminous literature on history design horticulture and numerous related subjects is nothing short of overwhelming Accordingly anyone involved in management of public gardens whether as a director or area supervisor and irrespective of the type and size of such facility would have to have familiarity with various aspects of garden organization and administration However despite the enormous number and diversity of such publications there are very few books that deal with the multiplicity of the topics in such a manner as to be practical in approach and cover most relevant and unified issues in a single book These volumes provide the essential background information on plants animals management maintenance fundraising and finances as well as history art

design education and conservation They also cover a host of interrelated subjects and responsible organization of such activities as creating a childrens garden horticultural therapy conservatories zoological gardens and parks hence administration of multidimensional public gardens Nearly 500 full color plates representing illustrations from gardens in more than 30 countries are provided to assist and guide students and other interested individuals with history and the fundamental issues of public garden management The 15 chapters begin with the need for public gardens types of public gardens historical backgrounds as well as design diversity Numerous quotations are included from many garden lovers landscape architects philosophers and others The authors primary aim in writing this book was based on the confidence that a relevant reference between the encyclopedic nature of some and the specific subject matter of others could be used to provide fundamental information for management of public as well as private gardens The boundary between botanical and zoological gardens and parks is no longer as distinct as it once was In part it is because a garden is not a garden without plants and in part it has become apparent that for all practical intents and purposes all animals need plants for their survival Visitors of zoological gardens expect to see more than just animals zoos are landscaped grounds Moreover most communities find it financially difficult to simultaneously operate a botanical garden or an arboretum as well as a zoological garden and city parks A number of public gardens are currently referred to as botanical and zoological garden Population density and the publics desires and expectations as well as financial requirements are among the reasons for some major city parks such as Golden Gate in San Francisco Central Park in New York City and Lincoln Park in Chicago which integrate botanical or zoological divisions as well as museums and recreational facilities While this book attempts to provide basic principles involved in public garden management it does not claim to be a substitute for broader familiarity The Naturalist's Garden

John Feltwell,1987-01-01 **Romantic Naturalists, Early Environmentalists** Dewey W. Hall,2016-04-08 In his study of Romantic naturalists and early environmentalists Dewey W Hall asserts that William Wordsworth and Ralph Waldo Emerson were transatlantic literary figures who were both influenced by the English naturalist Gilbert White In Part 1 Hall examines evidence that as Romantic naturalists interested in meteorology Wordsworth and Emerson engaged in proto environmental activity that drew attention to the potential consequences of the locomotive s incursion into Windermere and Concord In Part 2 Hall suggests that Wordsworth and Emerson shaped the early environmental movement through their work as poets turned naturalists arguing that Wordsworth influenced Octavia Hill s contribution to the founding of the United Kingdom s National Trust in 1895 while Emerson inspired John Muir to spearhead the United States National Parks movement in 1890 Hall s book traces the connection from White as a naturalist turned poet to Muir as the quintessential early environmental activist who camped in Yosemite with President Theodore Roosevelt Throughout Hall raises concerns about the growth of industrialization to make a persuasive case for literature s importance to the rise of environmentalism The Naturalists' Universal Directory ,1925 **Reports and Transactions - Cardiff Naturalists' Society** Cardiff Naturalists' Society,1892

List of members in v 2 9 13 22 27 31 36 42 46 etc *Naturalists and Society* D.E. Allen,2024-10-28 The author s aim in these essays which complement his pioneering books on natural history has been to find out more about the different categories of people who engaged in this field in the past and to piece together how the subject has been shaped by changes in society as a whole For long the historical study of natural history was neglected being questionably science as historians of science chose to define that word David Allen s work has done much to remedy this One group of the essays included here seeks to reinterpret and document more fully topics covered in *The Naturalist in Britain* others look at crazes that swept society notably the Victorian mania for fern collecting and at the biographies of some of the leading naturalists in 18th and 19th century Britain **English Naturalists from Neckam to Ray** Charles E. Raven,Raven,2010-10-31 Demonstrates how changing attitudes to the natural world influenced scientific thought between the medieval period and the eighteenth century

