

NATURE POEMS

'Nature' Is What We See

Nature' is what we see—
The Hill—the Afternoon—

Before The Throne Of Beauty Xxvi

One heavy day I ran away from the grim face of society
and the dizzying clamor of the city and directed my
weary step to the spacious alley.

Alone In The Woods

Alone in the woods I felt
The bitter hostility of the sky and the trees

Nature

Nature is beautiful
nature is fun

Nature's Lullaby

Sounds of singing birds so early in the morn
Is a beauty in life that no one can adorn.

A Moth The Hue Of This

A Moth the hue of this
Haunts Candles in Brazil.

Lucy's Song

How beautiful at eventide
To see the twilight shadows pale,

Beauty And The Beast

Nature is beautiful, quiet, and serene,
nature is the forest, with its many shades of green.

NATURE IN ENGLISH LITERATURE. BY EDMUND BLUNDEN. Edmund Blunden, 1970 **Haunted Spaces in**

Twenty-First Century British Nature Writing Anneke Lubkowitz, 2020-06-08 This study investigates the figure of haunting in the New Nature Writing It begins with a historical survey of nature writing and traces how it came to represent an ideal of natural space as empty of human history and social conflict Building on a theoretical framework which combines insights from ecocriticism and spatial theory the author explores the spatial dimensions of haunting and hauntology and shows how 21st century writers draw on a Gothic repertoire of seemingly supernatural occurrences and spectral imagery to portray natural space as disturbed uncanny and socially contested Iain Sinclair and Robert Macfarlane are revealed to apply psychogeography's interest in hidden histories and haunted places to spaces associated with wilderness and the countryside Kathleen Jamie's allusions to the Gothic are put in relation to her feminist re-writing of the outdoors and John Burnside's use of haunting is shown to dismantle fictions of the far north This book provides not only a discussion of a wide range of factual and fictional narratives of the present but also an analysis of the intertextual dialogue with the Romantic tradition which enfolds in these texts

Ecological Footprints in Literature: An Excursion into Selected Nature Writings and Nature Novels Dr. Archana R. Kadiyan, 2022-08-22 The book provides a comprehensive view of the environmental discourses that are found in the literary representations of the natural world The book presents an in depth analysis of the symbolic manifestations of the outer world in various genres of literature such as nature novels and nature or ecological writings It deeply captures the mutual interactions that occur between the human and the non human world that tend to influence each other's actions and processes By exploring the ecocritical leanings and tracing all the phases of Anthropocene the book takes its readers for a deep excursion into the beautiful dynamic natural and overtly spiritual world of Nature as exhibited in the writings such as Thoreau's Walden Khushwant Singh's Nature Watch and Starhawk's The Earth Path which is contrasted against the eco catastrophic world of Rachel Carson's Silent Spring An insightful and analytical journey into the world of more unique portrayals of the ecological world that tend to strike a balance between two distinct worlds the real and the imaginative the spiritual and the material as well as the natural and the man made as reflected in the nature novels George Eliot's Mill on the Floss Khushwant Singh's I Shall not Hear the Nightingale Starhawk's Fifth Sacred Thing and Ernest Callenbach's Ecotopia A Novel The book thus with its underpinning wisdom will be an interesting and more enlightening read for the critics academicians and researchers

Nature in Indian Philosophy and Cultural Traditions Meera Baidur, 2015-05-19 Working within a framework of environmental philosophy and environmental ethics this book describes and postulates alternative understandings of nature in Indian traditions of thought particularly philosophy The interest in alternative conceptualizations of nature has gained significance after many thinkers pointed out that attitudes to the environment are determined to a large extent by our presuppositions of nature This book is particularly timely from that perspective It begins with a brief description of the concept of nature and a history of the idea of nature in Western thought This provides readers with a context to the issues around the concept of nature in environmental philosophy setting a foundation for further discussion

about alternate conceptualizations of nature and their significance In particular the work covers a wide array of textual and non textual sources to link and understand nature from classical Indian philosophical perspectives as well as popular understandings in Indian literary texts and cultural practices Popular issues in environmental philosophy are discussed in detail such as What is nature in Indian philosophy How do people perceive nature through landscape and mythological and cultural narratives In what ways is nature sacred in India To make the discussion relevant to contemporary readers the book includes a section on the ecological and ethical implications of some philosophical concepts and critical perspectives on alternate conceptualizations of nature

Piers Plowman and the Books of Nature Rebecca Ann Davis, 2016 *Piers Plowman and the Books of Nature* explores the relationship of divine creativity poetry and ethics in William Langland's fourteenth century dream vision These concerns converge in the poem's rich vocabulary of *kynde* the familiar Middle English word for nature broadly construed But in a remarkable coinage Langland also uses *kynde* to name nature's creator who appears as a character in *Piers Plowman* The stakes of this representation could not be greater by depicting God as *Kynde* that is under the guise of creation itself Langland explores the capacity of nature and of language to bear the plenitude of the divine In doing so he advances a daring claim for the spiritual value of literary art including his own searching form of theological poetry This claim challenges recent critical attention to

the poem's discourses of disability and failure and reveals the poem's place in a long and diverse tradition of medieval humanism that originates in the twelfth century and indeed points forward to celebrations of nature and natural capacity in later periods By contextualizing Langland's poetics of kynde within contemporary literary philosophical legal and theological discourses Rebecca Davis offers a new literary history for *Piers Plowman* that opens up many of the poem's most perplexing interpretative problems *An Interpretation of Nature in the Novellen of Theodor Storm* Sister Rose Elizabeth
