Can Christianity experience a twenty-first century renaissance? Can it again serve as a welcoming home for authentic Truth seekers who aspire to genuine spiritual and mystical experience? *Naturally Miraculous* describes the path of bringing this long-sought objective into being. First, it contains a strong refutation of today's sectarian, orthodox Christianity and argues for a return to what Christianity originally was before the rise of Roman Catholicism when it was the more mystical, Universalist religion Jesus intended it to be. Second, it examines mysticism and cosmic consciousness from the theological, philosophical, and psychological perspectives and how it has been a part of humanity's spiritual quest and religious cultures, particularly Christianity throughout history. It ultimately describes a new way of being Christian, a way in

which we are to follow the example of Jesus and take the path he describes to the kingdom of God which is the attainment of Christ consciousness or mystical realization In Naturally Miraculous we see how achieving the consciousness of Christ has been humanity s ultimate purpose all along