The Naturalist's Directory ,1914 *The Ottawa Naturalist* ,1905 *The Canadian Field-naturalist* ,1904 *The Science of Describing* Brian W. Ogilvie,2008-09-15 Out of the diverse traditions of medical humanism classical philology and natural philosophy Renaissance naturalists created a new science devoted to discovering and describing plants and animals Drawing on published natural histories manuscript correspondence garden plans travelogues watercolors and drawings *The Science of Describing* reconstructs the evolution of this discipline of description through four generations of naturalists In the late fifteenth and early sixteenth centuries naturalists focused on understanding ancient and medieval descriptions of the natural world but by the mid sixteenth century naturalists turned toward distinguishing and cataloguing new plant and animal species To do so they developed new techniques of observing and recording created botanical gardens and herbaria and exchanged correspondence and specimens within an international community By the early seventeenth century naturalists began the daunting task of sorting through the wealth of information they had accumulated putting a new emphasis on taxonomy and classification Illustrated with woodcuts engravings and photographs *The Science of Describing* is the first broad interpretation of Renaissance natural history in more than a generation and will appeal widely to an interdisciplinary audience **Guide to Garden Wildlife (2nd edition)** Richard Lewington,2019-09-05 The definitive go to wildlife guide for all 16 million British gardens Mike Dilger Even the smallest garden can be an important haven for wildlife and this authoritative guide enables everyone to explore this wealth on their back doorstep It covers all the main animal groups including pond life likely to be found in a garden in Great Britain and Ireland Detailed descriptions and information on life history behaviour and occurrence are provided for more than 500 species as well as practical information on creating a pond for wildlife making nestboxes and feeding birds Richard Lewington acknowledged as one of the finest natural history artists in Europe has teamed up with his brother Ian one of our most respected bird artists to provide nearly 1 000 superbly detailed colour artworks to complement the text Presented in an accessible easy to use format this fully updated and expanded edition covers everything from blue tits to bumblebees and hedgehogs to hawkmoths *Naturalists at Sea* Glyn

Williams,2013-10-22 DIV On the great Pacific discovery expeditions of the long eighteenth century naturalists for the first time were commonly found aboard ships sailing forth from European ports Lured by intoxicating opportunities to discover exotic and perhaps lucrative flora and fauna unknown at home these men set out eagerly to collect and catalogue study and document an uncharted natural world div DIV div DIV This enthralling book is the first to describe the adventures and misadventures discoveries and dangers of this devoted and sometimes eccentric band of explorer scholars Their individual experiences are uniquely their own but together their stories offer a new perspective on the extraordinary era of Pacific exploration and the achievements of an audacious generation of naturalists Historian Glyn Williams illuminates the naturalist s lot aboard ship where danger alternated with boredom and quarrels with the ship s commander were the norm Nor did the naturalist s difficulties end upon returning home where recognition for years of work often proved elusive Peopled with wonderful characters and major figures of Enlightenment science among them Louis Antoine de Bouganville Joseph Banks John Reinhold Forster Captain Cook and Charles Darwin this book is a gripping account of a small group of scientific travelers whose voyages of discovery were to change perceptions of the natural world div **Rehabilitation** Timothy James Brearton,2009-08 Everything Jack Aiello does is for himself A smash mouth from Brooklyn Jack is addicted aimless obsessed with women and drink That is until the notorious Brandis brothers send him on a job to locate the criminal brothers only nephew who has disappeared somewhere around Burlington Vermont He sees the job as a chance to sober up and start over But just as Jack begins to get a taste of the good life he s been craving he also begins to realize that he can never have it Mad biochemists government conspiracies double agents and religious crusaders await Jack as he falls deeper into the rabbit hole in Vermont s Northern Kingdom From self absorbed alcoholic to gun wielding sleuth Jack finally becomes what we all must eventually should we want to achieve our highest self a man willing to die for that which is most precious to him Copy by Geoffrey Pierce The Naturalists Stephen R. Bown,2002 This volume provides portraits of the early naturalists who explored the New World in the pre Darwinian Age The late eighteenth and early nineteenth centuries in Europe and America saw the dawn of a golden age of science in which society energetically sought to quantify categorize and rationally explain the world The author profiles nine important naturalists both dedicated professionals and amateurs who set off for what is now North and South America to discover and document the natural wonders they found there Their stories of adventure are punctuated with hardship both in finding the financing to get their ventures off the ground and the vagaries of the elements they encountered in the New World Despite the odds these explorers either traveling with artists or as artists themselves chronicled their adventures in both words and pictures providing a unique portrait of the natural world in North South and Central America before parts of it became widely settled **Biographical Dictionary of American and Canadian Naturalists and Environmentalists** George A.
