Naturalists, Conservationists, and Environmentalists Eileen Lucas, 1994 This volume profiles ten Americans who have worked to understand document and protect America's natural wilderness Profiles include John James Audubon John Muir Aldo Leopold Rachel Carson Autobiography of a Naturalist and Environmentalist R. B. Eltringham, S. K. Eltringham, 2012-04-17 This book is an autobiography based on Keith's memoirs which he wrote shortly before he died in 2006 not for publication but for his descendants who might be interested in how he spent his life He didn't think there would be wide interest but this was far from true and in fact he wrote a most interesting story of his life especially in Africa where he lived with his family for several years Keith was born in 1929 in rural Canada on the prairies of Alberta He was always passionate about animals and wanted nothing else than a life involving animals and this was something that he achieved He went to school in Bristol and was educated at Southampton University and Cambridge where he taught for several years He had a wide knowledge of the animal world and was very knowledgeable about every animal that he met He acquired an encyclopedic knowledge of the animal world and he wanted nothing more than to learn all he could about animals and to this end as a youngster he established a so-called zoo in the garden Our mother was not too happy when he introduced ants to what he called Ant Island which was an upturned dust bin lid **Biographical Dictionary of American and Canadian Naturalists and Environmentalists** George A. Harmond, 2009-06-15 Modern American Environmentalists profiles the lives and contributions of nearly 140 major figures during the twentieth-century environmental movement Included are iconic environmentalists such as Rachel Carson E. O. Wilson Gifford Pinchot and Al

Gore and important but less expected names including John Steinbeck and Allen Ginsberg. The entries recount how each individual became active in environmental conservation, detail his or her significant contributions, trace the influence of each on future efforts, and discuss the person's legacy. The individuals selected for the book displayed either an unparalleled commitment to the conservation, preservation, restoration, and enhancement of the natural environment or made a major contribution to the growth of environmentalism during its first century. With a foreword by environmental historian Everett R. Mendelsohn, a time line of key environmental events, a bibliography of groundbreaking works, and an index organized by specialization, this biographical encyclopedia is a handy and complete guide to the major people involved in the modern American environmental movement.

Hargrove, Reed F. Noss, Max Oelschlaeger, J. Baird Callicott, George Sessions, M. S. Swaminathan, Gilbert F. White, Michael E. Kraft, Michael P. Cohen, Paul Ekins, and many others.

Romantic Naturalists, Early Environmentalists Dewey W. Hall, 2016-04-08. In his study of Romantic naturalists and early environmentalists, Dewey W. Hall asserts that William Wordsworth and Ralph Waldo Emerson were transatlantic literary figures who were both influenced by the English naturalist Gilbert White. In Part 1, Hall examines evidence that as Romantic naturalists interested in meteorology, Wordsworth and Emerson engaged in proto-environmental activity that drew attention to the potential consequences of the locomotive's incursion into Windermere and Concord. In Part 2, Hall suggests that Wordsworth and Emerson shaped the early environmental movement through their work as poets turned naturalists, arguing that Wordsworth influenced Octavia Hill's contribution to the founding of the United Kingdom's National Trust in 1895, while Emerson inspired John Muir to spearhead the United States National Parks movement in 1890. Hall's book traces the connection from White as a naturalist turned poet to Muir as the quintessential early environmental activist who camped in Yosemite with President Theodore Roosevelt. Throughout, Hall raises concerns about the growth of industrialization to make a persuasive case for literature's importance to the rise of environmentalism.

Politically Incorrect Guide to Global Warming and Environmentalism Christopher C. Horner, 2007-02-12. In *The Politically Incorrect Guide to Global Warming and Environmentalism*, Christopher C. Horner tears the cover off the Left's manipulation of environmental issues for political purposes and lays out incontrovertible evidence for the fact that catastrophic man-made global warming is just more Chicken Little hysteria, not actual science. He explains why, although Al Gore and his cronies among the media elites and UN globalists endlessly bleat that global warming is an unprecedented global crisis, they really think of it as a dream come true. It

s the ideal scare campaign for those who hate capitalism and love big government

Conservation of the Black-Tailed Prairie Dog John Hoogland,2013-04-09 The prairie dog is a colonial keystone species of the grassland ecosystem of western North America Myriad animals regularly visit colony sites to feed on the grass there to use the burrows for shelter or nesting or to prey on the prairie dogs Unfortunately prairie dogs are disappearing and the current number is only about 2% of the number encountered by Lewis and Clark in the early 1800s Part I of *Conservation of the Black Tailed Prairie Dog* summarizes ecology and social behavior for pivotal issues such as when prairie dogs breed how far they disperse how they affect other organisms and how much they compete with livestock Part II documents how loss of habitat poisoning plague and recreational shooting have caused the precipitous decline of prairie dog populations over the last 200 years Part III proposes practical solutions that can ensure the long term survival of the prairie dog and its grassland ecosystem and also are fair to private landowners We cannot expect farmers and ranchers to bear all the costs of conservation while the rest of us enjoy all the benefits With 700 references 37 tables 75 figures and photographs and a glossary *Conservation of the Black Tailed Prairie Dog* is a unique and vital contribution for wildlife managers politicians environmentalists and curious naturalists

A Conservative Environmentalist Thomas G. Smith,2024-06-07 A wealthy textile titan from Carlisle Pennsylvania Frank Masland Jr was an ardent political conservative and an equally fervent conservationist who was well known and highly respected in the mid twentieth century environmental preservation community This eye opening biography charts Masland s life work telling the story of how he and fellow Republicans worked with Democrats to expand the national park system preserve wild country and protect the environment Though a conservative conservationist appears to be a contradiction in terms today this was not necessarily the case when Masland and his compatriots held sway Conservatives Masland insisted had a duty to be good stewards of the earth for present and future generations and they worked closely with members of both parties in Congress and nonpolitical conservation groups to produce landmark achievements When conservatives turned against environmentalism during the Reagan presidency Masland refused to join what historians have termed the Republican reversal During his long life of nearly a hundred years Masland used his voice influence experiences with nature and considerable wealth to champion environmental causes at the national state and local levels Engaging informative and at times eyebrow raising this portrait of a passionately anti statist nature loving Republican environmentalist documents the history of the twentieth century conservation movement and reminds us of a time when conservative Republicans could work with liberal Democrats to protect the environment
