*The Politics of Kinship* Mark Rifkin,2024-01-29 What if we understood the idea of family as central to representing alternative forms of governance as expressions of racial deviance In *The Politics of Kinship* Mark Rifkin shows how ideologies of family including notions of kinship recast Indigenous and other forms of collective self organization and self determination

as disruptive racial tendencies in need of state containment and intervention Centering work in Indigenous studies Rifkin illustrates how conceptions of family and race work together as part of ongoing efforts to regulate assault and efface other political orders The book examines the history of anthropology and its resonances in contemporary queer scholarship contemporary Indian policy from the 1970s onward the legal history of family formation and privacy in the United States and the association of blackness with criminality across US history In this way Rifkin seeks to open new possibilities for envisioning what kinds of relations networks and formations can and should be seen as governance on lands claimed by the United States

Wilhite, 2011-06-24 Who was Tertullian and what can we know about him This work explores his social identities focusing on his North African milieu Theories from the discipline of social cultural anthropology including kinship class and ethnicity are accommodated and applied to selections of Tertullian's writings In light of postcolonial concerns this study utilizes the categories of Roman colonizers indigenous Africans and new elites The third category new elites is actually intended to destabilize the other two denying any essential Roman or African identity Thereafter samples from Tertullian's writings serve to illustrate comparisons of his own identities and the identities of his rhetorical opponents The overall study finds Tertullian's identities to be manifold complex and discursive Additionally his writings are understood to reflect antagonism toward Romans including Christian Romans which is significant for his so called Montanism and Romanized Africans While Tertullian accommodates much from Graeco Roman literature laws and customs he nevertheless retains a strongly stated non Roman ness and an African ity which is highlighted in the present monograph

Counseling Women Julia Kowalski, 2022-10-11 Women's rights activists around the world have commonly understood gendered violence as the product of so-called traditional family structures from which women must be liberated. *Counseling Women* contends that this perspective overlooks the social and cultural contexts in which women understand and navigate their relationships with kin. This book follows frontline workers in India called family counselors as they support women who have experienced violence at home in the context of complex shifting legal and familial systems. Drawing on ethnographic research at counseling centers in Jaipur, Rajasthan, Julia Kowalski shows how an individualistic notion of women's rights places already vulnerable women into even more precarious positions by ignoring the reality of the social relations that shape lives within and beyond the family. Thus, rather than focusing on attaining independence from kin, family counselors in India instead strive to help women cultivate relationships of interdependence in order to reimagine family life in the wake of violence. Counselors mobilize the beliefs, concepts, and frameworks of kinship to offer women interactive strategies to gain agency within the family, including multigenerational kin networks encompassing parents, in-laws, and other extended family. Through this work, kinship becomes a resource through which people imagine and act on new familial futures. In viewing this reliance on kinship as part of, rather than a deviation from, global women's rights projects, *Counseling Women* reassesses Western liberal feminism's notions of what it means to have agency and what constitutes violence and retheorizes the role of interdependence in gendered violence and inequality as not only a site of vulnerability but a potential source of strength.

**Karl Marx, Anthropologist** Thomas C. Patterson, 2020-05-31 After being widely rejected in the late 20th century, the work of Karl Marx is now being reassessed by many theorists and activists. *Karl Marx, Anthropologist* explores how this most influential of modern thinkers is still highly relevant for Anthropology today. Marx was profoundly influenced by critical Enlightenment thought. He believed that humans were social individuals that simultaneously satisfied and forged their needs in the contexts of historically particular social relations and created cultures. Marx continually refined the empirical, philosophical, and practical dimensions of his anthropology throughout his lifetime. Assessing key concepts from the differences between class-based and classless societies to the roles of exploitation, alienation, and domination in the making of social individuals, *Karl Marx, Anthropologist* is an essential guide to

Marx's anthropological thought for the 21st century      **Marriage in Past, Present and Future Tense** Janet Carsten, Hsiao-Chiao Chiu, Siobhan Magee, Eirini Papadaki, Koreen M. Reece, 2021-09-01 Marriage globally is undergoing profound change provoking widespread public comment and concern Through the close ethnographic examination of case studies drawn from Africa Asia Europe and North America Marriage in Past Present and Future Tense places new and changing forms of marriage in comparative perspective as a transforming and also transformative social institution In conditions of widespread socio political inequality and instability how are the personal the familial and the political co produced How do marriages encapsulate the ways in which memories of past lives present experience and imaginaries of the future are articulated Exploring the ways that marriage draws together and distinguishes history and biography ritual and law economy and politics in intimate family life this volume examines how familial and personal relations and the ethical judgements they enfold inform and configure social transformation Contexts that have been partly shaped through civil wars cold war and colonialism as well as other forms of violent socio political rupture offer especially apt opportunities for tracing the interplay between marriage and politics But rather than taking intimate family life and gendered practice as simply responsive to wider socio political forces this work explores how marriage may also create social change Contributors consider the ways in which marital practice traverses the domains of politics economics and religion while marking a key site where the work of linking and distinguishing those domains is undertaken      **The Routledge Companion to Media Anthropology** Elisabetta Costa, Patricia G.
